Bloom: The Luminous Gardens of Frederico Azevedo presents the accomplished work of Frederico Azevedo - the award-winning Brazilian landscape designer who has established himself as the leading designer of the Hamptons. With stunning projects, Azevedo's work carries an emphasis on flowers which he uses to 'lure the eye through the flow of the design'. His signature curving, floral borders are the hallmark of an Azevedo garden. He also often creates multi-dimensional vistas using layers of flowers, trees, grasses, shrubs, and hedges for a dramatic effect. The results of his impeccable designs are soft and romantic, but always sophisticated, well executed, and most importantly, adaptable to whatever its environment may bring. Discover the luminous world of Frederico Azevedo and his dazzling gardens.

The Vale of Cashmere is an anonymous, secret meeting ground where scores of men, mostly of African American descent, find one another for sex, where such encounters occur between men of all walks of life. Originally conceived solely as a portrait project in Brooklyn's underworld, the more time photographer Roma spent in the Vale of Cashmere, the more the physical beauty of the Vale became inseparable from the portraits. A haunting tribute, uncovering a much more human and sensitive side to this area.

African American schools in the segregated South faced enormous obstacles in educating their students. But some of these schools succeeded in providing nurturing educational environments in spite of the injustices of segregation. Vanessa Siddle Walker tells the story of one such school in rural North Carolina, the Caswell County Training School, which operated from 1934 to 1969. She focuses especially on the importance of dedicated teachers and the principal, who believed their jobs extended well beyond the classroom, and on the community's parents, who worked hard to support the school. According to Walker, the relationship between school and community was mutually dependent. Parents sacrificed financially to meet the school's needs, and teachers and administrators put in extra time for professional development, specialized student assistance, and home visits. The result was a school that placed the needs of African American students at the center of its mission, which was in turn shared by the community. Walker concludes that the experience of CCTS captures a segment of the history of African Americans in segregated schools that has been overlooked and that provides important context for the ongoing debate about how best to educate African American children. African American

History/Education/North Carolina

In addition, they endorsed the education of the clergy, thereby demonstrating to American society at large that African Americans possessed the sophistication and the means to pursue and to promote culture.

Examines the history, culture, and changing fortunes of the Lenape (also known as Delaware) Indians.

A Decade of American Writing; Stories

Brooklyn!

Under the teeming metropolis that is present-day New York City lie the buried remains of long-lost worlds. The remnants of nineteenth-century New York reveal much about its inhabitants and neighborhoods, from fashionable Washington Square to the notorious Five Points. Underneath there are traces of the Dutch and English colonists who arrived in the area in the seventeenth century, as well as of the Africans they enslaved. And beneath all these layers is the land that Native Americans occupied for hundreds of generations from their first arrival eleven thousand years ago. Now two distinguished archaeologists draw on the results of more than a century of excavations to relate the interconnected stories of these different peoples who shared and shaped the land that makes up the modern city. In treating New York's five boroughs as one enormous archaeological site, Anne-Marie Cantwell and Diana diZerega Wall weave Native American, colonial, and post-colonial history into an absorbing, panoramic narrative. They also describe the work of the archaeologists who uncovered this evidence--nineteenth-century pioneers, concerned citizens, and today's professionals. In the process, Cantwell and Wall raise provocative questions about the nature of cities, urbanization, the colonial experience, Indian life, the family, and the use of space. Engagingly written and abundantly illustrated, *Unearthing Gotham* offers a fresh perspective on the richness of the American legacy.

Slot Car Racing in the Digital Age

No one today thinks of Brooklyn, New York, as an agricultural center. Yet Kings County enjoyed over two centuries of farming prosperity. Even as late as 1880 it was one of the nation's leading vegetable producers, second only to neighboring Queens County. In *Of Cabbages and Kings County*, Marc Linder and Lawrence Zacharias reconstruct the history of a lost agricultural community. Their study focuses on rural Kings County, the site of Brooklyn's tremendous expansion during the latter part of the nineteenth century. In particular, they question whether sprawl was a necessary condition of American industrialization: could the agricultural base that preceded and surrounded the city have survived the onrush of residential real estate speculation with a bit of foresight and public

