Compare that to the S&P 500 Stock Index return of 68 percent and we are talking about real money in your pocket. But times aren ' t always good and no investor can make money all the time. Jim Jubak ' s top-down stock-picking method is based on being in the right asset at the right time, ensuring that your portfolio is composed of stocks with the wind at their back and that are trending upward. A National Bestseller! Why be house poor when you can rent rich? “ Why rent when you can buy? ” More than any other, this phrase captures the overwhelmingly unanimous promotion of home ownership to Canadians. Real estate agents, mortgage brokers, family, friends, and even the government promote ownership as a safe, attractive, and sure-fire path to personal wealth. This one-size-fits-all advice ignores the reality of Canada ' s housing market. Canadians deserve better advice. Faced with expensive house prices in a near-zero interest rate world, it ' s time Canadians heard the virtues of renting and

- How they would have fared had they been saving over various periods in the past, and how the future investment climate will differ
- The problem with saving a constant percentage of pay
- The Rule of 30 and why it is a more rational way to save
