For many years, the promise of high quality, low cost video conferencing has been an attractive solution for businesses interested in cutting travel costs while maintaining the benefits of face-to-face contact.

Unfortunately, most solutions never lived up to the promise, due primarily to lack of internet bandwidth and poorly developed protocols. That's no all changed. The capacity has been created, the hardware works, and businesses are more eager than ever to cut down on travel costs.

identify and resolve nagging quality of service issues such as transmission delays and out of synch video-to-voice feeds

In 2013, manufacturers Motorola Mobility released the first in its G line of mobile Smartphone to the public. Since this initial launch, the company has managed to create and manufacture smartphones targeted at meeting the demand for multiple features, creativity and a trendy design. The latest releases in the Moto G line come in the form of the Moto G4 and the Moto G4 Plus; both released in mid 2016 and both, according to reviews, boasting the high quality for which the brand has become renowned.
