

Weac Further Maths Past Question Papers And Answers

Textbooks play a key role in enhancing the quality of learning, especially in the context of low-income Sub-Saharan African (SSA) countries characterized by large class-size, poorly motivated and inadequately trained teachers, and short effective school years. There are also high rates of illiteracy among parents and few reading materials at home for the student to bank on. Despite extensive investments by governments, the World Bank and other development partners, the majority of students in primary and secondary schools in SSA still lack the benefit of access to textbooks and the key reason for this shortage is affordability: textbooks are generally much more costly in SSA than in other developing regions. The need to increase access to key learning resources is of particular urgency because most African countries experience low learning outcomes which in part contributes to a high drop-out rate. Only two-thirds of those who enter school reach the final grade and only about half of these master basic numeracy and literacy skills. And although quality improvement depends on many factors inside and outside the school, there is wide agreement that availability of textbooks is both an indispensable and a cost-effective way of improving the quality of the learning process. A recent World Bank study examined the actual costs of textbooks, the scope for cost reduction, the portion of a national budget countries allocate to teaching and learning materials (TLMs) and hurdles in the way of making textbooks available to student. Some interesting findings from the study – – The availability of affordable textbooks to all students could be dramatically improved by devoting an estimated 3 to 4 percent of the primary education budget and 6 to 7 percent of the secondary education budget – The production process i” methods, copyright, length of print runs, effective procurement practices i” rather than the production costs should be the target of cost saving strategies – The increased integration of ICTs into education in SSA can provide important opportunities for promoting availability of electronic TLMs but electronic TLMs are not a substitute for printed TLMs including textbooks

Wuthering Heights is the name of Mr. Heathcliff’s dwelling. ŌwutheringŌ being a significant provincial adjective, descriptive of the atmospheric tumult to which its station is exposed in stormy weather. Pure, bracing ventilation they must have up there at all times, indeed: one may guess the power of the north wind blowing over the edge, by the excessive slant of a few stunted firs at the end of the house; and by a range of gaunt thorns all stretching their limbs one way, as if craving alms of the sun. Happily, the architect had foresight to build it strong; the narrow windows are deeply set in the wall, and the corners defended with large jutting stones. Before passing the threshold, I paused to admire a quantity of grotesque carving lavished over the front, and especially about the principal door; above which, among a wilderness of crumbling griffins and shameless little boys, I detected the date Ō1500,Ō and the name ŌHareton Earnshaw.Ō I would have made a few comments, and requested a short history of the place from the surly owner; but his attitude at the door appeared to demand my speedy entrance, or complete departure, and I had no desire to aggravate his impatience previous to inspecting the penetralium. One stop brought us into the family sitting-room, without any introductory lobby or passage: they call it here Ōthe houseŌ pre-eminently. It includes kitchen and parlour, generally; but I believe at Wuthering Heights the kitchen is forced to retreat altogether into another quarter: at least I distinguished a chatter of tongues, and a clatter of culinary utensils, deep within; and I observed no signs of roasting, boiling, or baking, about the huge fireplace; nor any glitter of copper saucepans and tin cullenders on the walls. One end, indeed, reflected splendidly both light and heat from ranks of immense pewter dishes, interspersed with silver jugs and tankards, towering row after row, on a vast oak dresser, to the very roof. The latter had never been under-drawn: its entire anatomy lay bare to an inquiring eye, except where a frame of wood laden with oatcakes and clusters of legs of beef, mutton, and ham, concealed it. Above the chimney were sundry villainous old guns, and a couple of horse-pistols: and, by way of ornament, three gaudily-painted canisters disposed along its ledge. The floor was of smooth, white stone; the chairs, high-backed, primitive structures, painted green: one or two heavy black ones lurking in the shade. In an arch under the dresser reposed a huge, liver-coloured bitch pointer, surrounded by a swarm of squealing puppies; and other dogs haunted other recesses.

