Women in Love follows lives of the Brangwen sisters, Ursula a schoolteacher, and Gudrun a painter. They meet two men who live nearby, school inspector Rupert Birkin and Gerald Crich, heir to a coal-mine, and the four become friends. Ursula and Birkin begin a romantic friendship, while Gudrun and Gerald eventually begin a love affair. The emotional relationships thus established are given further depth and tension by an intense psychological and physical attraction between Gerald and Rupert. All four are deeply concerned with questions of society, politics, and the relationship between men and women. The novel ranges over the whole of British society before the time of the First World War and eventually concludes in the snows of the Tyrolean Alps. In this far-ranging and heartening collection, Derrick Jensen gathers conversations with environmentalists, theologians, Native Americans, psychologists, and feminists, engaging some of our best minds in an exploration of more

peaceful ways to live on Earth. Included here is Dave Foreman on biodiversity, Matthew Fox on Christianity and nature, Jerry Mander on technology, and Terry Tempest Williams on an erotic connection to the land. With intelligence and compassion, *Listening to the Land* moves from a look at the condition of the environment and the health of our spirit to a beautiful evocation of eros and a life based on love.

AN INSTANT NEW YORK TIMES BESTSELLER! From the # 1 New York Times bestselling author of *Eat Pray Love* and *The Signature of All Things*, a delicious novel of glamour, sex, and adventure, about a young woman discovering that you don't have to be a good girl to be a good person. "A spellbinding novel about love, freedom, and finding your own happiness." - PopSugar "Intimate and richly sensual, razzle-dazzle with a hint of danger." -USA Today "Pairs well with a cocktail...or two." -TheSkimm "Life is both fleeting and dangerous, and there is no point in denying yourself pleasure, or being anything other than what you are."

Beloved author Elizabeth Gilbert returns to fiction with a unique love story set in the New York City theater world during the 1940s. Told from the perspective of an older woman as she looks back on her youth with both pleasure and regret (but mostly pleasure), *City of Girls* explores themes of female sexuality and promiscuity, as well as the idiosyncrasies of true love. In 1940, nineteen-year-old Vivian Morris has just been kicked out of Vassar College, owing to her lackluster freshman-year performance. Her affluent parents send her to Manhattan to live with her Aunt Peg, who owns a flamboyant, crumbling midtown theater called the Lily Playhouse. There Vivian is introduced to an entire cosmos of unconventional and charismatic characters, from the fun-chasing showgirls to a sexy male actor, a grand-dame actress, a lady-killer writer, and no-nonsense stage manager. But when Vivian makes a personal mistake that results in professional scandal, it turns her new world upside down in ways that it will take her years to fully understand. Ultimately, though, it leads her to a new

understanding of the kind of life she craves - and the kind of freedom it takes to pursue it. It will also lead to the love of her life, a love that stands out from all the rest. Now eighty-nine years old and telling her story at last, Vivian recalls how the events of those years altered the course of her life - and the gusto and autonomy with which she approached it. "At some point in a woman's life, she just gets tired of being ashamed all the time," she muses. "After that, she is free to become whoever she truly is." Written with a powerful wisdom about human desire and connection, *City of Girls* is a love story like no other. The author of the memoir *Refuge* offers a meditation on the meaning of a strange legacy that her mother left her--three shelves of the elder woman's "journals," all discovered by the author after her mother's death to be empty.

A brilliant and provocative exploration of the interconnection of private life and the large-scale horrors of war and devastation. A Pulitzer Prize and National Book Critics Circle Award finalist, and a winner of the Bay Area Book Reviewers Association Award, Susan Griffin's *A Chorus of Stones* is an extraordinary reevaluation of history that explores the links between individual lives and catastrophic, world-altering violence. One of the most acclaimed and poetic voices of contemporary American feminism, Griffin delves into the perspective of those whose personal relationships and family histories were profoundly influenced by war and its often secret mechanisms: the bomb-maker and the bombing victim, the soldier and the pacifist, the grand architects who were shaped by personal experience and in turn reshaped the world. Declaring that "each solitary story belongs to a larger story"—and beginning with the brutal and heartbreaking circumstances of her own childhood—Griffin examines how the subtle dynamics of parenthood, childhood, and marriage interweave with the monumental violence of global conflict. She proffers a bold and powerful new understanding of the psychology of war through

illuminating glimpses into the personal lives of Ernest Hemingway, Mahatma Gandhi, Heinrich Himmler, British officer Sir Hugh Trenchard, and other historic figures—as well as the munitions workers at Oak Ridge, a survivor of the Hiroshima bombing, and other humbler yet indispensable witnesses to history.

