

Winfield Jolowicz Tort

Each section begins with a clear overview of the key points of the law, before fully explaining and illustrating the topic through substantial case extracts and further commentary."--BOOK JACKET.

This book examines the topical sphere of governmental liability in damages arguing that there has been an important shift in the traditional English law approach as illustrated in a series of recent House of Lords decisions. A detailed analysis is made of the torts applying to public bodies, including negligence, misfeasance in public office, nuisance and breach of statutory duty, as well as the influence of European human rights law and community law, with discussion of the availability of damages under the Human Rights Act 1998 and the impact of the controversial decision of the European Court of Human Rights in *Osman v UK* and the subsequent retreat in *Z v UK*. The discussion of state liability is also placed within the context of the evolving attitude of the courts to public law remedies, with a detailed reconsideration of the relationship between ultra vires and liability in damages. From a comparative law perspective, it is argued

that contrary to orthodox doctrinal opinion there are many similarities in the English and French law of administrative liability, with parallels in the treatment of different types of loss, causation, finding of fault, and underlying policy concerns. The author discusses the direction in which English law might now move, as well as analysing less orthodox sources of compensation such as the practice of the ombudsmen and statutory funds including the new French medical negligence compensation scheme.

This 5th edition of Commonwealth Caribbean Property Law sets out clearly and concisely the central principles of the law of real property in the region, guiding students through this core but often complex subject area. Fully revised and updated to include important new case law from the various Caribbean jurisdictions, the book provides comprehensive coverage of the key topics studied by undergraduates, including co-ownership, leaseholds, condominium, restrictive covenants, easements, mortgages and adverse possession. Emphasis is on those areas that are most commonly litigated in the region, and the book contains discussion of, or reference to, many unreported cases. This new edition

features expanded coverage of freehold estates, a glossary of key terms, and a new question and answer section at the end of the book. Commonwealth Caribbean Property Law is essential reading for LLB students in Caribbean universities and students on CAPE Law courses and, with its analysis of the substantive laws across several jurisdictions, it will continue to be an invaluable reference tool for legal practitioners in the region.

Winfield and Jolowicz on Tort. -- 11th Ed.

by W.V.H. Rogers

The Law of Torts

The Present Law of Abuse of Legal

Procedure

Tort Law

This book is the first in a series of essay collections on defences in private law. It addresses defences to liability arising in tort. The essays range from those adopting a primarily doctrinal approach to others that examine the law from a more theoretical or historical perspective. Some essays focus on individual defences, while some are concerned with the links between defences, or with how defences relate to the structure of tort law as a whole. A number of the essays also draw upon concepts and literature that have been developed mainly

in relation to the criminal law, and consider their application to tort law. The essays make several original contributions to this complex, important but neglected field of academic enquiry. Public Law is a high quality textbook that offers a mixture of black letter law and political analysis to give students an excellent grounding in the subject. It covers all of the key topics on undergraduate courses and includes a number of pedagogical features to aid understanding.

Tort law is a core element of every law degree in England and Wales. Unlocking Torts will ensure you grasp the main concepts with ease. This book explains in detailed, yet straightforward, terms: Negligence and negligence related torts including occupiers' liability and employers' liability Land based torts such as trespass, nuisance and Rylands v Fletcher Liability for animals Torts relating to goods Trespass to the person Defamation and other torts relating to reputation Economic torts, breach of a statutory duty, vicarious liability, defences and remedies The fourth edition is fully up to date with the major recent cases including major developments in vicarious liability. It also includes

changes after the Defamation Act 2013. The Unlocking the Law series is designed specifically to make the law accessible. Each chapter opens with a list of aims and objectives, contains activities such as quick quizzes and self-test questions, key facts charts to consolidate your knowledge, and diagrams to aid learning. Cases and judgments are prominently displayed, as are primary source quotations. Summaries help check your understanding of each chapter, there is a glossary of legal terminology. New features include problem questions with guidance on answering, as well as essay questions and answer plans, plus cases and materials exercises. All titles in the series follow the same formula and include the same features so students can move easily from one subject to another. The series covers all the core subjects required by the Bar Council and the Law Society for entry onto professional qualifications as well as popular option units. The series website www.unlockingthelaw.co.uk provides free resources such as multiple choice questions, key questions and answers, revision mp3s and cases and materials exercises.

Scholars of Tort Law

Hepple and Matthews' Tort Law
Commonwealth Caribbean Tort Law
An Introduction to the Comparative Study
of Private Law

Original sources illustrate and compare the principal doctrines of private law in the United States, England, France, Germany and China. Providing a comprehensive and principled account of the uncertainty problem that arises in tort litigation, this text critically examines the existing doctrinal solutions of the problem, as evolved in England, United States, Canada & Israel.

