In this New York Times bestseller, one of America's premier child psychologists offers a must-read account of the dismal state of parenting today, and a vision for how we can better prepare our children for the challenges of the adult world In The Collapse of Parenting, internationally acclaimed author Leonard Sax argues that rising levels of obesity, depression, and anxiety among young people can be traced to parents abdicating their authority. The result is children who have no standard of right and wrong, who lack

discipline, and who look to their peers and the Internet for direction. Sax shows how parents must reassert their authority - by limiting time with screens, by encouraging better habits at the dinner table, and by teaching humility and perspective - to renew their relationships with their children. Drawing on nearly thirty years of experience as a family physician and psychologist, along with hundreds of interviews with children, parents, and teachers, Sax offers a blueprint parents can use to help their children thrive in an increasingly complicated world.

Forgetting to do chores? Running late? Burping? No adult would ever behave so poorly! At least, that's what you might think. But by the end of this outrageous, laugh-out-loud picture book from celebrated author-illustrator team Davide Cali and Benjamin Chaud, you'll know better. Unbelievable as it may seem, sometimes even grown-ups misbehave! The duo behind Junior Library Guild selection *I Didn't Do My Homework Because . . .* and *A Funny Thing Happened on the Way to School . . .* are back with another relatable, rollicking tale, this time showcasing the humor—and the humanity—of the most important people in kids' lives.

A young child lists some of the characteristics and behaviors of grown-ups.

"Once upon a time, there was a woman who discovered that she had turned into the wrong person." So Anne Tyler opens this irresistible new novel. The woman is Rebecca Davitch, a fifty-three-year-old grandmother. Is she an impostor in her own life? she asks herself. Is it indeed her own life? Or is it someone else's? On the surface, Beck, as she is known to the

Davitch clan, is outgoing, joyous, a natural celebrator. Giving parties is, after all, her vocation—something she slipped into even before finishing college, when Joe Davitch spotted her at an engagement party in his family’s crumbling nineteenth-century Baltimore row house, where giving parties was the family business. What caught his fancy was that she seemed to be having such a wonderful time. Soon this large-spirited older man, a divorcé with three little girls, swept her into his orbit, and before she knew it she was embracing his extended family plus a child of their own, and hosting endless parties in the ornate, high-ceilinged rooms of The Open Arms. Now, some thirty years later, after presiding over a disastrous family picnic, Rebecca is caught un-awares by the question of who she really is. How she answers it—how she tries to recover her girlhood self, that dignified grownup she had once been—is the story told in this beguiling, funny, and deeply moving novel. As always with Anne Tyler’s novels, once we enter her world it is hard to leave. But in Back When We Were Grownups she so sharpens our perceptions and awakens so many untapped feelings that we come away not only refreshed and delighted, but also infinitely wiser.

INTERNATIONAL BESTSELLER “[E]ssential reading for our dismal times.” —The Wall Street Journal One of Bustle’s “Most Anticipated Books of Summer 2020” PopSugar’s “26 Incredible New Books Coming Your Way This August” Good Housekeeping’s “25 New Fall Books You Have to Read This Season” Lit Hub’s “Most Anticipated Books of 2020” Fleabag meets Conversations with Friends in this brutally honest, observant, original novel about a woman going through a breakup...but really having more of a breakdown. Jenny McLaine’s life

is falling apart. Her friendships are flagging. Her body has failed her. She's just lost her column at The Foo because she isn't the fierce voice new feminism needs. Her ex has gotten together with another woman. And worst of all: Jenny's mother is about to move in. Having left home at eighteen to remake herself as a self-sufficient millennial, Jenny is now in her thirties and nothing is as she thought it would be. Least of all adulthood. Told in live-wire prose, texts, emails, script dialogue, and social media messages, Grown Ups is a neurotic dramedy of 21st-century manners for the digital age. It reckons with what it means to exist in a woman's body: to sing and dance and work and mother and sparkle and equalize and not complain and be beautiful and love your imperfections and stay strong and show your vulnerability and bake and box... But, despite our impossible expectations of women, Emma Jane Unsworth never lets Jenny off the hook. Jenny's life is falling apart at her own hands and whether or not she has help from her mother or her friends, Jenny is the only one who will be able to pick up the pieces and learn how to, more or less, grow up. Or will she?

