Books, and the printed word more generally, are aspects of modern life that are all too often taken for granted. Yet the emergence of the book was a process of immense historical importance and heralded the dawning of the epoch of modernity. In this much praised history of that process, Lucien Febvre and Henri-Jean Martin mesh together economic and technological history, sociology and anthropology, as well as the study of modes of consciousness, to root the development of the printed word in the changing social relations and ideological struggles of Western Europe.

The #1 New York Times–bestselling author of A Discovery of Witchesexamines the real-life history of the scientific community of Elizabethan London. Travel to the streets, shops, back alleys, and gardens of Elizabethan London, where a boisterous and diverse group of men and women shared a keen interest in the study of nature. These assorted merchants, gardeners, barber-surgeons, midwives, instrument makers, mathematics teachers, engineers, alchemists, and other experimenters formed a patchwork scientific community whose practices set the stage for the Scientific Revolution. While Francis Bacon has been widely regarded as the father of modern science, scores of his London contemporaries also deserve a share in this distinction. It was their collaborative, yet often contentious, ethos that helped to develop the ideals of modern scientific research. The book examines six particularly fascinating episodes of scientific inquiry and dispute in sixteenth-century London, bringing to life the individuals involved and the challenges they faced. These men and women experimented and invented, argued and competed, waged wars in the press, and struggled to understand the complexities of the natural world. Together their stories illuminate the blind alleys and surprising twists and turns taken as medieval philosophy gave way to the empirical, experimental culture that became a hallmark of the Scientific Revolution. ‘Elegant and erudite.’ —Anthony Grafton, American Scientist ‘A truly wonderful book, deeply researched, full of original material, and exhilarating to read.’ —John Carey, Sunday Times ‘Widely accessible.’ —Ian Archer, Oxford University ‘Vivid, compelling, and panoramic, this revelatory work will force us to revise everything we thought we knew about Renaissance science.’ —Adrian Johns, author of The Nature Book

The Coming of the Book

The author of I'll Never Be French returns to his faux-pas-filled Francophile life in this "smart, delicious memoir of life off the beaten track in France" (Julie Barlow, author of The Bonjour Effect). Despite the two decades that have passed since Mark Greenside's snap decision to buy a house in Brittany and begin a bi-continental life, the quirks of French living still manage to confound him. Returning once again to the small Breton town of Plobien, he finds himself humbled by imminent concerns: What does he cook for a French person? Who has the right-of-way when entering a roundabout? Where does he pay for a parking ticket? And most dauntingly of all, when can he touch the tomatoes? (Not Quite) Mastering the Art of French Living details Greenside's daily adventures in his adopted French home, where the simplest tasks are never straightforward but always end in a great story. Greenside's beloved 2009 memoir, I'll Never Be French, introduced the English-speaking world to the region of Brittany in the tradition of Peter Mayle's homage to Provence. Experienced Francophiles and armchair travelers alike will delight in this new chapter exploring the practical and philosophical questions of French life. A WALL STREET JOURNAL BESTSELLER

"...a daunting triumph of will pushing its way through imposing roadblocks to a magical country, an absurdist nirvana of humor, pathos, and loss."--Time magazine A Void is a metaphysical whodunit, a story chock-full of plots and subplots, of trails in pursuit of trails, all of which afford Perec occasion to display his virtuosity as a verbal magician. It is also an outrageous verbal stunt: a 300-page novel that never once employs the letter E. The year is 1968, and as France is torn apart by social and political anarchy, the noted eccentric and insomniac Anton Vowl goes missing. Ransacking his Paris flat, his best friends scour his diary for clues to his whereabouts. At first glance these pages reveal nothing but Vowl's penchant for word games, especially for "lipograms," compositions in which the use of a particular letter is suppressed. But as the friends work out Vowl's verbal puzzles, and as they investigate various leads discovered among the entries, they too disappear, one by one by one, and under the most mysterious circumstances . . .