The law of torts recognises many defences to liability. While some of these defences have been explored in detail, scant attention has been given to the theoretical foundations of defences generally. In particular, no serious attempt has been made to explain how defences relate to each other or to the torts to which they pertain. The goal of this book is to reduce the size of this substantial gap in our understanding of tort law. The principal way in which it attempts to do so is by developing a taxonomy of defences. The book shows that much can be learned about a given defence from the way in which it is classified. This book has been awarded Joint Second Prize for the 2014 Society of Legal Scholars Peter Birks Prize for Outstanding Legal Scholarship.

**Commonwealth Caribbean Land Law
Street on Torts**

State Liability in Tort

Tort Liability Under Uncertainty

New to Hart Publishing, this is the seventh edition of the classic casebook on tort, the first of its kind in the UK, and for many years now a bestselling and very popular text for students. This new edition retains all the features that have made it such a popular and respected text, with extensive commentary, questions and notes supplementing the selection of cases and statutes which form the core of the book. Taking a broadly contextual approach, the book addresses all the main topics in tort law, is up-to-date, doctrinally sound, stimulating and highly readable.

The first textbook on Commonwealth Caribbean Contract law for undergraduate and sixth form students, Commonwealth Caribbean Contract Law is a new and unrivalled resource on the subject. This textbook utilises Caribbean Case Law and Statutory provisions to provide a clear and immersive path into the study of contract law from a Caribbean perspective. Encompassing topics that include misrepresentation, privity, and remedies, this book expertly introduces and explains the many aspects of contract law in the Caribbean. Written by a well-established

textbook author and professor of law at Mona Campus, the textbook comprehensively covers all key principles of contractual obligations studied by undergraduate students, and is relevant to practitioners in a modern and accessible way. An invaluable reference, this book is essential reading for those with an academic or professional interest in contract law.

This textbook considers all the topics typically included in tort courses.

Several chapters deal first with primary issues relating to liability, negligence, and breach of statutory duty before passing on to examine specific torts, such as nuisance, defamation and the economic torts.

The Law of Tort

Readings, Cases, Materials

Public Law

Torts and Rights

This best-selling undergraduate textbook from leading academics Kirsty Horsey & Erika Rackley gives a comprehensive grounding in tort law and carefully chosen learning features help students to become engaged and critical thinkers. This lively and thought-provoking account allows students to understand rather than simply learn the law. The problem questions in each chapter help students to understand how the law works in its practical context and to begin to consider potential issues and debates. Carefully chosen features such as 'counterpoint' and 'pause for

reflection' boxes enable students to think more deeply and critically about the law. The text is accompanied by an extensive Online Resource Centre, which includes the following resources: - Downloadable annotated judgments, statutes, and problem questions - Outline answers to questions in the book - Annotated web links to external web resources and videos - Flashcard glossary of legal terms used in the book - Additional content on elements of a claim in the tort of negligence and on product liability - Test bank of 200 questions and answers for lecturers' use in assessing students

The law of torts is concerned with the secondary obligations generated by the infringement of primary rights. This work seeks to show that this apparently simple proposition enables us to understand the law of torts as found in the common law. Using primarily English materials, but drawing heavily upon the law of other common law jurisdictions, Stevens seeks to give an account of the law of torts which relies upon the core material familiar to most students and practitioners with a grasp of the law of torts. This material is drawn together in support of a single argument in a provocative and accessible style, and puts forward a new theoretical model for analysing the law of torts, providing an overarching framework for radically reconceiving the subject.

This work is now well established as the leading text on tort law in the region, and this third edition incorporates the most recent developments in law and legal thinking.

The Principles of Land Law

Tort Law Defences

Winfield and (John Anthony) Jolowicz On Tort

European Tort Law

This book aims to provide a detailed analysis and overview of the duty of care enquiry, drawing on both academic analyses

and judicial experience in leading common law systems. A new structure through which duty problems can be analysed is also proposed. It is hoped that the book provides some fresh insights and clarity of the concept to the reader.

The core principles of land law are articulated clearly in this new textbook, providing a framework through which students can gain a sophisticated understanding of the modern land law system. Emma Lees' expertise in research and teaching ensures all topics are thoroughly explained in a friendly and accessible style. The textbook uses a unique structure:

"Chapter Goals" outline the key learning objectives while the core "Principles" are summarised to conclude each chapter with a comprehensive overview of the topic at hand. Key cases are explained while examples illustrate problems and possible solutions. Students understand how to accurately apply the core principles to land law scenarios, while also conducting their own critical analysis of the subject area. The author's enthusiasm is imbued in the writing style; students actively engage with the key debates and at the same time develop an appreciation of the subject as a whole. A

comprehensive interpretation of this subject, *The Principles of Land Law* is the ideal companion to a course in land law. Online resources
Bimonthly updates on recent law changes.