Parents are always spouting these rules. Do they really care about nutrients and mattresses, or are they hiding something? Luckily, one fearless grown-up will risk his neck and his dignity to find out. Disguised as everything from a chocolate milk scuba diver to a giant nose, this counterspy uncovers the disturbing truth. And what he learns will shock you like nothing before. Startling suckface emergencies! Dangerous digit gangs! Powerful sumo cells! Those are just some of the secrets revealed in this book by Caldecott medalist David Wisniewski. But don't let anyone catch you reading it-especially grown-ups. Who knows what could happen if they knew that you knew?

What can you uniquely give the world? We often sell ourselves short with self-limiting beliefs,

but most of us would be amazed and delighted to know that we do have something special - our distinctive passions and talents - to offer. And what if I told you that what you have to give will also enable you to live a life of true contentment? How is that possible? It happens when you embrace and curate your own simply luxurious life. We tend to not realize the capacity of our full potential and settle for what society has deemed acceptable. However, each of us has a unique journey to travel if only we would find the courage, paired with key skills we can develop, to step forward. This book will help you along the deeper journey to discovering your best self as you begin to trust your intuition and listen to your curiosity. You will learn how to: - Recognize your innate strengths - Acquire the skills needed to nurture your best self - Identify and navigate past societal limitations often placed upon women - Strengthen your brand both personally and professionally - Build a supportive and healthy community - Cultivate effortless style - Enhance your everyday meals with seasonal fare - Live with less, so that you can live more fully - Understand how to make a successful fresh start - Establish and mastermind your financial security - Experience great pleasure and joy in relationships - Always strive for quality over quantity in every arena of your life Living simply luxuriously is a choice: to think critically, to live courageously, and to savor the everyday as much as the grand occasions. As you learn to live well in your everyday, you will elevate your experience and recognize what is working for you and what is not. With this knowledge, you let go of the unnecessary, thus simplifying your life and removing the complexity. Choices become easier, life has more flavor, and you begin to feel deeply satisfying true contentment. Lessons for Grown-ups from Children's Books

*A New York Times-bestselling author looks for the meaning of a good life by seeking advice from the very young and the very old. When his first book tour ended, Brad Montague missed hearing other people's stories so much that he launched what he dubbed a Listening Tour. First visiting elementary schools and later also nursing homes and retirement communities, he hoped to glean new wisdom as to how he might become a better grownup. Now, in this playful and buoyant book, he shares those insights with rest of us --timeless, often surprising lessons that bypass the head we're always stuck in, and go straight to the heart we sometimes forget. Each of the book's three sections begins with the illustrated story of "The Incredible Floating Girl." Brad weaves this story together with lessons of success, fear, regret, gratitude, love, happiness, and dreams to reveal the true reason we are here: to fly, and to help others fly. Beautifully designed and featuring Montague's own whimsical 4-color illustrations that appeal to the kid in all of us, *Becoming Better Grownups* shares the purpose and*

meaning we can all discover merely by listening, and reveals that--in a world that seems increasingly childish--the secret to joy is in fact to become more childlike. "The perfect summer read." --British Vogue A whip-smart novel about modern motherhood and sibling rivalry, from one of Norway's rising stars--perfect for fans of Emma Straub and the films of Greta Gerwig! Exhilarating, funny, and unexpectedly devastating, Grown Ups is for anyone who has ever felt the fear of being overtaken by a sibling, who feels almost--but not quite--grown up, and who's struggled to navigate a new future for themselves. Ida is a forty-year-old architect, single and starting to panic. She's navigating Tinder and contemplating freezing her eggs, terrified that time has passed her by, silently, without her ever realizing it, which feels even more poignant and common in our COVID era. All she sees are other people's children, everywhere. Now stuck in the idyllic Norwegian countryside for a gathering to mark her mother's sixty-fifth birthday, Ida is regressing. She's fighting with her younger sister, Marthe, and flirting with her sister's husband. But when some supposedly wonderful news from Marthe heightens tensions further, Ida is forced to mark out new milestones of her own.

