Beginning Topology is designed to give undergraduate students a broad notion of the scope of topology in areas of point-set, geometric, combinatorial, differential, and algebraic topology, including an introduction to knot theory. A primary goal is to expose students to some recent research and to get them actively involved in learning. Exercises and open-ended projects are placed throughout the text, making it adaptable to seminar-style classes. The book starts with a chapter introducing the basic concepts of point-set topology, with examples chosen to captivate students' imaginations while illustrating the need for rigor. Most of the material in this and the next two chapters is essential for the remainder of the book. One can then choose from chapters on map coloring, vector fields on surfaces, the fundamental group, and knot theory. A solid foundation in calculus is necessary, with some differential equations and basic group theory helpful in a couple of chapters. Topics are chosen to appeal to a wide variety of students: primarily upper-level math majors, but also a few freshmen and sophomores as well as graduate students from physics, economics, and computer science. All students will benefit from seeing the interaction of topology with other fields of mathematics and science; some will be motivated to continue with a more in-depth, rigorous study of topology.

This is a psychedelic odyssey through dreams of love and death. Comprising eighty poems by Gino Vallejo, Shades of Blue: The Journey of Awakening is truly a trip—one brought fully to life by the haunting artwork of Stephanie LeVasseur. From Bethlehem to Byzantium, from ancient Egypt to modern Iraq, from cosmic shores to home and heart, we drift along as selfless spirits, probing fallen empires' rubble, cursing despotism's war, extolling family, praising God—surrendering to passion. Seductively cryptic and trenchant in turn, Vallejo bridges the dark extremes—man's genesis and apocalypse, freedom and fascism, heaven and hell, the fruits of ardor and thorns of greed—while scrutinizing timeless truths that, sunken, lie between. Intimate and sprawling at once, defiant of form but blended by beauty, each selection—cadenced hymn or cold lament—is singular, and glistening with implication, no one scene is fixed in place. The words change shape at second glance, as layered meanings mix and meld. A labyrinth of yearning leads to paradisaal vistas. Bespeaking angst and tenderness and decrying those who tie the trammels, beckoning salvation's bliss, the trek will be a certain joy for William Blake enthusiasts. En route, we sing a song of earth and promises beyond.

The siege of Winslow House continues! Devil is up against the thugs trying to invade and possibly the house itself. What makes this seemingly rundown building so special and will its tenants survive to find out?
