

What Is Document Splitting Configuration Settings In Sap Fico 6 0 With

SAP is the world leader in Enterprise Resource Planning (ERP) software; of the software's modules, the FI (Finance) and CO (Controlling) are by far the most popular and are widely implemented. This book has no competition?it is the only book on the market on how to configure and implement SAP's FI and CO modules to maximize functionality and features hands-on, step-by-step instructions and real-world examples that provide immediate and practical solutions. Updated for SAP's ECC 6.0, the book covers FI enterprise structure, general ledger, substitutions and validations, automatic account assignments, accounts payable and receivable, asset accounting, accrual engine, closing entries, credit management, lockbox, CO enterprise structure, profitability analysis (CO-PA), and more.

This book offers a comprehensive introduction to SAP ERP Profit Center Accounting (PCA) for both classic general ledger (GL) and the new GL. Get the tools you need to set profitability targets for business (planning) and then compare actual results against those targets to improve overall profitability. Solidify your understanding of the difference between PCA and SAP Controlling Profitability Analysis (CO-PA) views. Gain in-depth knowledge of the concepts, objects, and functionality available in PCA in SAP ERP, including the relevant master data set-up, actual data flows, planning scenarios, and reporting options. Clarify the differences between PCA and CO-PA and understand when it is best to use each. Dive into profit center transfer pricing and obtain detailed configuration and set-up steps required for activation. By using practical examples, tips, and screenshots, the author brings readers up to speed on SAP Profit Center Accounting. - Fundamentals of SAP Profit Center Accounting (PCA) - Concepts, master data, actual data flow, and planning basics - Differences between PCA in classic and new GL - Reporting for Profit Center Accounting (PCA)

Previously published under title: Integrating SAP ERP financials.

*This definitive guide is a must-have resource for the day-to-day use of Financial Accounting with SAP. Using clear, simple step-by-step instructions and detailed screenshots, you will learn how to perform key activities in the core areas of SAP General Ledger, Asset Accounting, Accounts Payable, Accounts Receivable, Banking, and the Special Purpose Ledger. Each section starts with quick reference material such as transaction codes, tables, and menu paths, and ends with easy-to-use answers to frequently asked questions and problems commonly encountered by users. Day-to-Day Solutions Discover practical, detailed guidance for the day-to-day use of Financial Accounting with SAP ERP Financials, including troubleshooting and problem-solving information. Quick Reference Take advantage of Quick Reference boxes at the beginning of every section to immediately identify the key pieces of information you need. All Key Functions Detailed Find all of the major subcomponents of Financial Accounting with SAP ERP Financials covered here: SAP General Ledger, Asset Accounting, Accounts Payable, Accounts Receivable, Banking, and the Special Purpose Ledger. FAQ and Troubleshooting Tips Get expert insight into everyday problems and the answers you need. Hands-On Format Learn in an interactive, hands-on way through the use of screenshots, menu paths, and transaction codes throughout the book. Highlights * SAP General Ledger * Organizational Entities in Financial Accounting * Accounts Payable and Accounts Receivable * Asset Accounting * Banking * Special Purpose Ledger * Transaction Codes * Tables and Program Codes Implementing SAP S/4HANA Finance*

R Markdown: The Definitive Guide is the first official book authored by the core R Markdown developers that provides a comprehensive and accurate reference to the R Markdown ecosystem. With R Markdown, you can easily create reproducible data analysis reports, presentations, dashboards, interactive applications, books, dissertations, websites, and journal articles, while enjoying the simplicity of Markdown and the great power of R and other languages. In this book, you will learn Basics: Syntax of Markdown and R code chunks, how to generate figures and tables, and how to use other computing languages Built-in output formats of R Markdown: PDF/HTML/Word/RTF/Markdown documents and ioslides/Slidy/Beamer/PowerPoint presentations Extensions and applications: Dashboards, Tufte handouts, xaringan/reveal.js presentations, websites, books, journal articles, and interactive tutorials Advanced topics: Parameterized reports, HTML widgets, document templates, custom output formats, and Shiny documents. Yihui Xie is a software engineer at RStudio. He has authored and co-authored several R packages, including knitr, rmarkdown, bookdown, blogdown, shiny, xaringan, and animation. He has published three other books, Dynamic Documents with R and knitr, bookdown: Authoring Books and Technical Documents with R Markdown, and blogdown: Creating Websites with R Markdown. J.J. Allaire is the founder of RStudio and the creator of the RStudio IDE. He is an author of several packages in the R Markdown ecosystem including rmarkdown, flexdashboard, learnr, and radix. Garrett Grolmund is the co-author of R for Data Science and author of Hands-On Programming with R. He wrote the lubridate R package and works for RStudio as an advocate who trains engineers to do data science with R and the Tidyverse.

