

White Fang Study Guide

The adventures of an unusual dog, part St. Bernard, part Scotch shepherd, forcibly taken to the Klondike gold fields where he eventually becomes the leader of a wolf pack. Jack London' s two greatest novels, "The Call of the Wild" and "White Fang" originally intended as companions are here compiled in one volume. "The Call of the Wild" centers on a domesticated dog, Buck, who is kidnapped and sold to Klondike gold hunters. To survive Buck must listen to the Call and learn the ways of his wolf-ancestors, who guide him from within. "White Fang" tells the story of a half-wolf, half-dog nearly destroyed by the vicious cruelty of men. Brought to the very brink of his existence, White Fang is lucky enough to experience the one thing that can save him human love. Adventurer and activist, philosopher and alcoholic, Jack London was a man of great contradictions and greater talent. Both of these novels are written in a simple, direct, and powerful style that decades of readers have admired and that writers have imitated.

The biting cold and the aching silence of the far North become an unforgettable backdrop for Jack London's vivid, rousing, superbly realistic wilderness adventure stories featuring the author's unique knowledge of the Yukon and the behavior of humans and animals facing nature at its cruelest.

character, a wild wolfdog. First serialized in Outing magazine, it was published in 1906. The story details White Fang's journey to domestication in Yukon Territory and the Northwest Territories during the 1890s Klondike Gold Rush. It is a companion novel (and a thematic mirror) to London's best-known work, The Call of the Wild, which is about a kidnapped, domesticated dog embracing his wild ancestry to survive and thrive in the wild.Much of White Fang is written from the viewpoint of the titular canine character, enabling London to explore how animals view their world and how they view humans. White Fang examines the violent world of wild animals and the equally violent world of humans. The book also explores complex themes including morality and redemption.As early as 1925, the story was adapted to film, and it has since seen several more cinematic adaptations, including a 1991 film starring Ethan Hawke and a 2018 original film for Netflix.

What is this World? What kind of place is it? *The round kind. The spinning kind. The moist kind. The inhabited kind. The kind with flamingos (real and artificial). The kind where water in the sky turns into beautifully symmetrical crystal flakes sculpted by artists unable to stop themselves (in both design and quantity). The kind of place with tiny, powerfully jawed mites assigned to the carpets to eat my dead skin as it flakes off The kind with people who kill and people who love and people who do both . . . This world is beautiful but badly broken. "I love it as it is, because it is a story, and it isn't stuck in one place. It is full of conflict and darkness like every good story, a world of surprises and questions to explore. And there's someone behind it: there are uncomfortable answers to the hows and whys and whats. In the beginning was the Word, and the Word was with God, and the Word was God. Through Him were all things made . . . Welcome to His poem. His play. His novel. Let the pages flick your thumbs."

Lillian and Madison were unlikely roommates and yet inseparable friends at their elite boarding school. But then Lillian had to leave the school unexpectedly in the wake of a scandal and they've barely spoken since. Until now, when Lillian gets a letter from Madison pleading for her help. Madison's twin stepkids are moving in with her family and she wants Lillian to be their caretaker. However, there's a catch: the twins spontaneously combust when they get agitated, flames igniting from their skin in a startling but beautiful way. Lillian is convinced Madison is pulling her leg, but it's the truth. Thinking of her dead-end life at home, the life that has consistently disappointed her, Lillian figures she has nothing to lose. Over the course of one humid, demanding summer, Lillian and the twins learn to trust each other—and stay cool—while also staying out of the way of Madison's buttoned-up politician husband. Surprised by her own ingenuity yet unused to the intense feelings of protectiveness she feels for them, Lillian ultimately begins to accept that she needs these strange children as much as they need her—urgently and fiercely. Couldn't this be the start of the amazing life she'd always hoped for? With white-hot wit and a big, tender heart, Kevin Wilson has written his best book yet—a most unusual story of parental love.

Buck, a sturdy crossbreed canine, is seized from his pampered family surroundings and shipped to the forbidding landscape of the Alaskan frontier to be a sled dog. As gripping today as it was when first published over a century ago, this classic tale of survival remains one of London's most popular adventures.

