• The value of metaphors in developing understanding
• A simple, yet powerful, way to stop procrastinating Filled with illustrations, application questions, and exercises, this book makes learning easy and fun.

It’s aliiiiiiiiive! New York Times bestselling authors of My Lady Jane are back with the electric, poetic, and (almost) historical tale of the one and only Mary Shelley. Mary may have inherited the brilliant mind of her late mother, Mary Wollstonecraft, but she lives a drab life above her father’s bookstore, waiting for an extraordinary idea that’ll inspire a work worthy of her parentage—and impress her rakishly handsome (and super-secret) beau, Percy Shelley. Ada Lovelace knows a thing or two about superstar parents, what with her dad being Lord Byron, the most famous poet on Earth. But her passions lie far beyond the arts—in mechanical engineering, to be exact. Alas, no matter how precise Ada’s calculations, there’s always a man willing to claim her ingenious ideas as his own. Pan, a.k.a. Practical Automaton Number One, is Ada's greatest idea yet: a machine that will change the world, if only she can figure out how to make him truly autonomous . . . or how to make him work at all. When fate connects our two masterminds, Mary and Ada learn that they are fae-magical people with the ability to make whatever they imagine become real. But when their dream team results in a living, breathing, thinking PAN, Mary and Ada find themselves hunted by a mad scientist who won't stop until he finds out how they made a real boy out of spare parts. With comic genius and a truly electrifying sense of adventure, Cynthia Hand, Brodi Ashton, and Jodi Meadows continue their campaign to turn the classics on their head in this YA fantasy that’s perfect for fans of Frankenstein and The Gentleman’s Guide to Vice and Virtue.

An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You’ll learn what to say when
• coworkers push their work on you—then take credit for it
• you accidentally trash-talk someone in an email then hit “reply all”
• you’re being micromanaged—or not being managed at all
• you catch a colleague in a lie
• your boss seems unhappy with your work
• your cubemate’s loud speakerphone is making you homicidal
• you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

While most Christians today view art from a distance and Christian discussions of art focus primarily on artists as lonely dreamers, this has not always been the case. In Putting Art (Back) in its Place Dr. John Skillen, an expert in medieval and Renaissance art and literature, calls for the church to come together as one body to reclaim that rich heritage where art touched the entire believing community. For quite some time, art played a vital role in the life of the community, assisting Christian community in performing actions that defined their corporate work and identity (their liturgies). Patrons commissioned artists, advisors helped to determine subject matter, and the whole church celebrated and partook in what was eventually displayed. Skillen offers readers a compelling call to foster a vibrant culture of the arts by restoring and cultivating active and respectful relationships among artists, patrons, scholars, communities and the art they create. Putting Art (Back) in its Place equips laity and clergy to think historically about the vibrant role the visual arts have played--and could again play--in the life of the church and its mission.

NATIONAL BESTSELLER • Provocative and illuminating essays from women at the forefront of the climate movement who are harnessing truth, courage, and solutions to lead humanity forward. “A powerful read that fills one with, dare I say . . . hope?”—The New York Times NAMED ONE OF THE BEST BOOKS OF THE YEAR BY SMITHSONIAN MAGAZINE There is a renaissance blooming in the climate movement: leadership that is more characteristically feminine and more faithfully feminist, rooted in compassion, connection, creativity, and collaboration. While it’s clear that women and girls are vital voices and agents of change for this planet, they are too often missing from the proverbial table. More than a problem of bias, it’s a dynamic that sets us up for failure. To change everything, we need everyone. All We Can Save illuminates the expertise and insights of dozens of diverse women leading on climate in the United States—scientists, journalists, farmers, lawyers, teachers, activists, innovators, wonks, and designers, across generations, geographies, and race—and aims to advance a more representative, nuanced, and solution-oriented public conversation on the climate crisis. These women offer a spectrum of ideas and insights for how we can rapidly, radically reshape society. Intermixing essays with poetry and art, this book is both a balm and a guide for knowing and holding what has been done to the world, while bolstering our resolve never to give up on one another or our collective future. We must summon truth, courage, and solutions to turn away from the brink and toward life-giving possibility. Curated by two climate leaders, the book is a collection and celebration of visionaries who are leading us on a path toward all we can save. **A brilliant, lively account of the Black Renaissance that burst forth in Pittsburgh from the 1920s through the 1950s—“Smoketown will appeal to anybody interested in black history and anybody who loves a good story...terrific, eminently readable...fascinating” (The Washington Post). Today black Pittsburgh is known as the setting for August Wilson’s famed plays about noble, but doomed, working-class citizens. But this community once had an impact on American history that rivaled the far larger black worlds of Harlem and Chicago. It published the most widely read black newspaper in the country, urging black voters to switch from the Republican to the Democratic Party, and then rallying black support for World War II. It fielded two of the greatest baseball teams of the Negro Leagues and introduced Jackie Robinson to the Brooklyn Dodgers. Pittsburgh was the childhood home of jazz pioneers Billy Strayhorn, Billy Eckstine, Earl Hines, Mary Lou Williams, and Erroll Garner; Hall of Fame slugger Josh Gibson—and August Wilson himself. Some of the most glittering figures of the era were changed forever by the time they spent in the city, from Joe Louis and Satchel Paige to Duke Ellington and Lena Horne. Mark Whitaker’s Smoketown is a “rewarding trip to a forgotten special place and time” (Pittsburgh Post-Gazette). It depicts how ambitious Southern migrants were drawn to a steel-making city on a strategic river junction; how they were shaped by its schools and a spirit of commerce with roots in the Gilded Age; and how their world was eventually destroyed by industrial decline and urban renewal. “Smoketown brilliantly offers us a chance to see this other Black Renaissance and spend time with the many luminaries who sparked it...It’s thanks to such a gifted storyteller as Whitaker that this forgotten chapter of American history can finally be told in all its vibrancy and glory” (The New York Times Book Review).**