Invisible Man is a milestone in American literature, a book that has continued to engage readers since its appearance in 1952. A first novel by an unknown writer, it remained on the bestseller list for sixteen weeks, won the National Book Award for fiction, and established Ralph Ellison as one of the key writers of the century. The nameless narrator of the novel describes growing up in a black community in the South, attending a Negro college from which he is expelled, moving to New York and becoming the chief spokesman of the Harlem branch of “the Brotherhood,” and retreating amid violence and confusion to the basement lair of the Invisible Man he imagines himself to be. The book is a passionate and witty tour de force of style, strongly influenced by T.S. Eliot’s The Waste Land, Joyce, and Dostoevsky. I know who I am Kelvin seemed desperate to win his father’s approval. However, Mr Eze not only seemed unwilling to bestow it, but hell bent in making life unbearable for his acclaimed son. Kelvin thought it would be best to find his true family rather than endure the torture of being the unwanted child. He realised that his quest for recognition was unlikely to succeed, so he set his eyes on freedom. In the meantime, Kelvin expected that a good academic performance would change his luck and put him right with Mr Eze or at least boost his confidence in his abilities. With all his attention on his studies, competing for the best grades against the leading brains in his class, especially Christian, an indomitable rival, he would not let school romance get in the way of his goal. But slowly and steadily, Chioma, gained his trust and won him over. He would have to make a decision between holding on to his moral principle or satisfying his human desire for friendship. New Home, New Identity Marginalised and decimated, the Biafran people were forced to go war and secede from Nigeria. But decades after losing the war and embracing the Nigerian identity, they are still not treated as equal citizens in their home country. As a new wave of terrorism sweeps the northern parts of the country, the Biafran people, predominantly Igbo are again decimated as they have been for decades in every crises and this led to renewed discussions about their independence. For Biafra, the fight for equality was over and their Sovereignty was not negotiable. For Kelvin, it wasn’t very different, and so his quest for truth and independence must begin. His compulsory holiday in Igbo land would expose him to the truth that might have indirectly caused him to abandon his academic pursuit. Perhaps, it was just an excuse to free himself from the clutch of Mr Eze and begin his quest for the truth about his identity.

This paper generally lends support to the arguments advanced by Awonusi (1989, 1990, 2004) and others in favour of an endonormative as opposed to an exonormative standard for English pronunciation in Nigeria. They include the fact that the existing, exonormative standard, British Received Pronunciation (RP), has undergone and is still undergoing changes in its homeland, and is not homogeneous. The heightened social mobility of today’s world perhaps works against the demarcation and homogenization of language varieties, and this is all the more true of the varieties or lects that have been proposed for Nigerian English when these are related, more or less explicitly, to educational attainment. Major attention is given in the paper to a schema of basilect, mesolect, and acrolect presented by Ugorji (2010), with a focus on his account of vowels and his presentation of a mechanism derived from optimality theory for evaluating vowels in contention. The basilect and the mesolect are found to be so close to each other that they might be combined. There would then be just two varieties. In contrast, the acrolect is close to British RP, albeit with many variants due to the conflict of two standardising forces, i.e. British RP and the basilect-mesolect. The vowel system of an officially adopted endonormative standard – ‘Nigerian RP’ – would mainly be the same as that of British RP, but the optimality mechanism could be employed to give preference to some of the Nigerian variants for inclusion in it.

Document from the year 2017 in the subject Mathematics - Miscellaneous, University of Cape Coast (University of Cape Coast), course: Mphil Mathematics Education, language: English, abstract: This is an instruction guide to the Casio fx-991ES/Plus calculator. It gives an overview of the functions of the calculator and presents some exercises to get acquainted with the functions.

This first-person narrative about an archaeological discovery is rewriting the story of human evolution. A story of defiance and determination by a controversial scientist, this is Lee Berger’s own take on finding Homo naledi, an all-new species on the human family tree and one of the greatest discoveries of the 21st century. In 2013, Berger, a National Geographic Explorer-in-Residence, caught wind of a cache of bones in a hard-to-reach underground cave in South Africa. He put out a call around the world for petite collaborators—men and women small and adventurous enough to be able to squeeze through 8-inch tunnels to reach a sunless cave 40 feet underground. With this team of “underground astronauts,” Berger made the discovery of a lifetime: hundreds of prehistoric bones, including entire skeletons of at least 15 individuals, all perhaps two million years old. Their features combined those of known prehominds like Lucy, the famousAustralopithecus, with those more human than anything ever before seen in prehistoric Africa. Berger’s team had discovered an all new species, and they called it Homo naledi. The cave quickly proved to be the richest prehomind site ever discovered, full of implications that shake the way we define what makes us human. Did this species come before, during, or after the emergence of Homo sapiens on our evolutionary tree? How did the cave come to contain nothing but the remains of these individuals? Did they bury their dead? If so, they must have had a level of self-knowledge, including awareness of death. And yet those are the very characteristics used to define what makes us human. Did an equally advanced species inhabit Earth with us, or before us? Berger does not hesitate to address all these questions. Berger is a charming and controversial figure, and some colleagues question his interpretation of this and other finds. But in these pages, this charismatic and visionary paleontologist counters their arguments and tells his personal story: a rich and readable narrative about science, exploration, and what it means to be human.

