Neuman and Baretti's Dictionary of the Spanish and English Languages; Wherein the Words are Correctly Explained, Agreeably Tho Their Different Meanings, and a Great Variety of Terms, Relating to the Arts, Sciences, Manufactures, Merchandise, Navigation, and Trade, Elucidated

El 13 de octubre de 1972, un niño de la Fuerza Aérea Uruguaya, que llevaba al equipo de rugby Old Christians—y muchos de sus amigos y familiares— se estrelló en medio de la cordillera de los Andes. Tenía que sobrevivir es el relato cautivante y desgarrador de esa larga experiencia con la muerte que impulsó a uno de sus sobrevivientes, Roberto Canessa, a convertirse en uno de los cardiólogos infantiles más conocidos en el mundo. Cuando atendía a sus compañeros heridos en medio de la carnicería devastadora que produjo el accidente, Roberto Canessa, que en aquel entonces tenía diecinueve años y era un estudiante de segundo año de medicina, se sintió la persona más afortunada del planeta: estaba vivo— y por eso mismo, debía estar eternamente agradecido. Mientras el grupo fámelico luchaba por sobrevivir, más allá de los límites de lo imaginable, Canessa jugó un rol fundamental para salvar a los demás sobre-vivientes, atravesando, con un compañero, la cordillera de los Andes, exámenes y sin ningún tipo de equipo, en busca de ayuda. Esta delgada línea entre la vida y la muerte se transformó en un catalizador para el resto de su vida. Tenía que sobrevivir trata de un iluminador relato de esperanza y determinación, solidaridad e ingenio, que aporta una nueva perspectiva a una historia mundialmente conocida. Canessa traza un paralelismo único u fascinante entre su trabajo diagnosticando cardiopatías congénitas muy complejas en niños recién nacidos u fetos, y las decisiones difíciles de los Andes a muerte que fue forzado a tomar en los Andes. Con ternura y humanismo, Canessa nos incita a preguntarnos: ¿Que hacer cuando todo está tu contra?

"We are called to acknowledge how beautiful, true and good it is to start a family, to be a family today... We are called to make known God's magnificent plan for the family...as we accompany them amidst so many difficulties." - Pope Francis, February 20, 2014 For Pope Francis, as for his predecessors Saint John Paul II and Pope Emeritus Benedict XVI, this is more than just talk. It is a rallying cry. This is the focus of the 2015 World Meeting of Families: Love is Our Mission: The Family Fully Alive. For Catholics everywhere, it is a time to renew our focus on the family, the "domestic church" - what it means, why it's important, how it fits in with God's plan for us, and how we can become who God created us to be. Here is a new, fresh, and insightful way to do just that. In Love is Our Mission, Spanish edition, you can easily explore Catholic teaching on marriage, family, sexuality, children, human dignity, and the sanctity of life. It's a guided tour through scripture and 2000 years of Church teaching in which you are awakened to the relationship God wants to have with you, the family, and ultimately the world. Self-reflection or group discussion questions bring the teachings home in a very real and practical way. As Pope Francis has said, we must, "keep before us the beauty of the family and marriage, the greatness of this human reality which is so simple and yet so rich..."

Se que este prólogo normalmente es escrito por una tercera persona pero, como siempre, romperé las reglas de "etiqueta" y lo escribiré yo. Quizás suene egoísta, pero nadie mejor que yo misma, para explicar en un breve resumen, que me inspira a escribir este Manual. Llevo ya en esta bella profesión, casi 40 años de mi vida, he estado y participado de cientos de evoluciones agigantadas que han ocurrido década tras década. He visto crecer de modo abismal la química, la tecnología, y he visto disminuir la calidad educativa de las aulas. Veo generaciones de coleccionistas de diplomas, en vez de coleccionar SABER... Conocimiento.... Expertos.

The Art of Awakening the Genius in Your Students. I believe that teaching is a calling, and it is far from being a cliché. Teachers develop the human capacity to do the unimaginable. It is not the school location, the curriculum, the cool app, or the grading system that activates learning. Understanding and using an effective learning process is what enables students to find the motivation to learn for life. This is how teachers who care touch their students' lives, and this is how they contribute to a better world. Becoming Einstein's Teacher will help you understand what it is to be a genius, how the brain works, and what it means to learn in the 21st century driven by artificial intelligence. Becoming Einstein's Teacher will show you how to tap into this one thing ALL your students have that enables lifelong learning without extra-curriculum, new tech, more hours in class, or endless homework nights. Becoming Einstein's Teacher will show you how you can start from where you are without going through a complete change in your practices. Becoming Einstein's Teacher will help you grow larger into your calling and get your students on the path to purpose-driven, lifelong learning "Becoming Einstein's Teacher is a stroke of genius, a personal journey that compiles the thoughts of modern education leaders into a comprehensive and inspiring deep look into how we got here and how to move forward to harness the genius in each of us. Every chapter leaves me saying 'hell yeah'" - Virginia Emmons, School Principal and mother of two. "Becoming Einstein's Teacher is definitely a complementary addition to my work with personalized learning and Habits of Mind. It provides insight into what it means to be a teacher in the 21st century. Understanding it and putting it into practice may be a challenging task for those who have been teaching for many years. Yet, Erika manages to simplify a deep and complex methodology that honors the 21st-century learners' need for relationships, agency, and engagement." - Dr. Bena Kallick, Educator, Author. ??The most challenging aspect to coaching when introducing anything to teachers is the requirement to change. Becoming Einstein's Teacher asks for no change, but to start from where teachers are. Brilliant" - Leonardo Garner, former Minister of Education, Costa Rica.