What would happen, I wondered, if I simply missed out the fifty per cent of the population whose voices have been credited with shaping this particular ‘cultural form’. If I coppiced the woodland, so to speak, and allowed the light to shine down to the forest floor and illuminate countless saplings now that a gap has opened in the canopy. . . There has, in recent years, been an explosion of writing about place, landscape and the natural world. But within this blossoming of interest, women’s voices have remained very much in the minority. For the very first time, this landmark anthology collects together the work of women, over the centuries and up to the present day, who have written about the natural world in Britain, Ireland and the outlying islands of our archipelago. Alongside the traditional forms of the travelogue, the walking guide, books on birds, plants and wildlife, *Women on Nature* embraces alternative modes of seeing and recording that turn the genre on its head. Katharine Norbury has sifted through the pages of women’s fiction, poetry, household planners, gardening diaries and recipe books to show the multitude of ways in which they have observed the natural world about them, from the fourteenth-century writing of the anchorite Julian of Norwich to the seventeenth-century travel journal of Celia Fiennes; from the keen observations of Emily Brontë to a host of brilliant contemporary voices. *Women on Nature* presents a groundbreaking vision of the natural world which, in addition to being a rich and scintillating anthology that shines a light on many unjustly overlooked writers, is of unique importance in terms of

women's history and the history of writing about nature.

When it came out in 1994, "My Name is Chellis and I'm in Recovery from Western Civilization" quickly became a classic of the ecopsychology movement. By documenting the entanglement of the ecological crisis with modern addictions, the book gives an unusual glimpse into matters of culture, history, politics, and personal consciousness.

The titular "Roaring Girl" of Thomas Middleton and Thomas Dekker's comedy is Moll Cutpurse, a fictionalized version of Mary Frith, who attained legendary status in London by flouting gendered dress conventions, illegally performing onstage, and engaging in all manner of transgressive behavior from smoking and swearing to stealing. In the course of The Roaring Girl's lively and complex plot of seduction and clever ruses, Moll shares her views on gender and sexuality, defends her honor in a duel, and demonstrates her knowledge of London's criminal underworld. This edition of the play offers an informative introduction, thorough annotation, and a substantial selection of contextual materials from the period.

"A spellbinding book." —Megha Majumdar "Akil Kumarasamy is a singular talent . . . I love this book." —Cathy Park Hong Written in vivid and pulsating prose, alternating between the young woman's present life and passages of the translated manuscript, Akil Kumarasamy's *Meet Us by the Roaring Sea* is a remarkable, genre-bending exploration of memory, technology, friendship, love, consciousness, and the costs of caring for others in an age when we are so often lost in the swamps of our own minds. In the near future, a young woman finds her mother's body starfished on the kitchen floor in Queens and sets on a journey through language, archives, artificial intelligence, and TV for a way back into herself. She begins to translate an old manuscript about a group of female medical students—living through a drought and at the edge of the war—as they create a new way of existence to help the people around them. In the process, the translator's life and the manuscript begin to become entangled. Along the way, the arrival of a childhood friend, a stranger, and an unusual AI project will force her to question her own moral compass and sense of goodness. How involved are we in the suffering of others? What does real compassion look like? How do you make a better world?

Feminism and Ecological Communities presents a bold and passionate rethinking of the ecofeminist movement. It is one of the first books to acknowledge the importance of postmodern feminist arguments against ecofeminism whilst persuasively presenting a strong new case for ecological feminism. Chris J. Cuomo first traces the emergence of ecofeminism from the ecological and feminist movements before clearly discussing the weaknesses of some ecofeminist positions. Exploring the dualisms of nature/culture and masculing/feminine that are the bulwark of many contemporary ecofeminist positions and questioning traditional traditional feminist analyses of gender and caring, *Feminism and Ecological Communities* asks whether women are essentially closer to nature than men and how we ought to link the oppression of women, people of colour, and other subjugated groups to the degradation of nature. Chris J. Cuomo addresses these key issues by drawing on recent work in feminist ethics as well as the work of diverse figures such as Aristotle, John Dewey, Donna Haraway and Maria Lugones. A fascinating feature of the book is the use of the metaphor of the cyborg to highlight the fluidity of the nature/culture distinction and how this can enrich ecofeminist ethics and politics. An outstanding new argument for an ecological feminism that links both theory and practice, *Feminism and Ecological Communities* bravely redraws the

ecofeminist map. It will be essential reading for all those interested in gender studies, environmental studies and philosophy.