Under the surface, though, conditions are murkier. While some people clash, other people like each other far too much . . . Still, everything manages to stay under control--that is, until Ed's wife, Cara, gets a concussion and can't keep her thoughts or opinions to herself. One careless remark at Johnny's birthday party, with the entire family present, and Cara starts spilling all their secrets. The best-selling author of BRINGING UP BÉBÉ investigates life in her forties, and wonders whether her mind will ever catch up with her face. When Pamela Druckerman turns 40, waiters start calling her "Madame," and she detects a disturbing new message in mens' gazes: I would sleep with her, but only if doing so required no effort whatsoever. Yet forty isn't even technically middle-aged anymore. And after a lifetime of being clueless, Druckerman can finally grasp the subtext of conversations, maintain (somewhat) healthy relationships and spot narcissists before they ruin her life. What are the modern forties, and what do we know once we reach them? What makes someone a "grown-up" anyway? And why didn't anyone warn us that we'd get cellulite on our arms? Part frank memoir, part hilarious investigation of daily life, *There Are No Grown-Ups* diagnoses the in-between decade when...

- Everyone you meet looks a little bit familiar.
- You're matter-of-fact about chin hair.
- You can no longer wear anything ironically.
- There's at least one sport your doctor forbids you to play.
- You become impatient while scrolling down to your year of birth.
- Your parents have stopped trying to change you.
- You don't want to be with the cool people anymore; you want to be

with your people. • You realize that everyone is winging it, some just do it more confidently. • You know that it's ok if you don't like jazz. Internationally best-selling author and New York Times contributor Pamela Druckerman leads us on a quest for wisdom, self-knowledge and the right pair of pants. A witty dispatch from the front lines of the forties, *There Are No Grown-ups* is a (midlife) coming-of-age story, and a book for anyone trying to find their place in the world.

Once upon a time, boys and girls grew up and set aside childish things. Nowadays, moms and dads skateboard alongside their kids and download the latest pop-song ringtones. Captains of industry pose for the cover of *BusinessWeek* holding Super Soakers. The average age of video game players is twenty-nine and rising. Top chefs develop recipes for Easy-Bake Ovens. Disney World is the world's top adult vacation destination (that's adults without kids). And young people delay marriage and childbirth longer than ever in part to keep family obligations from interfering with their fun fun fun. Christopher Noxon has coined a word for this new breed of grown-up: juveniles. And as a self-confessed juvenile, he's a sympathetic yet critical guide to this bright and shiny world of people who see growing up as "winding down"—exchanging a life of playful flexibility for anxious days tending lawns and mutual funds. In *Juvenile*, Noxon explores the historical roots of today's juveniles (hint: all roads lead to Peter Pan), the "toyification" of practical devices (car cuteness is at an all-time high), and the new gospel of play. He talks to parents who love cartoons more than their children do, twenty-somethings who live happily with their parents, and grown-ups who evangelize on behalf of all-ages tag and Legos. And he takes on the "Harrumphing Codgers," who

see the rejuvenile as a threat to the social order. Noxon tempers stories of his and others' rejuvenile tendencies with cautionary notes about "lost souls whose taste for childish things is creepy at best." (Exhibit A: Michael Jackson.) On balance, though, he sees rejuveniles as optimists and capital-R Romantics, people driven by a desire "to hold on to the part of ourselves that feels the most genuinely human. We believe in play, in make believe, in learning, in naps. And in a time of deep uncertainty, we trust that this deeper, more adaptable part of ourselves is our best tool of survival." Fresh and delightfully contrarian, Rejuvenile makes hilarious sense of this seismic culture change. It's essential reading not only for grown-ups who refuse to "act their age," but for those who wish they would just grow up.