Street life in the slums of Accra is realistically portrayed in this socially-committed, subtle novel about four educated women who are inspired by the plight of a 14-year old girl, Fofa. As the main characters convert their library center into a practical street initiative, the novel invokes the squalor, health risks, and vicious cycles of poverty and violence that drive children to the streets and women to prostitution; and, from which, ultimately, no one in the society is free.

This scarce anniversary book is included in our special Legacy Reprint Series. In the interest of creating a more extensive selection of rare historical book reprints, we have chosen to reproduce this title even though it may possibly have occasional imperfections such as missing and blurred pages, missing text, poor pictures, markings, dark backgrounds and other reproduction issues beyond our control. Because this work is culturally important, we have made it available as a part of our collection. The monograph “Explicit Biology: A Revision Course” for UTME, POST-UTME and other related examinations written by O.J. Olajoye is a complementary text to the various textbooks that have been written in the subject area. The book has five sections and twenty six chapters on all the biology topics. This book has become timely in view of the poor results that are being witnessed in the UTME examination especially in the sciences and mathematics, biology inclusive. These majority topics followed by copious specimen questions on some past UTME and POST – UTME examination, for practice and emphasis. The topics in each chapter are adequately treated and with clarity. The illustrations are simple but effective. The author has done a lot of work and put in efforts to come out with a very readable and useful text. It is highly recommended to all the students aspiring to undertake the UTME and POST-UTME examination, in order to improve highly their chances of success. The book is available in paperback and hardcover. It is published by the Department of Physiology, College of Medicine, University of Lagos Former Vice Chancellor, OOU, Ago- Iwoye, Ogun State.

PSAT 8/9 Prep 2020-2021: PSAT 8/9 Prep 2020 and 2021 with Practice Test Questions [2nd Edition] Developed by Test Prep Books for test takers trying to achieve a passing score on the PSAT exam, this comprehensive study guide includes: -Quick Overview -Test-Taking Strategies -Introduction -Reading Test -Writing and Language Test -Math Test -Practice Questions -Detailed Answer Explanations Disclaimer: PSAT/NMSQT(R) is a trademark registered by the College Board and is not affiliated with this product. Each section of the test has a comprehensive review created by Test Prep Books that goes into detail to cover all of the content likely to appear on the PSAT test. The Test Prep Books PSAT practice test questions are each followed by detailed answer explanations. If you miss a question, it’s important that you are able to understand the nature of your mistake and how to avoid making it again in the future. The answer explanations will help you to learn from your mistakes and for what you will expect on the exam. A test taker has to not only understand the material that is being covered on the test, but also must be familiar with the strategies that are necessary to properly utilize the time provided and get through the test without making any avoidable errors. Test Prep Books has drilled down the top test-taking tips for you to know. Anyone planning to take this exam should take advantage of the PSAT study guide review material, practice test questions and answers.

Almost Human

Creating and sustaining a classroom where every learner succeeds is a challenge for any teacher—especially when the elements of diversity and inclusion are added to the mix. How can teachers differentiate instruction in ways that help all students meet standards and develop lifelong learning skills? The authors of Connecting Teachers, Students, and Standards provide a comprehensive framework for reaching and teaching English language learners, students from culturally diverse backgrounds, and students with disabilities. In this book, you'll learn how to

- Select the best instructional methods and materials for diverse learners
- Create classrooms that are welcoming, practical, and conducive to learning
- Develop classroom content that allows every student to achieve standards while meeting the individual needs of diverse learners
- Collaborate effectively with fellow teachers and education specialists
- Administer assessments that challenge and accommodate diverse learners

The book includes helpful, real-world scenarios that provide tips for connecting with diverse students in the classroom, communicating with their families, and coordinating efforts with colleagues. Packed with practical strategies for handling difficult issues, this is a go-to guide for any teacher facing the complexities of helping diverse learners flourish at school and beyond.