Leading feminist scholars and activists as well as new voices introduce and explore themes central to contemporary ecofeminism. Ecofeminism: Feminist Intersections with Other Animals and the Earth first offers an historical, grounding overview that situates ecofeminist theory and activism and provides a timeline for important publications and events. This is followed by contributions from leading theorists and activists on how our emotions and embodiment can and must inform our relationships with the more than human world. In the final section, the contributors explore the complexities of appreciating difference and the possibilities of living less violently. Throughout the book, the authors engage with intersections of gender and gender non-conformity, race, sexuality, disability, and species. The result is a new up-to-date resource for students and teachers of animal studies, environmental studies, feminist/gender studies, and practical

ethics.

"A play in poetry about the lives of five women who don't know one another, nor speak to each other. Rather they're telling their life stories to the audience. Each is facing some crisis in life. Erin speaks bitterly of suicide. Kate, near the end of a life in which she always overcame circumstances, is fearful of death. All the voices speak in counterpoint to one another, leaving an unspoken dialogue as they echo one another. The play moves in counterpoint and resonance until the women speak in chorus their voices exchanging scenes from a common history. Then each sees where her life has moved her. In the end these women's voices are no longer isolated, nor are their lives separate. Voices opened to great audience acclaim in New York City." --Descripción del editor.

First published in 1975, New Woman, New Earth explores the connections between sexism, racism, anti-Semitism, environmental destruction, and other forms of domination. Long ahead of its time, it remains an unparalleled introduction to women's studies and the feminist critique of religion.

Winner of the Pulitzer prize in 1974 and the culmination of a life's work, The Denial of Death is Ernest Becker's brilliant and impassioned answer to the 'why' of human existence. In bold contrast to the predominant Freudian school of thought, Becker tackles the problem of the vital lie - man's refusal to acknowledge his own mortality.

*The book argues that human civilisation is a defence against the knowledge that we are mortal beings. Becker states that humans live in both the physical world and a symbolic world of meaning, which is where our 'immortality project' resides. We create in order to become immortal - to become part of something we believe will last forever. In this way we hope to give our lives meaning. In *The Denial of Death*, Becker sheds new light on the nature of humanity and issues a call to life and its living that still resonates decades after it was written.*

From Pulitzer-Prize-nominated author Susan Griffin comes an unprecedented, provocative look at the dazzling world of the West ' s first independent women, whose lively liaisons brought them unspoken influence, wealth, and freedom.

While they charmed some of Europe ' s most illustrious men honing their social skills as well as their sexual ones, the great courtesans gained riches, power, education, and sexual freedom in a time when other women were denied all of these. From Imperia of sixteenth-century Rome, who personified the Renaissance ideal of beauty; Mme. de Pompadour, the arbiter of all things fashionable in eighteenth-century Paris and Versailles; Liane de Pougy, known in France during the Belle Epoque as “ Our National Courtesan ” ; to Sarah Bernhardt, who, following in her mother ' s footsteps, supported herself in her early career with a second profession, *The Book of the Courtesans* tells the life stories and intricacies of the lavish lifestyles of these women. Unlike their geisha counterparts, courtesans neither lived in brothels nor bent their wills to suit their suitors. They were strong-willed, autonomous, and plucky. An open secret, their presence can be felt throughout our culture. The muses who enflamed the hearts and imaginations of our most celebrated artists, they were also artists in their own right. They wrote poetry and novels, invented the cancan at the Moulin Rouge, and presented celebrated acts at the Folies Bergères. They helped to influence and shape the sensibility of modern literature, painting, and fashion. When Greek sculptor Praxiteles wanted to depict Venus he used a famous courtesan as a model, as in later centuries Titian, Veronese, Raphael, Giorgione,