This title examines the work of 35 artists, including Jimmie Durham, David Hammons, José Bedía, Rebecca Belmore and James Lee Byars, who began using ritualistic practices during the 1970s and 1980s as a way of reinterpreting aspects of their cultural heritage.

How To Win Friends And Influence People

This book offers a highly revealing and troubling view of today's high school students and the ways they pursue high grades and success. Denise Pope, veteran teacher and curriculum expert, follows five motivated and successful students through a school year, closely shadowing them and engaging them in lengthy reflections on their school experiences. What emerges is a double-sided picture of school success. On the one hand, these students work hard in school, participate in extracurricular activities, serve their communities, earn awards and honours, and appear to uphold school values. But on the other hand, they feel that in order to get ahead they must compromise their values and manipulate the system by scheming, lying, and cheating. In short, they do school, that is, they are not really engaged with learning nor can they commit to such values as integrity and community. The words and actions of these five students - two boys and three girls from diverse ethnic and socioeconomic backgrounds - underscore the frustrations of being caught in a grade trap that pins future success to high grades and test scores. Their stories raise critical questions that are too important for parents, educators, and community leaders to ignore. Are schools cultivating an environment that promotes intellectual curiosity, cooperation, and integrity? Or are they fostering anxiety, deception, and hostility? Do today's schools inadvertently impede the very values they claim to embrace? Is the success that current assessment practices measure the kind of success we want for our children?

This lavishly illustrated and comprehensive volume is the first devoted entirely to the subject of Irish furniture and woodwork. It provides a detailed survey—encompassing everything from medieval choir stalls to magnificent drawing-room suites for the great houses—from earliest times to the end of the eighteenth century. The first part of the book presents a chronological history, illustrated with superb examples of Irish furniture and interior carving. In a lively text, the Knight of Glin and James Peill consider a broad range of topics, including a discussion of the influence of Irish craftsmen in the colonies of America. The second part of the book is a fascinating pictorial catalogue of different types of surviving furniture, including chairs, stools, baroque sideboards, elegant tea and games tables, bookcases, and mirrors. The book also features an index of Irish furniture-makers and craftsmen of the eighteenth century, compiled from Dublin newspaper advertisements and other contemporary sources.

Author and teacher Mark Greenside recounts his struggles to fit into the life of a small Celtic village in Brittany.

A moving portrait of the lives of six poor city-dwellers, set in early twentieth century colonial Saigon Historian Haydon Cherry offers the first comprehensive social history of the urban poor of colonial French Saigon by following the lives of six individuals—a prostitute, a Chinese laborer, a rickshaw puller, an orphan, an incurable invalid, and a destitute Frenchman—and how they navigated the ups and downs of the regional rice trade and the institutions of French colonial rule in the first half of the twentieth century. "Down and Out in Saigon is marked by three qualities that endow it with unusual value: the originality of its subject matter, as the first and only history of colonial Saigon's poor population, the excellence of its research, and Cherry's elegant prose."--Peter B. Zinoman, University of California, Berkeley "This is more than a corrective of revolutionary historiography—it is a tour de force that brings marginal and forgotten lives into the story of modern Vietnamese history."--Charles Keith, author of Catholic Vietnam: A Church from Empire to Nation

System 1 is fast, intuitive, and emotional; System 2 is slower, more deliberative, and more logical. The impact of overconfidence on corporate strategies, the difficulties of predicting what will make us happy in the future, the profound effect of cognitive biases on everything from playing the stock market to planning our next vacation—each of these can be understood only by knowing how the two systems work and decisions. Engaging the reader in a lively conversation about how we think, Kahneman reveals where we can and cannot trust our intuitions and how we can tap into the benefits of slow thinking. He offers practical and enlightening insights into how choices are made in both our business and our personal lives—and how we can use different techniques to guard against the mental glitches that often get us into trouble. Winner of the National Academy of Sciences Best Book Award and the Los Angeles Times Book Prize and selected by The New York Times Book Review as one of the ten best books of 2011, Thinking, Fast and Slow is destined to be a classic.