*The Discarded Image paints a lucid picture of the medieval world view, providing the historical and cultural background to the literature of the middle ages and renaissance. It describes the 'image' discarded by later years as 'the medieval synthesis itself, the whole organization of their theology, science and history into a single, complex, harmonious mental model of the universe'. This, Lewis's last book, has been hailed as 'the final memorial to the work of a great scholar and teacher and a wise and noble mind'.*

Siraisi's examination of the intersections of medically trained authors and history from 1450 to 1650. With remarkably detailed scholarship, Siraisi investigates doctors' efforts to explore the legacies handed down to them from ancient medical and anatomical writings.

Bartolomé de Las Casas was the first and fiercest critic of Spanish colonialism in the New World. An early traveller to the Americas who sailed on one of Columbus's voyages, Las Casas was so horrified by the wholesale massacre he witnessed that he dedicated his life to protecting the Indian community. He wrote *A Short Account of the Destruction of the Indies* in 1542, a shocking catalogue of mass slaughter, torture and slavery, which showed that the evangelizing vision of Columbus had descended under later conquistadors into genocide. Dedicated to Philip II to alert the Castilian Crown to these atrocities and demand that the Indians be entitled to the basic rights of humankind, this passionate work of documentary vividness outraged Europe and contributed to the idea of the Spanish Black Legend that would last for centuries.

Future economic growth lies in the value of experiences and transformations--good and services are no longer enough. We are on the threshold, say authors Pine and Gilmore, of the Experience Economy, a new economic era in which all businesses must orchestrate memorable events for their customers. The Experience Economy offers a creative, highly original, and yet eminently practical strategy for companies to script and stage the experiences that will transform the value of what they produce. From America Online to Walt Disney, the authors draw from a rich and varied mix of examples that showcase businesses in the midst of creating personal experiences for both consumers and businesses. The authors urge managers to look beyond traditional pricing factors like time and cost, and consider charging for the value of the transformation that an experience offers. Goods and services, say Pine and Gilmore, are no longer enough. Experiences and transformations are the basis for future economic growth, and The Experience Economy is the script from which managers can begin to direct their own transformations.

The Philosophy of Religion is one result of the Early Modern Reformation movements, as competing theologies purported truth claims which were equal in strength and different in contents. Renaissance thought, from Humanism through philosophy of nature, contributed to the origin of the modern concepts of God. This book explores the continuity of philosophy of religion from late medieval thinkers through humanists to late Renaissance philosophers, explaining the growth of the tensions between the philosophical and theological views. Covering the work of Renaissance authors,

including Lull, Salutati, Raimundus Sabundus, Plethon, Cusanus, Valla, Ficino, Pico, Bruno, Suárez, and Campanella, this book offers an important understanding of the current philosophy/religion and faith/reason debates and fills the gap between medieval and early modern philosophy and

theology.
