Selected Stories

Tough, Tough Toys for Tough, Tough Boys is a new collection of cork-screwed tales from the author of Great Apes. The Guardian (London) describes Will Self as "a wayward genius," and you can find out why when you observe the author's pitiless dissection of the foibles of men, women, and the Volvo 760 Turbo. Self's world is a no-funhouse of warped mirrors. A man is seduced into a misanthropically charged symbiosis with the insects infesting his cottage—he has entered "Flytopia." In "A Story for Europe," a two-year-old English child utters his first, halting words . . . in business German. In "Caring, Sharing," status-conscious New Yorkers navigate the perils of dating along with their very literal "inner children." In "The Rock of Crack as Big as the Ritz," a black Londoner discovers an enormous rock of crack cocaine underpinning his house—and quickly turns it into an efficient little empire. In the title story a psychoanalyst strips away all the sangfroid of his professionalism to find beneath . . . precisely nothing. And in the short novella "The Nonce Prize," a man framed for a sex crime he didn't commit finds that his only way out is to win a short-story competition. Sharp, funny, and packed with verbal fireworks, Tough, Tough Toys for Tough, Tough Boys confirms yet again Will Self's stature as one of the most accomplished and original writers of his generation.

In May 2005 Penguin will publish 70 unique titles to celebrate the company's 70th birthday. The titles in the Pocket Penguins series are emblematic of the renowned breadth of quality of the Penguin list and will hark back to Penguin founder Allen Lane's vision of good books for all'. earned his reputation through a body of innovative, experimental and to some upsetting work. All his fiction is available in Penguin editions and the two stories collected in Design Faults in the Volvo 760 Turbo illustrate Self's gift for finding the extraordinary, the surreal and the downright absurd amidst the mundanities of modern life.

There are more than 4000 miles of navigable waterways in Great Britain, with more in Ireland and Europe. Peaceful canals, bustling rivers, glorious lakes - there is something for everyone. This book will tell the reader all they need to know about how to get afloat - which boat to choose, whether to hire or buy, how much it will cost, and where they can go. Boat handling and manoeuvring are covered in detail, along with maintenance and repair. And there is a section on trailer boating for those who want to keep their boat at home, advice on living aboard for long periods, night-time navigation and training. This is the only book novices will need to take their first steps afloat, and it is the one they will keep by them throughout their boating years. 'This is the book to