A delightful collection of inspiring quotations from the mind of Antoine de Saint-Exupéry, author of *The Little Prince*. "One sees clearly only with the heart. Anything essential is invisible to the eyes." For more than sixty years, this insight from *The Little Prince* has been quoted in more than 130 languages by fans around the world. Now, for the first time, quotations from the collected works and letters of Antoine de Saint-Exupéry are presented in a charming gift edition. Six chapters—"Happiness," "Friendship," "Responsibility," "Fortitude," "Love," and "What Is Essential"—offer inspirational and thought-provoking words about the subjects held most dear by the author. A perfect gift for graduates—or for anyone who wants gentle guidance. "Christakis . . . expertly weaves academic research, personal experience and anecdotal evidence into her book . . . a bracing and convincing case that early education has reached a point of crisis . . . her book is a rare thing: a serious work of research that

also happens to be well-written and personal . . . engaging and important." --Washington Post "What kids need from grown-ups (but aren't getting)...an impassioned plea for educators and parents to put down the worksheets and flash cards, ditch the tired craft projects (yes, you, Thanksgiving Handprint Turkey) and exotic vocabulary lessons, and double-down on one, simple word: play." --NPR The New York Times bestseller that provides a bold challenge to the conventional wisdom about early childhood, with a pragmatic program to encourage parents and teachers to rethink how and where young children learn best by taking the child's eye view of the learning environment To a four-year-old watching bulldozers at a construction site or chasing butterflies in flight, the world is awash with promise. Little children come into the world hardwired to learn in virtually any setting and about any matter. Yet in today's preschool and kindergarten classrooms, learning has been reduced to scripted lessons and suspect metrics that too often undervalue a child's intelligence while overtaxing the child's growing brain. These mismatched expectations wreak havoc on the family: parents fear that if they choose the "wrong" program, their child won't get into the "right" college. But Yale early childhood expert Erika Christakis says our fears are wildly misplaced. Our anxiety about preparing and safeguarding our children's future seems to have reached a fever pitch at a time when, ironically, science gives us more certainty than ever before that young children are exceptionally strong thinkers. In her pathbreaking book, Christakis explains what it's like to be a young child in America today, in a world designed by and for adults, where we have confused schooling with learning. She offers real-life solutions to real-life issues, with nuance and direction that

takes us far beyond the usual prescriptions for fewer tests, more play. She looks at children's use of language, their artistic expressions, the way their imaginations grow, and how they build deep emotional bonds to stretch the boundaries of their small worlds. Rather than clutter their worlds with more and more stuff, sometimes the wisest course for us is to learn how to get out of their way. Christakis's message is energizing and reassuring: young children are inherently powerful, and they (and their parents) will flourish when we learn new ways of restoring the vital early learning environment to one that is best suited to the littlest learners. This bold and pragmatic challenge to the conventional wisdom peels back the mystery of childhood, revealing a place that's rich with possibility.

PARENTING NEVER ENDS. From the founders of the #1 site for parents of teens and young adults comes an essential guide for building strong relationships with your teens and preparing them to successfully launch into adulthood The high school and college years: an extended roller coaster of academics, friends, first loves, first break-ups, driver's ed, jobs, and everything in between. Kids are constantly changing and

how we parent them must change, too. But how do we stay close as a family as our lives move apart? Enter the co-founders of Grown and Flown, Lisa Heffernan and Mary Dell Harrington. In the midst of guiding their own kids through this transition, they launched what has become the largest website and online community for parents of fifteen to twenty-five year olds. Now they've compiled new takeaways and fresh insights from all that they've learned into this handy, must-have guide. Grown and Flown is a one-stop resource for parenting teenagers, leading up to—and through—high school and those first years of independence. It covers everything from the monumental (how to let your kids go) to the mundane (how to shop for a dorm room). Organized by topic—such as academics, anxiety and mental health, college life—it features a combination of stories, advice from professionals, and practical sidebars. Consider this your parenting lifeline: an easy-to-use manual that offers support and perspective. Grown and Flown is required reading for anyone looking to raise an adult with whom you have an enduring, profound connection. Follow the real lives of seven kids from Italy, Japan, Iran, India, Peru, Uganda, and Russia for a single day! In Japan Kei plays Freeze Tag, while in Uganda Daphine likes to jump rope. But while the way they play may differ, the shared rhythm of their days—and this one world we all share—unites them. This genuine exchange provides a window into traditions that may be different from our own as well as a mirror reflecting our common experiences. Inspired by his own travels, Matt Lamothe

transports readers across the globe and back with this luminous and thoughtful picture book.