BizTalk 2006 adds incremental value to BizTalk 2004 by improving administration, deployment, and other key areas of the product. Built upon .NET, this server product is Microsoft's strategy to capture market share within the enterprise integration space, and is the fastest growing integration product. What this means is a doubling of previous market share for Microsoft, and the dramatic growth of BizTalk 2006 based integration architects, developers and administrators. Offering more than 170 problem-solving recipes for BizTalk developers and administrators, the book draws on the expertise of many of the most prominent authorities in the field.

This book offers a comprehensive introduction to the fundamentals of SAP ERP Financials (FI) configuration. Dive into configuration details for general ledger (FI-GL), accounts receivable (FI-AR), and accounts payable (FI-AP) transactions. You'll learn about the primary features and functions of SAP FI configuration including how to create company codes and chart of accounts, assign a controlling area, and define number ranges. Get tips for automatic posting rules and posting periods. Gain proficiency navigating in SAP FI, including how to access configuration transactions. Walk through step-by-step instructions for executing transport request configuration. Get exposure to advanced SAP FI configuration topics including SAP tables, SE11, SE16N, and SQVI. This introductory guide to SAP FI configuration covers: - Get an overview of SAP Financials configuration - Explore fundamental aspects of FI-GL, FI-AR, and FI-AP

configuration - Learn how to create, define, and assign company codes and chart of accounts - Obtain hands-on instruction based on examples and screenshots

This up-to-date quick reference guides the reader through the most popular SAP module. It includes material on SAP ERP Financials, SAP FICO, and SAP R/3. Unlike most books that only provide questions and answers for certification or interview preparation, this book covers fifty common business situations related to ERP Financials/FICO and provides practical solutions for them. In addition, the book begins with over 200 FAQs and certification questions for those who need a quick review of the material. A CD-ROM with FICO templates, short cuts, and color figures from the book is included with the text.

"Whether you're running account-based or costing-based CO-PA, this is your one-stop shop for profitability analysis with SAP S/4HANA! Get the step-by-step instructions you need for configuring master data, operating concerns, value flows + and setting up your system. Then run your profitability operations and master both planning and reporting. + sentence about running profitability operations, from this to that. With this guide to CO-PA, you're ready for SAP S/4HANA!"--

This book details the configuration required to set up the General Ledger module for a public sector entity. It includes document splitting configuration to facilitate fund accounting.

*Learn how best to implement the New General Ledger in SAP ERP Financials and how to maximize your organization's use of its vast functionalities. Using practical examples, the authors take you on a guided tour of the most important functions. First, you'll learn how to create the settings needed to define your ledgers. Then, you'll uncover sample solutions and customization tips for segment reporting and document splitting, as the authors show you the process of mapping a parallel accounting procedure using the ledger approach. A detailed chapter on migration answers burning questions such as: What tools are available? What issues should we be thinking about before migration? What levels of complexity should be weighed? How does the migration process really work? In short, this detailed reference provides you with everything you'll need to successfully migrate to New General Ledger. Based on the latest release, SAP ERP 6.0, this book is fully up-to-date as of the date of its publication.Highlights Include: * Design and Features of the Ledgers * Integration in Financial Accounting - Profit Center Accounting, Reposting in Controlling, Online Posting of Follow-Up Costs, Period-End Closing * Parallel Valuation - Basic Principles, Fixed Assets, Current Assets, Provisions * Document Splitting - Active and Passive Split, Special G/L Transactions, Periodic Processing * Migration - Activating New G/L, Migration Phase Model, SAP Service for Migration, Migration Scenarios, Migration Cockpit, Practical Reports*

