“...a valuable contribution both to the world of scholarship and to the larger public discourse”-JAIRAM RAMESH The Indus Waters Treaty between India and Pakistan marks six decades, but carries the reflection of 5000 years of history Indus Basin Uninterrupted, with an easy narration and rich archival material, brings alive a meandering journey of peace, conflict and commerce on the Indus basin. The Indus system of rivers, as a powerful symbol of the passage of time, represents not only the interdependence and interpenetration of land and water, but equally the unfolding of political identities, social churning and economic returns. From Alexander’s campaign to Muhammad-bin-Qasim crossing the Indus and laying the foundation of Muslim rule in India: from the foreign invaders and their ‘loot and scoot’ to the Mughal rulers’ perspective on hydrology and water use: from the British ‘great game’ on the Indus basin to the bitter and bloody Partition; and finally, as a historical pause, the signing of the Indus Waters Treaty-this book is a spectrum of spectacular events, turning points, and of personalities and characters and their actions that were full of marvel.

At the heart of peaceful coexistence in today’s fissured world lies the family. It is here that the individual first learns to interact with people, and picks up the valuable trait of tolerance. For, as in the family, so too in the world outside, no two people are the same. Differences are inevitable, and to surmount them tolerance is a must. It is this and other aspects of living happily and harmoniously in a family and how these attitudes can be replicated in society that Acharya Mahapragya discusses in this book. The subject is all the more important today as the family is itself facing a crisis as it struggles to survive against a rising tide of individuality and self-centredness. The Happy and Harmonious Family provides a number of solutions to everyday familial problems, and various practices of contemplative meditation which will enable a reader to overcome negativity within the family. With its emphasis on time-tested values and practical solutions, this book is a valuable guide to helping shape a better life.

This schoolroom drama that inspired the classic Sydney Poiitir film is “ a microcosm of the racial issues . . . A dramatic picture of discrimination ” (Kirkus Reviews). With opportunities for black men limited in post–World War II London, Rick Braithwaite, a former Royal Air Force pilot and Cambridge-educated engineer, accepts a teaching position that puts him in charge of a class of angry, unmotivated, bigoted white teenagers whom the system has mostly abandoned. When his efforts to reach these troubled students are met with threats, suspicion, and derision, Braithwaite takes a radical new approach. He will treat his students as people poised to enter the adult world. He will teach them to respect themselves and to call him “ Sir. ” He will open up vistas before them that they never knew existed. And over the course of a remarkable year, he will touch the lives of his students in extraordinary ways, even as they in turn, unexpectedly and profoundly, touch his. Based on actual events in the author ’ s life, To Sir, With Love is a powerfully moving story that celebrates courage, commitment, and vision, and is the inspiration for the classic film starring Sidney Poiitir.

“How does it feel to be a problem?” asked W. E. B. Du Bois of black Americans in his classic The Souls of Black Folk. A hundred years later, Vijay Prashad asks South Asians “How does it feel to be a solution?” In this kaleidoscopic critique, Prashad looks into the complexities faced by the members of a “model minority”—one, he claims, that is consistently deployed as “a weapon in the war against black America.” On a vast canvas, The Karma of Brown Folk attacks the two pillars of the “model minority” image, that South Asians are both inherently successful and pliant, and analyzes the ways in which U.S. immigration policy and American Orientalism have perpetuated these stereotypes. Prashad uses irony, humor, razor-sharp criticism, personal reflections, and historical research to challenge the arguments made by Dinesh D’Souza, who heralds South Asian success in the U.S., and to question the quiet accommodation to racism made by many South Asians. A look at Deepak Chopra and others whom Prashad terms “Godmen” shows us how some South Asians exploit the stereotype of inherent spirituality, much to the chagrin of other South Asians. Following the long engagement of American culture with South Asia, Prashad traces India’s effect on thinkers like Cotton Mather and Henry David Thoreau, Ravi Shankar’s influence on John Coltrane, and such essential issues as race versus caste and the connection between antiracism activism and anticolonial resistance. The Karma of Brown Folk locates the birth of the “model minority” myth, placing it firmly in the context of reaction to the struggle for Black Liberation. Prashad reclaims the long history of black and South Asian solidarity, discussing joint struggles in the U.S., the Caribbean, South Africa, and elsewhere, and exposes how these powerful moments of alliance faded from historical memory and were replaced by Indian support for antiblack racism. Ultimately, Prashad writes not just about South Asians in America but about America itself, in the tradition of Tocqueville, Du Bois, Richard Wright, and others. He explores the place of collective struggle and multiracial alliances in the transformation of self and community-in short, how Americans define themselves.
