The Farrell name is respected all along the British Columbia coast. Barrie's father, Allen Farrell, was a much loved eccentric who created offshore sailing

Get Free Volvo Penta Ad41b Engine

vessels from beachcombed lumber using only basic hand tools. Barrie built his first boat in his early teens using only a dull handsaw, a rusty block plane and an old

Get Free Volvo Penta Ad41b Engine

hammer with one claw. Despite his Grade Six education, Barrie became one of the leading innovators when fibreglass first became available. His designs

Get Free Volvo Penta Ad41b Engine

incorporated flowing curves and shaped details that were not possible with wood. Barrie was one of the first to realize that modern fishboats needed

Get Free Volvo Penta Ad41b Engine

to be fast, and consequently, his gillnetters and trollers dominated the BC salmon fleet in the 1970s and 1980s. By the late 1990s, he had built over

Get Free Volvo Penta Ad41b Engine

300 commercial and pleasure boats and left a profound stamp on West Coast boat building. Boats in My Blood isn't just about the boats. Barrie also shares the

Get Free Volvo Penta Ad41b Engine

story of his life—the highs and the lows. His memories of growing up in Pender Harbour provide an amusing picture of fishing village life in the

Get Free Volvo Penta Ad41b Engine

1950s, and his sharp eye for character makes for many amusing anecdotes. He is frank about his periodic bouts of overzealous partying and his bad business

Get Free Volvo Penta Ad41b Engine

dealings, but through it all his engaging character and unquenchable good nature shine through. Boats in My Blood is a fascinating chronicle of

a life devoted to the art of the boat.