Put together a centralised repository for all financial information and alter it as you see fit KEY FEATURES ? Expert-led approach to implementing S/4 Central Finance in a wide range of companies. ? Solution-focused responses on Central Finance, Group reporting, BPC, and Fiori. ? Preparation guide for the certification exam and SAP S/4HANA Interview. DESCRIPTION Your SAP S/4HANA journey has just begun. This book details several processes, methods, and expert strategies for integrating central finance into your IT systems, streamlining finance operations, data reporting, and master data preparation. With the help of this book, you'll learn all you need to know to get the most out of SAP S/4HANA Central Finance, SAP Group Reporting, BPC, Fiori, and other cutting-edge technologies. This book includes numerous examples to demonstrate the essentials of SAP S/4HANA Central Finance, SAP Group reporting, BPC, and Fiori. It offers extensive hands-on practice utilizing SAP S/4HANA standards to demonstrate Fiori, BPC, SAP S/4HANA Central Finance, and Group reporting. The book contains many applications and projects from throughout the industry spectrum. Interviewing for a job and passing the SAP Certification exam can be made easier with the help of this book! After reading this book you will be able to perform SAP S/4HANA Central Finance and SAP Group reporting operations. You can also define complex activities in SAP S/4HANA. WHAT YOU WILL LEARN ? Conduct the implementation of Central Finance in your IT environment. ? Consolidate your SAP S/4HANA system's finances. ? Carry out currency conversion, intercompany elimination, financial closure, and reporting. ? Perform a BPC Evaluation. ? Carry out SAP S/4HANA Central Finance and Group reporting functions. ? Utilize Fiori applications to perform SAP S/4HANA operations. WHO THIS BOOK IS FOR This book is a must for SAP consultants, architects, and project managers who wish to become proficient in the SAP S/4HANA project life cycle phases. TABLE OF CONTENTS 1. Key success factors for adopting S/4 Central Finance in any organization 2. Pragmatic approach - BPC, Fiori, S/4 Central Finance and SAP Group reporting 3. Interview questions and answers on BPC, Central Finance and Group reporting

Need to set up document splitting in SAP S/4HANA? This step-by-step guide is for you!

You'll walk through each configuration task for both basic and extended document splitting in the IMG, covering everything from zero-balance clearing accounts to splitting methods and rules. --

BizTalk 2013 Recipes provides ready-made solutions to BizTalk Server 2013 developers. The recipes in the book save you the effort of developing your own solutions to common problems that have been solved many times over. The solutions demonstrate sound practice, the result of hard-earned wisdom by those who have gone before. Presented in a step-by-step format with clear code examples and explanations, the solutions in BizTalk 2013 Recipes help you take advantage of new features and deeper capabilities in BizTalk Server 2013. You'll learn to integrate your solutions with the cloud, configure BizTalk on Azure, work with electronic data interchange (EDI), and deploy the growing range of adapters for integrating with the different systems and technologies that you will encounter. You'll find recipes covering all the core areas: schemas, maps, orchestrations, messaging and more. BizTalk Server 2013 is Microsoft's market-leading platform for orchestrating process flow across disparate applications. BizTalk 2013 Recipes is your key to unlocking the full power of that platform.