This textbook still stands as one of the leading works of scholarship on Australian tort law. Fleming's coverage draws on authorities in Australia & other common law jurisdictions, providing a thorough analysis for student & practitioner alike. A clear, precise & comprehensive statement of modern tort law, it is founded on a strong philosophical examination of this central area of the law.

Commonwealth Caribbean Contract Law

Text and Materials

Torts and Other Wrongs

The Duty of Care in Negligence

This textbook provides insight into the differences, commonalities and mutual influence of the tort law systems of various European jurisdictions, bringing together national tort law, comparative law, EU law, and human rights law.

The first textbook to address land law as it relates to the Commonwealth Caribbean, it encompasses all areas covered in an undergraduate course on the law of real property in the Caribbean. Primary and secondary source material on the law of property in the whole of the Commonwealth Caribbean is made easily and readily accessible to law students and legal practitioners. Statutory provisions from all States are discussed in relation to each topic and the similarities and differences are highlighted. Extensive discussion and analysis of the decisions of the courts in the region are also included alongside an in-depth analysis and critical discussion of English case law that is relevant to the Caribbean. The examination of whether or not English case law should be followed in the region is relevant and interesting to anyone studying or practising law in other Commonwealth jurisdictions. Essential reading for undergraduate law students in the Caribbean, this text will also prove useful to those studying for the certificate of proficiency in the practice of law in the Commonwealth Caribbean, while the footnote references to statutory provisions are an invaluable aid to

any researcher of Caribbean land law.

This book collects John Gardner's celebrated essays on the theory of private law, alongside two new essays. Together they range across the central puzzles in understanding the significance of outcomes, the role of justice in private law, strict liability, the reasonable person standard, and the role of public policy in tort law.

**Ramaswamy Iyer's the Law of Torts
Commonwealth Caribbean Property Law
Winfield and Jolowicz on Tort
Private Law and the Rule of Law**

Written by leading academics, this exciting new student-focused textbook offers readers a comprehensive understanding of Tort Law and enables them to become confident critical thinkers. Accessible and thought-provoking, Tort Law combines clear explanations of core legal principles and recent legal developments with lively discussions of key academic perspectives. Extended problem questions, flowcharts and relatable examples help students to understand how law works in a practical context and prepares them for success in assignments and exams. Engaging pedagogical boxes, such as 'Viewpoint' and 'Making Connections', encourage students to develop their own critical thinking practice and appreciate how Tort Law interacts with other areas of the core law curriculum. Comprehensive and student-friendly with engaging visual features, Tort Law is an essential companion for all undergraduate Tort Law modules, for students of all abilities.

This edition has been updated to incorporate the

developments that have taken place in the law of tort. Although centred in English law, significant case law developments in other major Commonwealth jurisdictions are also considered.

*The publication of *Scholars of Tort Law* marks the beginning of a long overdue rebalancing of private law scholarship. Instead of concentrating on judicial decisions and academic commentary only for what that commentary says about judicial decisions, the book explores the contributions of scholars of tort law in their own right. The work of a selection of leading scholars of tort law from across the common law world, ranging from Thomas Cooley (1824–1898) to Patrick Atiyah (1931–2018), is addressed by eminent current scholars in the field. The focus of the contributions is on the nature of the work produced by each of the scholars in question, important influences on their work, and the influence which that work in turn had on thinking about tort law. The process of subjecting tort law scholarship to sustained analysis provides new insights into the intellectual development of tort law and reveals the important role played by scholars in that development. By focusing on the work of influential tort scholars, the book serves to emphasise the importance of legal scholarship to the development of the common law more generally.*

Report on Wrongful Interference with Goods

A Text-book of the Law of Tort

The Province of the Law of Tort

Unlocking Torts

The authors focus on English law but cover significant developments in Commonwealth countries, and, where

appropriate, European systems of tort law. They offer an understanding of the purpose of tort law and also detail the rules and principles that make up tort law and explain how the law has developed.

The rule of law is widely perceived to be a public law doctrine, concerned with the way in which governmental authority conforms to the dictates of law. The goal of this book is to challenge this presumption. The chapters in this volume all consider the idea that the rule of law concerns the nature of law generally and the conditions under which any relationship - that among citizens as well as that between citizens and the state - becomes subject to law. Addressing two major questions, they ask if our understanding of the rule of law is enriched by considering how and to what degree it is expressed or realized in private law, and whether our understanding of the private law is enriched by adding the principles of the rule of law to the traditional list of core private law concepts. Bringing together leading philosophers of private and public law, this volume examines key questions in a little-explored field, and will be essential reading for all those interested in the rule of law and in private law theory. Tried and tested by generations of students, Street on Torts provides a wide-ranging, clear and accurate explanation of the law of torts. Witting incorporates the latest learning on each of the torts covered in this book to provide a thoughtful account of the purposes, rules, and operation of the law. Coverage has been closely mapped to undergraduate law courses around the UK and updates and web links can be found on the accompanying Online Resource Centre.
