also the current operating system product and is a work in progress type of software. That is, all the other software launched in this category were a one-time release, however, Windows 10 is not just another version of windows that will fade away with time, instead of releasing new windows product, Microsoft will be adding new features to Windows 10 itself. Hence, as there will be no new windows product release by Microsoft again, Windows 10 is known as the last version of windows. With windows features addition via updating, people won't have to worry about backing up their data again whenever they have to upgrade the operating system of their machine. Moreover, Windows 10 is the fastest and smartest windows product ever made by Microsoft. In this book, you will exactly learn why it is so and also learn everything that you need to know about Windows 10, from its upgrade requirements to its