This book, SAP FICO Black Book, brings to you a simple to the point non-technical jargon free discussion on SAP FICO along with comprehensive real life examples based on authors real life implementations. One of the first FICO books which cover business cycles rather than plain technical configuration. Targeting intermediate and advanced-level readers, this book discusses Implementation Tools; Enterprise Structure; New GL Configuration; Online Document Splitting; AR; AP; AA; Bank accounting; Integration of FI with Other Modules; Business Processes; Controlling; Cost Center Accounting; Product Costing; Material Ledger Configuration and Profit Center Accounting. The author has spent the last 10 years of his career acquiring this knowledge through the trial and error method. It covers the end user as well as technical configuration perspective. It can serve as a starting point for the people who want to comprehend how the financial and managerial accounting functions in an ERP. Most of the FICO text deals with technical configuration and throws little light on its functional implementation. This book is author s humble attempt to bridge the gap by providing real life scenarios along with technical details. Interested in learning more about the changes in SAP S/4HANA Finance? Learn what is meant by the merge of financial accounting and controlling in SAP S/4HANA. Discover how the accounting structure and tables have changed and what the implications are. Walk through each area of financial accounting and identify what has changed, along with relevant configurations. Take a look at how new general ledger transactions work in SAP S/4HANA and find out what the universal journal is. Explore important changes to asset accounting and identify updates to the underlying table structure to allow for real-time posting

between asset accounting and the general ledger. Learn more about the preparation and migration tools available.

- Key changes to financial accounting and structure in SAP S/4HANA Finance - New general ledger structure in the universal journal - Master data changes in G/L accounts and the business partner - SAP S/4HANA preparation and migration tools

A Problem-Solution Approach

New General Ledger in SAP ERP Financials

A guide to achieve a highest level of SAP S/4 HANA, Central Finance and Group Reporting KEY FEATURES ● In-depth demonstration of SAP S/4HANA 2020, 1909, and 2021 fundamentals. ● Includes graphical illustrations for Migration Cockpit commands and methods. ● Hands-on practice on Fiori, BPC, SAP S/4 HANA Central Finance and Group reporting. DESCRIPTION This book will guide you through the process about what you need to know and help you perform at your highest level to achieve SAP S/4 HANA and some of the best practices available today. This book can assist you in acing employment interviews. This book provides an in-depth practical illustration of SAP S/4HANA 2020, 1909, and 2021 fundamentals with several examples. It contains graphical demonstrations and visual descriptions of the commands and methods available in the SAP S/4 HANA Migration Cockpit. It includes thorough hands-on practice showcasing Fiori, BPC, SAP S/4 HANA Central Finance, and Group reporting subjects using SAP S/4HANA standards. Many applications and industry-wide projects are included in the book. After reading this book, you will be able to reliably perform Basis, Security, SD, MM, PP, FICO, and HCM operations, as well as define complicated tasks in SAP S/4 HANA from the very first day. WHAT YOU WILL LEARN ● Perform Basis, Security, SD, MM, PP, FICO, and HCM processes in SAP S/4 HANA. ● Forecast and monitor progress throughout the SAP S/4HANA deployment process. ● Administration, implementation, and authorisation of SAP S/4 HANA systems from start to finish. ● Enterprise-wide backup, restore, and monitoring of SAP HANA databases. ● Leverage Fiori apps to carry out SAP S/4 HANA tasks. WHO THIS BOOK IS FOR This book is meant for S/4 HANA consultants and project managers as well as those working in other fields related to SAP S/4 HANA. If you read this book, you will be well-versed in every step of the SAP S/4HANA project development lifecycle. TABLE OF CONTENTS 1. SAP S/4 HANA 2020, 2021, 1909 Interview questions. 2. Lessons learnt and pragmatic approach - SAP S/4 HANA Interview questions. 3. SAP S/4 HANA Data Migration Interview questions. 4. Interview questions and answers on BPC, SAP S/4 HANA Central Finance and Group reporting.