Microbial Biodegradation of Xenobiotic Compounds examines and collects the recent information on the bioremediation technologies around the world. This book focuses on methods to decrease pollutants created by anthropogenic activities, industrial activities, and agricultural activities. This book answers some of the questions about - how to reduce contaminants? And whether there is a possibility of converting these pollutants in to useful energy by advanced biotechnological methods? The book combines present obtainable data with the current knowledge of researchers from all over the world covering different aspects of environmental biotechnology and microbiology. It covers basic concepts of bioremediation and various methods involved in the bioremediation process, and provides specific chapters on the role of different genes and enzymes involved in microbial bioremediation process. It also gives special attention to heavy metal bioremediation and the mechanisms involved during the degradation process. Recent innovative technologies about converting toxic pollutants in to useful energy like bioplastics and electricity are also discussed by specialist authors. Various chapters address the bioremediation of pesticides in soil using microbial metabolites, and molecular aspects of biodegradation which cover topics including identification of novel genes through the metagenomic approach and bioremediation using fungal lacase enzymes.

The New York Times bestselling final volume in the Pope's Jesus of Nazareth series, detailing how the stories of Jesus' infancy and childhood are as relevant today as they were two thousand years ago. In 2007, Joseph Ratzinger published his first book as Pope Benedict XVI in order "to make known the figure and message of Jesus." Now, the Pope focuses exclusively on the Gospel accounts of Jesus' life as a child. The root of these stories is the experience of hope found in the birth of Jesus and the affirmations of surrender and service embodied in his parents, Joseph and Mary. This is a story of longing and seeking, as demonstrated by the Magi searching for the redemption offered by the birth of a new king. It is a story of sacrifice and trusting completely in the wisdom of God as seen in the faith of Simeon, the just and devout man of Jerusalem, when he is in the presence of the Christ child. Ultimately, Jesus' life and message is a story for today, one that speaks to the restlessness of the human heart searching for the sole truth which alone leads to profound joy.

Writing and Proof Version 2.0

Learners' book. Grade 8

A Pump, Not a Filter, a National Colloquium, October 28-29, 1987

An updated edition of the cult classic, featuring stunning archival photographs of hundreds of the rarest and most spectacular plants on earth, documented in their natural habitats by a global community of cactus aficionados. A catalogue of wonders that most of us will never get to see in person.--The New Yorker A Bolivian cactus smaller than a fingernail; a massive cardon that stands more than seventy feet tall; a warty specimen resembling a large toad; a Melocactus that looks as if it is wearing a bristly red hat. Some shrink below ground level to conserve water, others spiral toward the sky, grow along in the sand like snakes, or are draped in flowing white hair. From the people behind Cactus Store comes Xerophile, a photographic collection of these improbable desert wonders in the wild. Drawing on the archives of twenty-five cactus obsessives-from PhD botanist to banker, art teacher to cancer researcher-this revised edition spans eighty years and features new and expanded descriptive notes for all 350+ photos. Fueled by whispers of ancient plants on forgotten hills in Brazil, legends of fields of living fossils deep in the arid deserts of Chile, these explorers' relentless drive to find and document cactus in some of the most remote landscapes on earth has created an extraordinary collective body of photographic work, one which has rarely, if ever, been seen by the general public. This comprehensive guide offers advice on the types of surgery on offer and highlights the many diets that are required prior to surgery. Its main focus is on advice and recipes for after surgery to help the post-op patient maximise their best chance of long-term success with weight-loss and better health.

The old saying goes, "To the man with a hammer, everything looks like a nail." But anyone who has done any kind of project knows a hammer often isn't enough. The more tools you have at your disposal, the more likely you'll use the right tool for the job - and get it done right. The same is true when it comes to your thinking. The quality of your outcomes depends on the mental models in your head. And most people are going through life with little more than a hammer. Until now. The Great Mental Models: General Thinking Concepts is the first book in The Great Mental Models series designed to upgrade your thinking with the best, most useful and powerful tools so you always have the right one on hand. This volume details nine of the most versatile, all-purpose mental models you can use right away to improve your decision making, productivity, and how clearly you see the world. You will discover what forces govern the universe and how to focus your efforts so you can harness them to your advantage, rather than fight with them or worse yet ignore them. Upgrade your mental toolbox and get the first volume today. AUTHOR BIOGRAPHY Farnam Street (FS) is one of the world's fastest growing websites, dedicated to helping our readers master the best of what other people have already figured out. We curate, examine and explore the timeless ideas and mental models that history's brightest minds have used to live lives of purpose. Our readers include students, teachers, CEOs, coaches, athletes, artists, leaders, followers, politicians and more. They're not defined by gender, age, income, or politics but rather by a shared passion for avoiding problems, making better decisions, and lifelong learning. AUTHOR HOME Ottawa, Ontario, Canada

Obi Okonkwo is an idealistic young man who, thanks to the privileges of an education in Britain, has now returned to Nigeria for a job in the civil service. However in his new role he finds that the way of government seems to be backhanders and corruption. Obi manages to resist the bribes that are offered to him, but when he falls in love with an unsuitable girl - to the disapproval of his parents - he sinks further into emotional and financial turmoil. The lure of easy money becomes harder to refuse, and Obi becomes caught in a trap he cannot escape. Showing a man lost in cultural limbo, and a Nigeria entering a new age of disillusionment, No Longer at Ease concludes Achebe's remarkable trilogy charting three generations of an African community under the impact of colonialism, the first two volumes of which are Things Fall Apart and Arrow of God.