DIV This landmark book looks at what it means to be a multiracial couple in the United States today. According to Our Hearts begins with a look back at a 1925 case in which a two-month marriage ends with a man suing his wife for misrepresentation of her race, and shows how our society has yet to come to terms with interracial marriage. Angela Onwuachi-Willig examines the issue by drawing from a variety of sources, including her own experiences. She argues that housing law, family law, and employment law fail, in important ways, to protect multiracial couples. In a society in which marriage is used to give, withhold, and take away status—in the workplace and elsewhere—she says interracial couples are at a disadvantage, which is only exacerbated by current law. /div

" This is a brilliant and hardheaded book. It will frighten those who prefer not to dwell on the unthinkable and infuriate those who have taken refuge in stereotypes and moral attitudinizing. " —Gordon A. Craig, New York Times Book Review Originally published more than fifty years ago, this landmark book explores the ways in which military capabilities—real or imagined—are used, skillfully or clumsily, as bargaining power. Anne-Marie Slaughter ’ s new introduction to the work shows how Schelling ’ s framework—conceived of in a time of superpowers and mutually assured destruction—still applies to our multipolar world, where wars are fought as much online as on the ground.

À la rencontre du cin éma fran çais: analyse, genre, histoire is intended to serve as the core textbook in a wide variety of upper-level undergraduate and graduate French cinema courses. In contrast to content-, theme-, or issue-based approaches to film, Professor Berg stresses " the cinematically specific, the warp and fabric of the film itself, the stuff of which it is made: ' Sufficient proficiency in French is the sole prerequisite: " No previous background in film studies is assumed, nor is any prior acquaintance with French cinema. It will help, of course, to like movies, and to have seen quite a few. ' (from the preface).

Spanish Sentence Builders is a workbook aimed at beginner to pre-intermediate students co-authored by two modern languages educators with over 40 years of extensive classroom experience between the two, both in the UK and internationally. This 'no-frills' book contains 19 units of work on very popular themes, jam-packed with graded vocabulary-building, reading, translation, retrieval practice and writing activities. Key vocabulary, lexical patterns and structures are recycled and interleaved throughout.Each unit includes:1) a sentence builder modelling the target construction;2) a set of vocabulary building activities;3) a set of narrow reading texts exploited through a range of tasks focusing on both the meaning and structural levels of the text; - a set of retrieval-practice translation tasks;4) a set of writing tasks targeting essential micro-skills such as spelling, lexical retrieval, syntax, editing and communication of meaning.Based on the Extensive Processing Instruction (E.P.I.) principle that learners learn best from comprehensible and highly patterned input flooded with the target linguistic features, the authors have carefully designed each and every text and activity to enable the student to process and produce each item many times over.

This occurs throughout each unit of work as well as in smaller grammar, vocabulary and question-skills micro-units located at regular intervals in the book, which aim at reinforcing the understanding and retention of the target grammar, vocabulary and question patterns.

A la rencontre économique commentator provides a penetrating account of the threats to China's continued economic rise Under President Xi Jinping, China has become a large and confident power both at home and abroad, but the country also faces serious challenges. In this critical take on China's future, economist George Magnus explores four key traps that China must confront and overcome in order to thrive: debt, middle income, the Renminbi, and an aging population. Looking at the political direction President Xi Jinping is taking,

Magnus argues that Xi's authoritarian and repressive philosophy is ultimately not compatible with the country's economic aspirations. Thorough and well researched, the book also investigates the potential for conflicts over trade, China's evolving relationship with Trump, and the country's attempt to win influence and control in Eurasia through the Belt and Road initiative.

Promenades, 2nd Edition, focuses on building those skills introductory students need to feel confident while immersing themselves in authentic French culture.