Core Dreamweaver Skills and Solutions, Made Easy Dreamweaver MX 2004 Solutions was created for results-oriented Dreamweaver users who seek practical instruction on everyday techniques and speedy resolutions to persistent problems. Author/instructor Ethan Watrall applies his effective, no-nonsense teaching style to each of this book's dozens of step-by-step solutions, demystifying the most vital and potentially troublesome topics. Beginners can walk through the full gamut of tasks, while seasoned users can dip in and quickly find answers to specific questions. Whether you're a web designer or developer, a graphic designer or project manager, this book will get you to the heart of the discrete skills you need to construct impressive web pages with Dreamweaver. Learn the ins and outs of Dreamweaver MX 2004, including how to: Build good-looking, sensible tables and frames Save time with templates, library items, and digital assets Master JavaScript behaviors, CSS, and layers Handcraft HTML and XHTML code Make full use of the Tag Inspector, Tag Chooser, and Tag Library Design sophisticated forms for collecting user information Effectively manage your site with Site Window and Site Reports Extend Dreamweaver with extensions, custom shortcuts, and commands Establish database connections for ColdFusion, ASP, ASP.NET, JSP, and PHP And much more... Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file. This book provides comprehensive, step-by-step configuration information for using Document Splitting and Balanced Segment Reporting in the SAP General Ledger. It provides implementation team members, functional finance professionals, and line-of-business managers with the implementation strategies, configuration steps, and best practices necessary to implement Document Splitting in the SAP General Ledger. Specific sections of the book focus on defining segments for use with common lines of business, configuration steps for Document Splitting, configuration of Segment Reporting, and managing a migration from the Classic General Ledger to the SAP General Ledger when Document Splitting is involved. Readers learn how to configure Document Splitting for the SAP General Ledger, including Standard and Extended Document Splitting and will quickly come to understand the common Business Transactions and how they relate to Segment Reporting and Document Splitting, including Vendor Invoice, Vendor Payment, and other financial transactions. Plus, find out how the new Segment object works in the SAP General Ledger, including how Segments are derived from Profit Centers. The author explains how best to use Profitability Reporting, Segment Reporting, and built-in tools like Report Writer and Report Painter in the SAP General Ledger and shows you how you can develop and execute a plan for migrating successfully to the SAP General Ledger using the SAP Migration Service.

This book is written for SAP Controlling (CO) professionals who want to learn expert tips to optimize their system performance for configuration, reconciliation, and reporting. Using a fictional chocolate manufacturing case study, each tip provides detailed information on aspects of the functionality, how it can help you, why you should use it, and how to use it including SAP configuration steps. Obtain best practices for optimizing cost allocation methods, expediting material ledger close, and utilizing cost center overhead charges. Troubleshoot product costing messages and find out how to prevent GL account overrides during inventory posting transactions. Walk through best practices for effectively maintaining master data and standard costing methods. By using an integrated practical example and screenshots, the author informs readers on how to get the most out of their SAP ERP system. - Optimize SAP ERP Controlling configuration, reconciliation, and reporting - Transaction processing tips to ensure accurate data capture - Instructions for avoiding common month-end close pain points - Reporting and reconciliation best practices

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both technical and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and implement best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed and practical address addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to coordinate and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines include assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including recommendations on the needed systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and national certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