policies that the politically outnumbered farmers could not have secured on their own? The first part of the book reviews the county's Dutch American agricultural tradition, in particular its conversion after 1850 from extensive farming (e.g., wheat, corn) to intensive farming of market garden crops. The authors examine the growing competition between local farmers and their southern counterparts for a share of the huge New York City market, comparing farming conditions and factors such as labor and transportation. In the second part of the book, the authors turn their attention to the forces that eventually destroyed Kings County's farming--ranging from the political and ideological pressures to modernize the city's rural surroundings to unplanned, market-driven attempts to facilitate transportation for more affluent city dwellers to recreational outlets on Coney Island and, once transportation was at hand, to replace farms with residential housing for the city's congested population. Drawing on a vast range of archival sources, the authors refocus the history of Brooklyn to uncover what was lost with the expansion of the city. For today, as urban planners, ecologists, and agricultural developers reevaluate urban sprawl and the need for greenbelts or agricultural-urban balance, the lost opportunities of the past loom larger.

The renowned HO scale Allegheny Midland layout is analyzed in detail in this fascinating book by Tony Koester. Built by Tony, over the course of 25 years, the legendary layout has provided many lessons about what worked and what didn't work. You'll be sure to enjoy Tony's unique insight and perspective.

The growth of railways was a major influence in transforming Britain's landscape. This book examines how they brought about physical changes to towns, the country and coast, and had a profound affect that is still visible today, especially on the shape and size of our towns and cities. In his book, Gordon Biddle begins by examining how railway routes transformed the rural scene and their effect on the economy, followed by an appraisal of their accompanying buildings such as stations, houses, signal boxes and yards following the changes in nineteenth-century architectural taste. He goes on to look at the impact of railways built along or near the coast, and their strong influence on the growth of seaside resorts and ports. He then turns to townscape, describing in turn the physical effect on London, other large cities, smaller towns and suburban growth. Also included are chapters on places the railways themselves created, from new towns to villages around a station or junction; the still-visible remains of abandoned railway, not only those that followed mass closures of the 1960s, but many long-standing that date back to the nineteenth century; twentieth- and twenty-first century developments that have continued to impact on the rural and urban scene; and a comparison of contemporary illustrations of an early main line in 1838 with its appearance today.

Spanning three centuries of Brooklyn history from the colonial period to the present, A Covenant with Color exposes the intricate relations of dominance and subordination that have long characterized the relative social positions of white and black Brooklynites. Craig Steven Wilder -- examining both quantitative and qualitative evidence and utilizing cutting-edge literature on race theory -- demonstrates how ideas of race were born, how they evolved, and how they were carried forth into contemporary society. In charting the social history of one of the nation's oldest urban locales, Wilder contends that

power relations -- in all their complexity -- are the starting point for understanding Brooklyn's turbulent racial dynamics. He spells out the workings of power -- its manipulation of resources, whether in the form of unfree labor, privileges of citizenship, better jobs, housing, government aid, or access to skilled trades. Wilder deploys an extraordinary spectrum of evidence to illustrate the mechanics of power that have kept African American Brooklynites in subordinate positions: from letters and diaries to family papers of Kings County's slaveholders, from tax records to the public archives of the Home Owners Loan Corporation. Wilder illustrates his points through a variety of cases, including banking interests, the rise of Kings County's colonial elite, industrialization and slavery, race-based distribution of federal money in jobs, and mortgage loans during and after the Depression. He delves into the evolution of the Brooklyn ghetto, tracing how housing segregation corralled African Americans in Bedford-Stuyvesant. The book explores colonial enslavement, the rise of Jim Crow, labor discrimination and union exclusion, and educational inequality. Throughout, Wilder uses Brooklyn as a lens through which to view larger issues of race and power on a national level. One of the few recent attempts to provide a comprehensive history of race relations in an American city, A Covenant with Color is a major contribution to urban history and the history of race and class in America.

Presents complete coverage of all phases of plant propagation, by seeds, cuttings, grafting, budding, layering, division, and tissue culture propagation.