To read any of London's work is to be in the presence of his own biography; few authors have drawn so freely upon their own experiences for literary material. All his characters, including Burning Daylight, are Jack London in masquerade or Jack London as he dreamed of himself. "Burning Daylight" might be called "Miscellaneous Adventures in the Life of a Superman" - his way of celebrating his birthday, his record trip with the Yukon Mail, his fight with starvation, his discovery of Klondike gold, his adventure with the stock market, his sensational hold up of the New York brokers etc. All of London's leading characters are of this type supermen, superwomen, dreams of their creator, half real, half mythical. All of them are blonds even to the golden degree. They have blue or gray eyes and bodies that are perfect. His men have muscles that creep and knot like living things and skins like silk. Burning Daylight has that super-strength "that is the dower of but one human in millions". (Fred Lewis Pattee)

2 B R 0 2 B' is a short story by renowned science fiction writer Kurt Vonnegut. The title is pronounced as "2 B R naught 2 B", referencing to the famous phrase "to be, or not to be" from William Shakespeare's 'Hamlet'. In this story, the title refers to the telephone number one dials to schedule an assisted suicide with the Federal Bureau of Termination. The setting is a society in which aging has been cured, individuals have indefinite lifespans, and population control is used to limit the population of the United States to forty million. This is maintained through a combination of infanticide and government-assisted suicide. In short, in order for someone to be born, someone must first volunteer to die. As a result, births are few and far between, and deaths occur primarily by accident.

Marty Preston wonders why it is that despite Judd Traver's attempts to redeem himself everyone is still so willing to think the worst of him. Marty's friend David is sure that Judd will be named as the murderer of a man who has been missing. Others are sure that Judd is behind a series of burglaries in the area. But Marty's parents and, with some trepidation, Marty himself persist in their attempts to be good neighbors and to give Judd a second chance. Now that Marty has Shiloh, maybe he can help Judd to take better care of his other dogs. Then again, maybe folks are right -- there's no way a Judd Travers can ever change for the good. Then a terrifying life-or-death situation brings this dilemma into sharp focus. Saving Shiloh is a powerful novel that brings this trilogy to a close.

Describes the experiences of a newcomer to the Yukon when he attempts to hike through the snow to reach a mining claim.

A revelatory look at the life of the great American author—and how it shaped his most beloved works Jack London was born a working class, fatherless Californian in 1876. In his youth, he was a boundlessly energetic

adventurer on the bustling West Coast—an oyster pirate, a hobo, a sailor, and a prospector by turns. He spent his brief life rapidly accumulating the experiences that would inform his acclaimed bestselling books *The Call of the Wild*, *White Fang*, and *The Sea-Wolf*. The bare outlines of his story suggest a classic rags-to-riches tale, but London the man was plagued by contradictions. He chronicled nature at its most savage, but wept helplessly at the deaths of his favorite animals. At his peak the highest paid writer in the United States, he was nevertheless forced to work under constant pressure for money. An irrepressibly optimistic crusader for social justice and a lover of humanity, he was also subject to spells of bitter invective, especially as his health declined. Branded by shortsighted critics as little more than a hack who produced a couple of memorable dog stories, he left behind a voluminous literary legacy, much of it ripe for rediscovery. In *Jack London: An American Life*, the noted Jack London scholar Earle Labor explores the brilliant and complicated novelist lost behind the myth—at once a hard-living globe-trotter and a man alive with ideas, whose passion for seeking new worlds to explore never waned until the day he died. Returning London to his proper place in the American pantheon, Labor resurrects a major American novelist in his full fire and glory.

"A Piece of Steak" was a short story written by Jack London which first appeared in the *Saturday Evening Post* in November 1909. It took him about half a month to write it and earned him five hundred dollars.

Breakfast eaten and the slim camp-outfit lashed to the sled, the men turned their backs on the cheery fire and launched out into the darkness. At once began to rise the cries that were fiercely sad-cries that called through the darkness and cold to one another and answered back. Conversation ceased. Daylight came at nine o'clock. At midday the sky to the south warmed to rose-colour, and marked where the bulge of the earth intervened between the meridian sun and the northern world. But the rose-colour swiftly faded. The grey light of day that remained lasted until three o'clock, when it, too, faded, and the pall of the Arctic night descended upon the lone and silent land. As darkness came on, the hunting-cries to right and left and rear drew closer—so close that more than once they sent surges of fear through the toiling dogs, throwing them into short-lived panics. At the conclusion of one such panic, when he and Henry had got the dogs back in the traces, Bill said: "I wish they'd strike game somewhere, an' go away an' leave us alone." "They do get on the nerves horrible," Henry sympathised. They spoke no more until camp was made. Henry was bending over and adding ice to the babbling pot of beans when he was startled by the sound of a blow, an exclamation from Bill, and a sharp snarling cry of pain from among the dogs. He straightened up in time to see a dim form disappearing across the snow into the shelter of the dark. Then he saw Bill, standing amid the dogs, half triumphant, half crestfallen, in one hand a stout club, in the other the tail and part of the body of a sun-cured salmon. "It got half of it," he announced; "but I got a whack at it jes' the same. D'ye hear it squeal?" "What'd it look like?" Henry asked. "Couldn't see. But it had four legs an' a mouth an' hair an' looked like any dog." "Must be a tame wolf, I reckon." "It's damned tame, whatever it is, comin' in here at feedin' time an' gettin' its whack of fish." That night, when supper was finished and they sat on the oblong box and pulled at their pipes, the circle of gleaming eyes drew in even closer than before.