This book on 'Configuring SAP Financial Accounting' in SAP S/4HANA Finance, has been published in two volumes: Volume I and Volume II. The Volume I (this book) covers: Case Study Enterprise Structure FI Global Settings I (Fields, Ledgers, Fiscal Year, Posting Periods, Parallel Accounting, Integration of SAP CO with SAP FI, and Company Code Global Parameters) FI Global Settings II (Documents, Inflation Accounting and Correspondence) FI Global Settings III (Taxes including Extended Withholding Tax) G/L Accounting The Volume II covers: Case Study Accounts Receivable and Accounts Payable Contract Accounts Receivable and Payable Bank Accounting Asset Accounting. In Volume I, you will learn about the context and relevance of SAP HANA, SAP S/4HANA and SAP S/4HANA Finance, before actually configuring SAP Financial Accounting. This book follows a case-study approach with a story-board technique, that provides the required business background for a given configuration activity. Towards configuring SAP FI, you will start your learning with the enterprise structure focussing on SAP FI/CO organizational units, their definition and assignment. Then, you will learn about FI Global Settings, in great detail, spread over three Chapters. You will learn about fields, ledgers, field status variants, fiscal year and parallel accounting. You will also learn parallel accounting, integration of SAP Controlling with SAP FI and configuring company code global parameters. In Volume II, you will learn about documents (document structure, document types, posting keys, screen variants, document change rules, document tolerance groups, summarization, default values, business transaction types, recurring entries, document parking and document change rules) besides inflation accounting and correspondence. Finally, in FI global settings, you will learn taxes: the tax on sales and purchase, the configuration settings required for calculation / posting and interfacing your SAP system with external tax application (Vertex). You will also learn about withholding tax, including extended withholding tax: the configuration settings and how to manage withholding tax changeover. In Volume II, you will learn SAP G/L Accounting, in great detail, covering the preparations required for creating the master data including chart of accounts, account groups, sample accounts etc. You will learn how to create / process G/L accounts, besides understanding the configuration of SAP FI/CO business transactions like document splitting, cross-company code transactions, open item clearing, balance interest calculation, and preparing for 'going live'. As with my other books on SAP, this book also follows a case-study approach to make the configuration as easy as possible. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and screenshots to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the book, in the form of Sections, to help you understand a topic or a configuration setting or a concept better. The entire content of the book, video, screenshots, has been presented as in SAP IMG (Implementation Guide), for easy comprehension. You will come across with appropriate master data Transactions, to help you to navigate the various activities. In all, you can use this book as a desktop-reference for configuring SAP FI/CO. As the Chapters have been progressively elaborated, you will certainly find this as informative and easy to comprehend.

Static websites—sites with fixed content—are the simplest type of web pages. In addition to being easier to create and maintain, they are inherently more secure than dynamic pages. And with the Hugo static site engine, you can render them in milliseconds. Hugo is a simple, by-step guide to using Hugo to create static websites that really show off the advantages of simplicity. Working with a complete website and source code samples, you'll learn how to build and host a low-maintenance, high-performance site that will wow your visitors and stay stable without relying on a third-party server. Purchase of the print book includes a free eBook in PDF, Kindle, and ePub formats from Manning Publications.

SAP Transaction Codes – Volume One

Strengthening Forensic Science in the United States

SAP's latest product, SAP S/4HANA, is revolutionizing how we approach finance by re-architecting data persistency and by merging accounts and cost elements. This book offers a fundamental introduction to SAP S/4HANA Finance, explaining how Accounting and Controlling have merged, and how they integrate with planning and group reporting. Learn about the new configuration options, updated data models, and what this means for reporting in the future. Obtain a first-hand look at the new user interfaces in SAP Fiori. Review the new universal journal, asset accounting, material ledger, and margin analysis functionality. Examine the steps required to migrate to SAP S/4HANA Finance and walk through the deployment options. Explore the new possibilities for reporting and analysis. Learn how to set up roles and business catalogs to provide users with access to the Fiori applications, and gain an understanding of the various types of applications. By using practical examples, tips, and screenshots, this book helps readers to: - Understand the basics of SAP S/4HANA Finance - Explore the new architecture, updated configuration options, and SAP Fiori - Examine SAP S/4HANA Finance migration steps - Understand alternative deployment options, such as a central finance deployment

If your team is making the migration to the New General Ledger, you're going to need a guide. Learn what you can expect in the months ahead: the decisions, the project stages like planning and testing, and the steps your team will take from preparation to go-live. With this book as your companion, you can move from the classic G/L to the New G/L with confidence--and a clear view of what's to come.

"Start your CFin project! Learn how Central Finance fits in to your IT landscape, and how it will impact your finance processes, reporting, and master data. Get step-by-step instructions for implementation and tips for project management from this one-stop shop for everything Central Finance!"--