and Boucher did when they painted goddesses. When Marcel Proust was a young man it was the courtesan Laure Hayman who took him under her wing, introducing him to the right people, and providing inspiration for one of literature ' s greatest masterpieces. And they often had considerable political influence too. When King Louis XV needed advice on foreign affairs or appointments of state he turned to Jeanne du Barry as well as Pompadour. In her witty and insightful prose, as Griffin celebrates these alluring and fascinating women, she restores a lost legacy of women ' s history. She gives us the stories of these amazing women who, starting from impoverished or unimpressive beginnings, garnered chateaux, fine coaches, fabulous collections of jewelry, and even aristocratic titles along the way. And through a brilliant exploration of their extraordinary abilities, skills, and talents which Griffin playfully categorizes as their virtues "Timing, Beauty, Cheek, Brilliance, Gaiety, Grace, and Charm" her book explains how, while helping themselves, through their often outrageous, always entertaining examples, the great courtesans not only enriched our cultural heritage but helped to liberate women from the social, sexual, and economic strictures that confined them. Intensively researched and beautifully crafted, The Book of the Courtesans delves into scintillating but often hidden worlds, telling stories gleaned from many sources, including courtesans ' memoirs, presented along with stunning rare

photographs to create memorable portraits of some of the most pivotal figures in women ' s history.

Raised to rule, despite not having the abilities her ancestors did, Aurora becomes betrothed to a prince who possesses the magic needed to keep the kingdom safe.

UPDATED 40TH ANNIVERSARY EDITION WITH 2020 PREFACE An examination of the Scientific Revolution that shows how the mechanistic world view of modern science has sanctioned the exploitation of nature, unrestrained commercial expansion, and a new socioeconomic order that subordinates women.

From Nobel laureate, world-renowned doctor, and noted human rights activist Dr. Denis Mukwege comes an inspiring clarion call-to-action to confront the scourge of sexual violence and better learn from women's resilience, strength, and power.

At the heart of Dr. Mukwege's message will be the voices of the many women he has worked with over the years. Dr. Mukwege will use individual cases to reassure all survivors that, even if their psychological wounds may never fully heal, they can recover and thrive with the right care and support. Dr. Mukwege's dramatic personal story is interwoven throughout as he explores the bigger issues that have become a focus of his advocacy. He will seek to explain why sexual violence is so often overlooked during war, and how governments need to recognize and compensate victims. He will also stress the importance of breaking down the taboos surrounding assault, and the necessity of building a system that supports women who come forward. His words advocate for saying 'no' to indifference and he asks readers to reckon with the West's involvement in perpetuating sexual violence in places like the Democratic Republic of Congo, and to confront the abuse taking place in their own communities. Sexual violence does not occur in a vacuum. The conflict in the Democratic Republic of Congo, which has raged for over 20 years and has claimed an estimated 5 million lives, is inseparable from Western patriarchy and economic colonization. And this cycle of violence and spoils is not limited to Congo. Dr. Mukwege's work has led him to South Korea, Latin America, the Middle East, and elsewhere in Africa, where he has found striking similarities in women's testimonies. The truth is, through the intricate ties of the global economy, we are all implicated in violence against

women – whether it occurs amidst the fighting in the Democratic Republic of Congo or on college campuses in the West. And Dr. Mukwege’s writing will address men as well, encouraging and guiding them to become allies in the fight against sexual abuse, in war and in peace. Building more inclusive, gender-balanced societies will require developing what he calls “positive masculinity” – a systemic change in male behavior and attitudes towards women. Dr. Mukwege hopes to inspire other men to speak out and join the struggle, rather than leaving women to fight the battle alone. He will also make the case, drawing from his experience and a wealth of research on the topic, that when women are involved as economic and political decision makers, all of society benefits. *The Power of Women* will illuminate the enduring strength of women in the face of violence and trauma, and give hope for the potential of individuals to turn the tide.