In this compelling book, the authors put a human face on desegregation practices in the South. Focusing on an African American community in Alabama, they document not only the gains but also the significant losses experienced by students when their community school was closed and they were forced to attend a White desegregated school across town. This in-depth volume includes: A letter by Dr. William Hooper Council and speeches by George Washington Trenholm—two African American leaders who worked with communities to provide quality schooling for African American children during segregation. An insider's view of what life was like inside a segregated African American school—including interviews with graduates who discuss how it felt to be in a caring and nurturing school that provided an atmosphere much like that of a family. Actual events that demonstrate the profound negative impact of using skin color and race as a basis for preferential treatment—including testimonials from parents and students who experienced racial discrimination in their new school. A valuable look at the unmet promises of school desegregation that can help us provide a quality education for all children in the 21st century. "Morris and Morris through their careful research have painted a picture of reality, the type of picture that educators, community leaders, and policymakers must see in order to give a proper assessment of what is going on and what should be done. This clear, straightforward presentation is as necessary as it is powerful." —From the Foreword by Asa G. Hilliard, III "I found it difficult to put this book down. The Price They Paid is one of the few books that looks at changes in the desegregation of education from the point of view of those living the changes." —Lucindia H. Chance, Dean, College Of Education, Georgia Southern University

Bloom

The Allegheny Midland

In his first book of non-fiction, originally published in 1962, Herbert Gold explores some not-so-happy problems confronting people in an age of "mass destruction, mass inertia, mass everything." While acknowledging that we live in a time of utmost global significance-war on an enormous scale was a reality of the twentieth century and continues to threaten, unadulterated evil has exhibited itself in grandiose proportions-Gold tackles issues and problems which are very much of significance to the individual: teaching, writing, love, marriage, divorce, and death. In *The Age of Happy Problems*, Gold takes the reader through a journey of eclectic characters, situations, and locales. Part I is a selection of essays entitled "American Events." In "The Age of Happy Problems" we are presented with an analysis of the problems facing people in the middle of their lives and careers. "How to Be an Artist's Wife" explores the prospect of being married, and remaining married, to a temperamental and egotistical artist. "Divorce as a Moral Act" describes the termination of marriage as a means for renewal and the chance to start over again the search for love. "The Bachelor's Dilemma" evokes the decisions confronting the male of the "big city." And "A Dog in Brooklyn, A Girl in Detroit: A Life Among the Humanities" is a memoir on the paradoxes of teaching in a university. Part II is entitled "American Places." The author examines in this section various American lifestyles. In "Paris: Notes from La Vie de Boheme," Gold describes Americans abroad, why they decide to become expatriates, and how they adapt to their new surroundings. In "Greenwich Village: The Changing Village" he writes about the importance of New York City's symbol of change, experiment and nonconformity. Finally, the author meditates on "Death in Miami Beach," offering a moving account of the relationship between death and the popular Florida city. Gold writes: "How can I total it up? What is the map of the map? Well, to begin with, Plato was wrong. The life of contemplation is not sufficient...and for another thing, Plato was right. He knew that men must learn to come together in the practice of intelligence and moral privilege." Gold's essays, stemming from the author's own humanity, are just as poignant and relevant today as they were when they were first published. *The Age of Happy Problems* is sure to captivate, but perhaps most of all, make the reader contemplate the importance of these issues for his or her own life.

"Eases quietly into a ferociously angry subject... Diane Ravitch affirms her faith in the American dream despite a detailed narrative which suggests, if anything, that education in New York has fairly consistently

failed those who needed it most... Meticulously detailed and strains for fairness and impartiality." -- New York Times

An unexpected inheritance, a promise broken, and four lives changed forever: discover "the gold standard of summertime escapism" from USA Today bestselling author Jamie Brenner (Elin Hilderbrand). Summer has started in idyllic Sag Harbor, and for Emma Mapson that means greeting guests at the front desk of The American Hotel. But when one of the town's most famous residents, artist Henry Wyatt, dies suddenly, Emma learns he has mysteriously left his waterfront home -- a self-designed masterpiece filled with his work -- to her teenage daughter, Penny. Back in Manhattan, legendary art patron Bea Winstead's grief at her lifelong friend and former business partner Henry's passing turns to outrage at the news of his shocking bequest. How did these unknown locals get their hands on the estate? Bea, with her devoted assistant Kyle in tow, descends on Sag Harbor determined to reclaim the house and preserve Henry's legacy. While Emma fights to defend her daughter's inheritance, Bea discovers that Henry left a treasure trove of sketches scattered around town. With Penny's reluctant help, Bea pieces them together to find a story hidden in plain sight: an illustration of their shared history with an unexpected twist that will change all of their lives. Drawn together in their battle for the house, Emma and Bea are forced to confront the past while facing a future that challenges everything they believe about love, fate, and family.

