For years, experts have argued over the tiny details of exactly how they do what they do, and how their various components interact. What's undeniable is that, far more than being just a "loudness booster," the unique combination of tubes, capacitors, resistors, and transformers in these amps can contribute enormously to the quality of sound derived from any electric guitar. In this thorough and authoritative book, Dave Hunter cuts through the marketing hyperbole, and the blind faith, and supplies all the information you need to choose the right amp, and get the best from it. The book also features exclusively conducted, in-depth interviews with leading figures in the tube amp-building world including Ken Fischer, Mark Sampson, and Michael Zaitz and even provides full instructions on how to construct your own high-quality tube guitar amp from scratch.

"A hot-rod joy ride through mid-20th-century American history" (The New York Times Book Review), this one-of-a-kind narrative masterfully recreates the rivalry between the two men who innovated the electric guitar's amplified sound—Leo Fender and Les Paul—and their intense competition to convince rock stars like the Beatles, Jimi Hendrix, and Eric Clapton to play the instruments they built. In the years after World War II, music was evolving from big-band jazz into rock 'n' roll—and these louder styles demanded revolutionary instruments. When Leo Fender's tiny firm marketed the first solid-body electric guitar, the Esquire,

musicians immediately saw its appeal. Not to be out-manuevered, Gibson, the largest guitar manufacturer, raced to build a competitive product. The company designed an "axe" that would make Fender's Esquire look cheap and convinced Les Paul—whose endorsement Leo Fender had sought—to put his name on it. Thus was born the guitar world's most heated rivalry: Gibson versus Fender, Les versus Leo. While Fender was a quiet, half-blind, self-taught radio repairman, Paul was a brilliant but headstrong pop star and guitarist who spent years toying with new musical technologies. Their contest turned into an arms race as the most inventive musicians of the 1950s and 1960s—including bluesman Muddy Waters, rocker Buddy Holly, the Beatles, Bob Dylan, and Eric Clapton—adopted one maker's guitar or another. By 1969 it was clear that these new electric instruments had launched music into a radical new age, empowering artists with a vibrancy and volume never before attainable. In "an excellent dual portrait" (The Wall Street Journal), Ian S. Port tells the full story in *The Birth of Loud*, offering "spot-on human characterizations, and erotic paeans to the bodies of guitars" (The Atlantic). "The story of these instruments is the

story of America in the postwar era: loud, cocky, brash, aggressively new" (The Washington Post).

(Book). In Confessions of a Vintage Guitar Dealer , Norman Harris tells how he became the world's leading seller of vintage guitars. As founder and owner of the legendary store Norman's Rare Guitars, he has sold some of the finest fretted string instruments to the biggest stars in the world, including George Harrison, Bob Dylan, Tom Petty, and many others. In 1970 Harris moved to Los Angeles in hopes of hitting the big time in music. His first plan was performing, but plan B was buying and selling guitars, and he had no idea how much opportunity for this there would be. Many groups came to LA also hoping to hit it big, but those who didn't might have to sell their instruments. This helped make early-1970s Los Angeles a haven for beautiful vintage guitars. At the same time, Hollywood was beginning to realize the value of time-correct instruments in film, and the recording industry recognized the high-quality sound vintage instruments produced. The value of these instruments has grown dramatically since the '70s, and the vintage guitar market has become an international phenomenon with Norman Harris at the

center of it all. Filled with fascinating stories and insights into the entertainment business, *Confessions of a Vintage Guitar Dealer* is an intriguing memoir from a man who has spent a lifetime getting extraordinary instruments into the hands of extraordinary artists.