From the New York Times–bestselling author of the Xanth novels: An epic drama of two souls whose tragedies and triumphs span human history. Piers Anthony’s *Isle of Woman* is a monumental epic of unprecedented drama and scope, retelling the saga of humankind in a unique and dramatic way. The culmination of more than a quarter century of research, it is a stunningly ambitious achievement from a master of imaginative fiction. At once grand in scope and intimate in human detail, *Isle of Woman* tells the story of a man and a woman born at the dawn of human history, separated by fate, yet united by an unquenchable

passion that even time could not conquer: Blaze, the fire worker who raised his kind of savagery, and Ember, the beautiful green-eyed woman who forever haunted his dreams. Through their eyes and those of their descendents, we witness humanity's odyssey from savagery to civilization as they are reborn again and again throughout history. We share with these two eternal lovers an unforgettable odyssey of triumph, tragedy, and discovery that takes them from the African savannah to the ancient Middle East, from the South Pacific to the caves of northern Europe, from the court of imperial China to India during the British Raj, ending in a stunning reunion in an America in ruins only a few short years from now.

This revised edition includes a New Intergalactic Introduction by the Author. Mary Daly's New Intergalactic Introduction explores her process as a Crafty Pirate on the Journey of Writing Gyn/Ecology and reveals the autobiographical context of this "Thunderbolt of Rage" that she first hurled against the patriarchs in 1979 and no hurls again in the Re-

Surging Movement of Radical Feminism in the Be-Dazzling Nineties.

Here, archaeologically documented, is the story of the religion of the Goddess. Under her, women's roles were far more prominent than in patriarchal Judeo-Christian cultures. Stone describes this ancient system and, with its disintegration, the decline in women's status.

In Roar Like a Goddess, trailblazing Vedic spiritual teacher Acharya Shunya empowers women to step into their divine immensity and lead powerful, abundant, and wise lives through a revolutionary revisioning of ancient India's primary goddess archetypes. This inspired collection offers a new paradigm for moving the world beyond violence as the first, and often only, response to violence. Through essays and poetry, prayers and mediations, Transforming Terror powerfully demonstrates that terrorist violence--defined here as any attack on unarmed civilians--can never be stopped by a return to the thinking that created it. A diverse array of contributors--writers, healers, spiritual and political leaders, scientists, and activists, including Desmond Tutu, Huston Smith, Riane Eisler, Daniel Ellsberg, Amos Oz, Fatema Mernissi, Fritjof Capra, George Lakoff, Mahmoud Darwish, Terry Tempest Williams, and Jack Kornfield--considers how we might transform the conditions that produce terrorist acts and bring true healing to the victims of these acts. Broadly encompassing both the Islamic and Western worlds, the book explores the nature of consciousness and offers a blueprint for change that makes peace possible. From unforgettable firsthand accounts of terrorism, the book draws us

into awareness of our ecological and economic interdependence, the need for connectedness, and the innate human capacity for compassion.

A masterwork of feminist ideology, brilliantly exposing pornography as the antithesis of free expression and the enemy of liberty In this powerful and devastating critique, poet, philosopher, and feminist Susan Griffin exposes the inherent psychological horrors of pornography. Griffin argues that, rather than encouraging expression, pornographic images and the philosophies that support them actually stifle freedoms through the dehumanization, subjugation, and degradation of female subjects. The pornographic mindset, Griffin contends, is akin to racism in that it causes dangerous schisms in society and promotes sexual regression, fear, and hatred. This violent rift in Western culture is explored by examining the lives of six notable individuals across two centuries: Franz Marc, the Marquis de Sade, Kate Chopin, Lawrence Singleton, Anne Frank, and Marilyn Monroe. The result is an extraordinary new approach to evaluating sexual health and the parameters of erotic imagination. Griffin reveals pornography as “not a love of the life of the body, but a fear of bodily knowledge, and a desire to silence

Eros.”

Woman and NatureThe Roaring Inside HerNational Geographic Books

In this famously provocative cornerstone of feminist literature, Susan Griffin explores the identification of women with the earth—both as sustenance for humanity and as victim of male rage. Starting from Plato's fateful division of the world into spirit and matter, her analysis of how patriarchal Western philosophy and religion have used language and science to bolster their power over both women and nature is brilliant and persuasive, coming alive in poetic prose. Griffin draws on an astonishing range of sources—from timbering manuals to medical texts to Scripture and classical literature—in showing how destructive has been the impulse to disembody the human soul, and how the long separated might once more be rejoined. Poet Adrienne Rich calls *Woman and Nature* "perhaps the most extraordinary nonfiction work to have merged from the matrix of contemporary female consciousness—a fusion of patriarchal science, ecology, female history and feminism, written by a poet who has created a new form for her vision. ...The book has the impact of a great film or a fresco; yet it is intimately personal, touching to the quick of woman's experience."