This book on 'Configuring SAP General Ledger Accounting' in SAP S/4HANA Finance, covers configuring your SAP system for making use of the important functional areas of SAP General Ledger (G/L) Accounting. As with my other books on SAP, this book also follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you comprehend a topic or a configuration setting or a concept better. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide), for easy reference. You will come across with appropriate menu paths and Transactions, to help you to navigate the various activities. The coverage includes: Case Study SAP General Ledger Accounting: Overview Features & Functionalities Pre-requisites for Configuring SAP G/L Accounting Master Data Business Transactions Periodic Processing Preparation for Productive Start Information System The book starts with a case study, setting up the tone for further discussions, outlining the various business processes that you will be configuring towards implementing SAP G/L Accounting for your business. You will come across with the case study brief per configuration activity / step, in each Chapter. We discuss the overview of SAP G/L Accounting, before moving on to discuss its important features and functionalities. You will learn about extensibility, ledger concept, document splitting, parallel accounting, segment reporting, fast close and integration of SAP FI with SAP Controlling. We, then, move on to discuss the pre-requisites for configuring SAP G/L Accounting. Here, you will learn about the important FI general settings and also on how to configure the fields, ledgers and currencies. You will learn more about parallel accounting and the FI integration with CO. While on G/L master data, we discuss the G/L account master data, the profit center master data and segment master data. We bring out, in detail, the preparations that you need to make for creating these master data, besides elaborating their creation and processing. You will, then, be taken to learn about the functionality as well as the configuration of G/L business transactions, including document splitting, open item clearing, bank account interest calculation, and adjustment posting / reversal. In periodic processing for G/L, you will learn about the various closing operations like check/count, value, reclassify, allocation and carry forward. We, then, discuss the preparations that you need to make for productive start of SAP G/L Accounting system. You will learn about the preparations, in detail, for new implementation, as well as for migration from an existing non-HANA SAP system. Finally, towards the end, we discuss the G/L information system. You will learn about the various G/L reports that are available for your business, including the drilldown reports and reports created with Report Painter / Report Writer. In all, you can use this book as a desktop-reference or a refresher for configuring SAP G/L Accounting. As the Chapters have been progressively elaborated, you will find the book very informative and easy to read.

This book constitutes the proceedings of the 22nd International Conference on Theory and Practice of Digital Libraries, TPDL 2018, held in Porto, Portugal, in September 2018. The 51 full papers, 17 short papers, and 13 poster and tutorial papers presented in this volume were carefully reviewed and selected from 81 submissions. The general theme of TPDL 2018 was Digital Libraries for Open Knowledge. The papers present a wide range of the following topics: Metadata, Entity Disambiguation, Data Management, Scholarly Communication, Digital Humanities, User Interaction, Resources, Information Extraction, Information Retrieval, Recommendation.

SAP ERP modules are notoriously hard to configure and use effectively without a lot of practice and experience. But as SAP ERP Financial Accounting and Controlling:

Configuration and Use Management shows, it doesn't have to be so difficult. The book takes a systematic approach that leads SAP Financial Accounting and Controlling (FICO)

users step by step through configuring and using all the program's facets. This approach makes configuration complexities manageable. The book's author—SAP expert, trainer, and accountant Andrew Okungbowa—ensures that both you and your end users are up and running quickly and confidently with FICO. He also provides sound and tested procedures that ensure your implementation works without error. SAP ERP Financial Accounting and Controlling: Configuration and Use Management is in fact the most comprehensive and easy-to-follow SAP FICO configuration book in the market. It incorporates a hands-on approach, with hundreds of screen shots and practical examples, that allows a person without prior configuration training to make SAP FICO ready for use in the enterprise. You'll find that you don't need to be a rocket scientist to grasp the concepts explained and apply them to your work—even when the finances are complicated, such as with the ins and outs of taxes, currency conversions, or special general ledger entries such as down payments or bills of exchange. Providing an in-depth coverage of both configuration and end user procedures, the book covers most aspects of the SAP FICO certification syllabus—SAP's view of the module's key tasks and procedures—including: Configuring and using the general ledger and accounts payable and receivable screens Configuring and completing closing procedures, asset accounting, and financial reporting Configuring global settings and enterprise variables Accounting for both profit and cost centers Creating a house bank Integrating FICO with other SAP modules Taking a jargon-free tone and providing an abundance of examples, Andrew Okungbowa provides a clear understanding of configuration techniques and the breadth of functionalities encompassed by SAP FICO. And as an accountant, Okungbowa understands the needs of end users as well as of those answering to the CIO.