This fun role-reversal picture book will help reluctant students get excited to go back to school! It's just another school morning...until Mom, Dad, Grandma, and even Bow-wow the dog BEG the kids to let them come to school, too! Dad can tie his own shoes--why can't he come? Mom is all ready with her brand-new backpack--she's allowed, right? No! Only kids and teachers! Christina Geist's warm, interactive story is the perfect tool for parents of kids who are reluctant or nervous about going to school. The fun refrain--"Sorry, grown-ups! You can't go to school! Only kids and teachers! Only kids and teachers!"--brilliantly paints school as something exclusive and desirable...which kids can access! Tim Bowers's lively illustrations enhance the fun and heighten the hilarity. This is sure to be a back-to-school classic in many families and classrooms!

Diana West sees a US filled with middle-age guys playing air guitar and thinks "No wonder we can't stop Islamic terrorism." She sees Moms Who Mosh and wonders "Is there a single adult left anywhere?" But, the grown-ups are all gone. The disease that killed them was incubated in the sixties to a rock-and-roll score, took hold in the seventies with the help of multiculturalism and left us with a nation of eternal adolescents who can't decide between "good" and "bad", a generation who can't say "no". From the inability to nix a sixteen year-old's request for Marilyn Manson concert

tickets to offering adolescents parentally-funded motel rooms on prom night to rationalizing murderous acts of Islamic suicide bombers with platitudes of cultural equivalence, West sees us on a slippery slope that's lead to a time when America has forgotten its place in the world. In *The Death of the Grown-Up* Diana West serves up a provocative critique of our dangerously indecisive world leavened with humor and shot through with insight.

"Hart's argument that we need to drastically revise our current view of illegal drugs is both powerful and timely . . . when it comes to the legacy of this country's war on drugs, we should all share his outrage."

—The New York Times Book Review From one of the world's foremost experts on the subject, a powerful argument that the greatest damage from drugs flows from their being illegal, and a hopeful reckoning with the possibility of their use as part of a responsible and happy life Dr. Carl L. Hart, Ziff Professor at Columbia University and former chair of the Department of Psychology, is one of the world's preeminent experts on the effects of so-called recreational drugs on the human mind and body. Dr. Hart is open about

the fact that he uses drugs himself, in a happy balance with the rest of his full and productive life as a researcher and professor, husband, father, and friend. In Drug Use for Grown-Ups, he draws on decades of research and his own personal experience to argue definitively that the criminalization and demonization of drug use--not drugs themselves--have been a tremendous scourge on America, not least in reinforcing this country's enduring structural racism. Dr. Hart did not always have this view. He came of age in one of Miami's most troubled neighborhoods at a time when many ills were being laid at the door of crack cocaine. His initial work as a researcher was aimed at proving that drug use caused bad outcomes. But one problem kept cropping up: the evidence from his research did not support his hypothesis. From inside the massively well-funded research arm of the American war on drugs, he saw how the facts did not support the ideology. The truth was dismissed and distorted in order to keep fear and outrage stoked, the funds rolling in, and Black and brown bodies behind bars. Drug Use for Grown-Ups will be controversial, to be sure: the propaganda war, Dr. Hart argues, has been tremendously effective. Imagine if the only subject of any discussion about driving automobiles was fatal car crashes. Drug Use for Grown-Ups offers a radically different vision: when used responsibly, drugs can enrich and enhance our lives. We have a long way to go, but the vital conversation this book will generate is an extraordinarily important step.

“How to Be a Grown Up should be required reading for anyone wishing to be (or trying to raise) an emotionally-fit, responsible adult in the modern world. In clear and simple language this book provides everything you need to know to have a successful life.” — Arielle Ford, author of The Soulmate Secret In How to Be a Grown Up, Stacy Kaiser, the renowned psychotherapist from Celebrity Fit Club and The Lifetime Channel's DietTribe, reveals the ten critical areas that impact our success, happiness, and fulfillment. In the vein of the books of Dr. Laura, Cheryl Richardson, and Dr. Phil, How to Be a Grown Up is an effective blueprint for realizing your own best potential.