An "extraordinary" debut memoir of first love, identity, and self-discovery among a group of friends who became family in a Montauk summer house (Andrew Solomon, National Book Award winner). They call Montauk the end of the world, a spit of land jutting into the Atlantic. The house was a ramshackle split-level set on a hill, and each summer thirty-one people would sleep between its thin walls and shag carpets. Against the moonlight the house's octagonal roof resembled a bee's nest. It was dubbed The Hive. In 2013, John Glynn joined the share house. Packing his duffel for that first Memorial Day Weekend, he prayed for clarity. At twenty-seven, he was crippled by an all-encompassing loneliness, a

feeling he had carried in his heart for as long as he could remember. John didn't understand the loneliness. He just knew it was there. Like the moon gone dark. *Out East* is the portrait of a summer, of *The Hive* and the people who lived in it, and John's own reckoning with a half-formed sense of self. From Memorial Day to Labor Day, *The Hive* was a center of gravity, a port of call, a home. Friendships, conflicts, secrets and epiphanies blossomed within this tightly woven friend group and came to define how they would live out the rest of their twenties and beyond. Blending the sand-strewn milieu of George Howe Colt's *The Big House* with the radiant aching of Olivia Liang's *The Lonely City*, *Out East* is a keenly wrought story of love and transformation, longing and escape in our own contemporary moment. "An unforgettable story told with feeling and humor and above all with the razor-sharp skill of a delicate and highly gifted writer." -- André Aciman, *New York Times* bestselling author of *Call Me by Your Name* "Out East is full of intimacy and hope and frustration and joy, an extraordinary tale of emotional awakening and lacerating ambivalence, a confession of self-doubt that becomes self-knowledge." -- Andrew Solomon, National Book Award winner *An* *Entertainment Weekly* Best Book of May 2019 *A Time* magazine Best Book of May 2019 *Cosmopolitan* Best Book of May 2019 *An O, the Oprah Magazine* Best LGBTQ Book of 2019

With an iconic sound that transcends country, pop, rock, and blues, Rosanne Cash's voice and vision have captured American life for generations of fans. Over the same time span, internationally acclaimed artist Dan Rizzie has wowed collectors with his evocative paintings, prints, and collages. Now, in a book that is as unique as their artistry, Cash and her longtime friend Rizzie have teamed up to create an extraordinary hybrid. Blending images created by Rizzie with strands of lyrics from a variety of Cash's songs (including new material from her latest album, *She Remembers Everything*, as well as her beloved classics), *Bird on a Blade* is a mosaic designed to inspire the imagination and soothe the heart. Oscillating between periods of growth and times of darkness, *Bird on a Blade* reflects on life's mysteries. Powerful lines from songs such as "God Is in the Roses" from the 2006 album *Black Cadillac* evoke themes of mourning, with meditations on solitude. By turns, a verse of "Fire of the Newly Alive" from the 1993 album *The Wheel* celebrates passion and renewal. Working together, Cash and Rizzie selected some of his most vibrant paintings, collages, and drawings to complement the words, using geometric patterns, ornaments, and lush glimpses of nature, including Rizzie's signature bird imagery. The work of a harmonious duet, the fifty pairings in *Cash and Rizzie's Bird on a Blade* exude inspiration from cover to

cover.

Robert Schleicher wrote the book on slot car racing—literally. In the three short years since Schleicher’s Slot Car Racing: Tips, Tricks & Track Plans was published, the hobby has been virtually transformed by new products and technologies. This new volume, a perfect complement to its predecessor, brings readers and racers up to date, offering a concise, comprehensive overview of slot car racing’s developments, along with expert, practical guidance for putting this information to good use. A primer on the latest digital and analog developments for both 1/32 and HO scales, Schleicher’s book delivers the lowdown on building cars from individual components on ready-to-race chassis, as well as popular tune-up tips to get even more speed and better handling out of today’s cars. Schleicher also provides track tests of 70 cars and a slot-car shootout featuring 23 more vehicles. Finally, Schleicher includes nearly 50 track plans: 14 tabletop-size plans for Scalextric, Classic, Carrera, Sport, SCX, and Ninco brand track; 14 plans modeled on real circuits like Watkins Glen, Monaco, Spa-Francorchamps, Sears Point, and the Bahrain and Shanghai F1 courses; and 17 4x8-foot HO scale plans. Illustrated throughout with color photography and track plan line art, this is the book that no serious slot car racer can afford to be without.