It endures even after Nel has grown up to be a pillar of the black community and Sula has become a pariah. But their friendship ends in an

The Book of Women

In this boldly intimate and intelligent blend of personal memoir, social history, and cultural criticism, Susan Griffin profoundly illuminates our understanding of illness. She explores physical, emotional, spiritual, and social aspects, revealing how it magnifies our yearning for connection and reconciliation. Griffin begins with a gripping account of her own harrowing experiences with Chronic Fatigue and Immune Dysfunction Syndrome (CFIDS), a potentially life-threatening illness that has been misconstrued and marginalized through the label "psychosomatic." Faced with terrifying bouts of fatigue, pain, and diminished thinking, the shame of illness, and the difficulty of being told you are "not really ill," she was driven to understand how early childhood loss made her susceptible to disease. Alongside her own story, Griffin weaves in her fascinating interpretation of the story of Marie du Plessis, popularized as the fictional Camille, an eighteenth-century courtesan whose young life was taken by tuberculosis. In the old story, Griffin finds contemporary themes of "money, bank creditors, class, social standing, who is acceptable and who not, who is to be protected

who abandoned." In our current economy, she sees "how to be sick can impoverish, how poverty increases the misery of sickness, and how the implicit violence of this process wounds the soul as well as the body." Griffin insists that we must tell our stories to maintain integrity and authority, so that the sources of suffering become visible and validated. She writes passionately of a society where we are all cared for through "the rootedness of our connections. How the wound of being allowed to suffer points to a need to meet at that level, to make an exchange at the nadir of life and death, the giving and taking which we weave a more spacious fabric of existence, communitas, community." Her views of the problems of illness and society are deeply illuminating.

From "Mother Earth" to "Mother Nature," women have for centuries been associated with nature. Feminists, troubled by the way in which such representations show women controlled by powerful natural forces and confined to domestic space, have sought to distance themselves from nature. In *Undomesticated Ground*, Stacy Alaimo issues a bold call to reclaim nature as feminist space. Her analysis of a remarkable range of feminist writing as well as of popular journalism, visual arts, television, and film—powerfully demonstrates that nature has been and continues to be an essential concept for feminist theory and practice. Alaimo urges feminist theorists to rethink the concept of nature by probing the vastly different meanings that it carries. She discusses its significance for Americans engaged in social and political struggles from, for example, the "Indian Wars" of the early nineteenth century to the birth control movement in the 1920s, to contemporary battles against racism and

heterosexism. Reading works by Catherine Sedgwick, Mary Austin, Emma Goldman, Nell Larson, Donna Haraway, Toni Morrison, and others, Alaimo finds that some of these writers strategically invoke nature for feminist purposes while others cast nature as a postmodern agent of resistance in the service of both environmentalism and the women's movement. Examining the importance of nature within literary and political texts, this book greatly expands the parameters of the nature writing genre and establishes nature as a crucial part of the cultural work of feminism.

Ecofeminist Literary Criticism is the first collection of its kind: a diverse anthology that explores both how ecofeminism can enrich literary criticism and how literary criticism can contribute to ecofeminist theory and activism. Ecofeminism is a practical movement for social change that discerns interconnections among all forms of oppression: the exploitation of nature, the oppression of women, class exploitation, racism, colonialism. Against binary divisions such as self/other, culture/nature, man/woman, humans/animals, and white/non-white, ecofeminist theory asserts that human identity is shaped by more fluid relationships and by an acknowledgment of both connection and difference. Once considered the province of philosophy and women's studies, ecofeminism in recent years has been incorporated into a broader spectrum of academic discourse. Ecofeminist Literary Criticism assembles some of the most insightful advocates of this perspective to illuminate ecofeminism as a valuable component of literary criticism.

These twenty autobiographical essays by eminent feminist literary critics explore the p

by which women scholars became feminist scholars, articulating the connections between personal and political in their lives and work. From these diverse histories a collective emerges of the development of feminism. Offering a spectrum of experiences and critical positions that engage with current debates in feminism, it will be valuable to teachers and students of feminist theory, women's studies, and the history of the women's movement.