Adah, a woman from the Ibo tribe, moves to England o live with her Nigerian student husband. She soon discovers that life for a young Nigerian woman living in London in the 1960s is grim. Rejected by British society and thwarted by her husband, who expect

Distinguished with Distinctions is a book that reveals key secrets of distinction. Get to read live stories of people who were classifi ed as failures and how they became distinguished in life. It also tells us about the mistakes made by those who allowed destructive inhibitors to take over their lives and how they were cut down in their prime on the express way to distinction. This book reminds everyone that distinction is never ending therefore we must strive to get more every passing day.

Strategies for Addressing the High Cost and Low Availability Problem

From legendary playwright August Wilson comes the powerful, stunning dramatic bestseller that won him critical acclaim, including the Tony Award for Best Play and the Pulitzer Prize. Troy Maxson is a strong man, a hard man. He has had to be to survive. Troy Maxson has gone through life in an America where to be proud and black is to face pressures that could crush a man, body and soul. But the 1950s are yielding to the new spirit of liberation in the 1960s, a spirit that is changing the world Troy Maxson has learned to deal with the only way he can, a spirit that is making him a stranger, angry and afraid, in a world he never knew and to a wife and son he understands less and less. This is a modern classic, a book that deals with the impossibly difficult themes of race in America, set during the Civil Rights Movement of the 1950s and 60s. Now an Academy Award-winning film directed by and starring Denzel Washington, along with Academy Award and Golden Globe winner Viola Davis.

Mathematical Reasoning: Writing and Proof is a text for the first college mathematics course that introduces students to the processes of constructing and writing proofs and focuses on the formal development of mathematics. The primary goals of the text are to help students: Develop logical thinking skills and to develop the ability to think more abstractly in a proof oriented setting; develop the ability to construct and write mathematical proofs using standard methods of mathematical proof including direct proofs, proof by contradiction, mathematical induction, case analysis, and counterexamples; develop the ability to read and understand written mathematical proofs; develop talents for creative thinking and problem solving; improve their quality of communication in mathematics. This includes improving writing techniques, reading comprehension, and oral communication in mathematics; better understand the nature of mathematics and its language. Another important goal of this text is to provide students with material that will be needed for their further study of mathematics. Important features of the book include: Emphasis on writing in mathematics; instruction in the process of constructing proofs; emphasis on active learning;There are no changes in content between Version 2.0 and previous versions of the book. The only change is that the appendix with answers and hints for selected exercises now contains solutions and hints for more exercises.

The seventeen equations that form the basis for life as we know it Most people are familiar with history’s great equations: Newton’s Law of Gravity, for instance, or Einstein’s theory of relativity. But the way these mathematical breakthroughs have contributed to human progress is seldom appreciated. In In Pursuit of the Unknown, celebrated mathematician Ian Stewart untangles the roots of our most important mathematical statements to show that equations have long been a driving force behind nearly every aspect of our lives. Using seventeen of our most crucial equations—including the Wave Equation that allowed engineers to measure a building’s response to earthquakes, saving countless lives, and the Black-Scholes model, used by bankers to track the price of financial derivatives over time—Stewart illustrates that many of the advances we now take for granted were made possible by mathematical discoveries. An approachable, lively, and informative guide to the mathematical building blocks of modern life, In Pursuit of the Unknown is a penetrating exploration of how we have also used equations to make sense of, and in turn influence, our world.

During the 2016 presidential election, America’s election infrastructure was targeted by actors sponsored by the Russian government. Securing the Vote: Protecting American Democracy examines the challenges arising out of the 2016 federal election, assesses current technology and standards for voting, and recommends steps that the federal government, state and local governments, election administrators, and vendors of voting technology should take to improve the security of election infrastructure. In doing so, the report provides a vision of voting that is more secure, accessible, reliable, and verifiable.

This is an African retelling of Euripides: an unnerveingly topical story of a people and a beloved city destroyed by the brutality of war. The play was first performed in Lagos in 2003 under the distinguished director Chuck Mike, and subsequently toured the UK.
