This well written,
poignant, fast-paced novel
focuses on what women did
in the Great War that
turned Europe upside down
and devastated so many
millions of lives. It
follows the path that
leads Ellie Warburton from
a curiously isolated,
upper class childhood in
the wilds of north
Lancashire, to pre-war
campaigning as a non-

The youngest of "the three beautiful Warburton sisters," Ellie is idealistic, romantically minded, yet determined to make her mark in the world. The eldest sister Matty is ambitiously self-centred. While she cares deeply for suffering humanity en masse, she has no understanding of individual emotion. Vicky is a born hedonist and while similarly self-

They raised companies, served as intelligence officers and doctors, while the great love of Ellie's life, Luke Stoddard, born and brought up in a dreaded workhouse, served as a 'tommy' in the trenches before becoming a famous war artist. They were a doomed generation. How many survived the war? In the later years of his

one of his most readable and entertaining, written with characteristic eloquence and conviction, and at times with combative trenchancy. Johnson's fifty-two biographies constitute a detailed survey of English poetry from the early seventeenth century down to his own time, with extended discussions of Cowley, Milton, Waller, Dryden, Addison, Prior, Swift, Pope, and Gray. The Lives also include Johnson's memorable biography of the enigmatic Richard Savage (1744), the

friend of his own early years in London. Roger Lonsdale's Introduction describes the origins, composition, and textual history of the Lives, and assesses Johnson's assumptions and aims as biographer and critic. The commentary provides a detailed literary and historical context, investigating Johnson's sources, relating the Lives to his own earlier writings and conversation, and to the critical opinions of his contemporaries, as well as illustrating their early

The Captain's Story

This is a true historical account of war in the air, at sea and on land in the battle for Malta's survival in the Second World War. It was a battle which decided the outcome of the war in North Africa and the Mediterranean. Adrian Warburton, the airman described in the subtitle by Marshal of the Royal Air Force Lord Tedder, went missing in 1944 in a single-seat American aircraft. He had flown at least 395 operational missions mostly

from Malta. Unusually for a reconnaissance pilot, 'Warby' as he was known was credited with nine aircraft shot down. He lay undiscovered for sixty years. He is the RAF's most highly decorated photo-recce pilot. In Malta, Adrian met Christina, a stranded dancer turned aircraft plotter in the secret world deep beneath Valletta's fortress walls. She too was decorated for heroism. Together, they became part of the island's folklore. How important was Malta and the girl from Cheshire to the man behind the

In between, the reader is immersed within the tension and drama surrounding Malta's Greater Siege retracing the steps of the main characters over the forever changed face of the island following its heroic victory. Adrian Warburton (known to all as Warby) was one of the most highly decorated pilots of the war. Fearless in the air, he won fame in Malta for his invaluable photo reconnaissance work

to be over-looked. With his glamorous girl-friend Christina, the two became part of Malta's legend, symbols of the island's resistance. Still in Malta, Warby later became CO of first 69 Squadron and then 683 PR Squadron. After contributing greatly to the success of the Sicily landings, for which he was personally thanked by General Alexander, he commanded 336 PR Wing in North Africa. By then he was working closely with the Americans with whom he got on so well, as he did with the Canadians and

After a serious car accident, which caused him to be grounded, he returned to the UK and, thanks to his friendship with Elliott Roosevelt, the President's son, took up a liason job with the US PR Group at Mount Farm. On April 12, 1944 Warburton departed in an American aircraft on an unusual mission over Europe. Both plane and pilot disappeared without trace, giving rise to a host of rumours that his disappearance was intentional. Only now almost 60 years later, can the mystery be solved with

they knew they faced a daunting task. Since the war, only four Lions sides had returned victorious, the last in 1997. In the modern era of professional rugby, some even questioned if the Lions concept still had a place. How could a mixture of of northern hemisphere nations come together and take on the might of one of the southern giants? Under coach Warren Gatland and captain Sam Warburton, the Lions of 2013 looked to overcome the doubters and to show they could still make the Lions roar.

As captain, Warburton himself had to face questions over his form and fitness, but he emerged to lead his side to a stunning 23-21 victory in the first Test in Brisbane. The second Test was lost by the narrowest of margins, but the Lions bounced back to record an epic 41-16 triumph to seal the series. In this book, Warburton relives the entire Lions experience, from the moment he learned he had been chosen to captain the side to the time he got to raise the
