The Call of the Wild is Now a Major Motion Picture Starring Harrison Ford! Out of the white wilderness, out of the Far North, Jack London, one of America's most popular authors, drew the inspiration for his robust tales of perilous adventure and animal cunning. Swiftly paced and vividly written, the novel and five short stories included here capture the main theme of London's work: the law of the club and the fang—man's instinctive reversion to primitive behavior when pitted against the brute force of nature. Includes The Call of the Wild, Diabolo: A Dog, An Odyssey of the North, To the Man on the Trail, To Build a Fire, and Love of Life

White Fang is Jack London's companion novel to The Call of the Wild. In The Call of the Wild we follow a dog's journey from domestication to wilderness, but in White Fang we see the opposite: a wild wolf-dog captured by men and eventually domesticated. White Fang's journey isn't an easy one; both the wild and civilization have their share of brutal violence. But he eventually seems happy in a home with a loving family. When read side-by-side with The Call of the Wild, White Fang poses an interesting question: is wilderness really an improvement over civilization? Is there one right way to live?
