Ready to unlock the power of your data? With this comprehensive guide, you'll learn how to build and maintain reliable, scalable, distributed systems with Apache Hadoop. This book is ideal for programmers looking to analyze datasets of any size, and for administrators who want to set up and run Hadoop clusters. You'll find illuminating case studies that demonstrate how Hadoop is used to solve specific problems. This third edition covers recent changes to Hadoop, including material on the new MapReduce API, as well as MapReduce 2 and its more flexible execution model (YARN). Store large datasets with the Hadoop Distributed File System (HDFS) Run distributed computations with MapReduce Use Hadoop's data and I/O building blocks for compression, data integrity, serialization (including Avro), and persistence Discover common pitfalls and advanced features for writing real-world MapReduce programs Design, build, and administer a dedicated Hadoop cluster—or run Hadoop in the cloud Load data from relational databases into HDFS, using Sqoop Perform large-scale data processing with the Pig query language Analyze datasets with Hive, Hadoop's data warehousing system Take advantage of HBase for structured and semi-structured data, and ZooKeeper for building distributed systems

"This book spans a number of interdependent and emerging topics in the area of legal protection of privacy and technology and explores the new threats that cyberspace poses to the privacy of individuals, as well as the threats that surveillance technologies generate in public spaces and in digital communication"--Provided by publisher.

The summer 2013 edition of WATVA Trail Tales.

The only one-stop resource of every medical supplier licensed to sell products in the US. This edition offers immediate access to over 13,000 companies-and more than 65,000 products - in two information-packed volumes. This comprehensive resource saves hours of time and trouble when searching for medical equipment and supplies and the manufacturers who provide them. Volume 1: The Product Directory, provides essential information for purchasing or specifying medical supplies for every medical device, supply, and diagnostic available in the US. Listings provide FDA codes & Federal Procurement Eligibility, Contact information for every manufacturer of the product along with Prices and Product Specifications. Volume 2: Supplier Profiles, offers the most complete and important data about Suppliers, Manufacturers and Distributors. Company Profiles detail the number of employees, ownership, method of distribution, sales volume, net income, key executives, detailed contact information, the medical products the company supplies, plus the medical specialties they cover. Four indexes provide immediate access to this wealth of information: Keyword Index, Trade Name Index, Supplier Geographical Index and OEM (Original Equipment Manufacturer) Index. Medical Device Register is the only one-stop source for locating suppliers and products; looking for new manufacturers or hard-to-find medical devices; comparing products and companies; knowing who's selling what and who to buy from cost effectively. This directory has become the standard in its field and will be a welcome addition to the reference collection of any medical library, large public library, university library, along with the collections that serve the medical community.

Personal Data Privacy and Protection in a Surveillance Era: Technologies and Practices

Vols. for 1970-71 includes manufacturers' catalogs.

"The Genealogist's Address Book is the answer to the perennial question, 'What's out there in the world of genealogy?' What organizations, institutions, special resources, and websites can help me? Where do I write or phone or send e-mail? Once again, Elizabeth Bentley's Address Book answers these questions and more. Now in its 6th edition, The Genealogist's Address Book gives you access to all the key sources of genealogical information, providing names, addresses, phone numbers, fax numbers, e-mail addresses, websites, names of contact persons, and other pertinent information for more than 27,000 organizations, including libraries, archives, societies, government agencies, vital records offices, professional bodies, publications, research centers, and special interest groups. Based on a written survey of thousands of organizations and institutions across the country, and supplemented by information from printed and Internet sources, the new 6th edition of the Address Book has been extensively revised and updated, eliminating undeliverable addresses and defunct organizations, while adding thousands of additional sources.

Besides new websites and e-mail addresses, the new edition features greatly expanded coverage of archival agencies and vital records offices, especially in the New England states and New York. In addition, it is now easier to use than ever, with all 27,000 entries divided into two easy-to-use sections."--Page 4 of cover.

Thomas Register of American Manufacturers and Thomas Register Catalog File

An annual reference for the forthcoming season provides a wealth of information for fans who are planning game-focused road trips and outings, in a guide that lists complete major-, minor-, and independent-league schedules; ballpark directions; and detailed contact information. Original.

*Two neuroscience experts explain how their 4-Step Method can help break destructive thoughts and actions and change bad habits for good. A leading neuroplasticity researcher and the coauthor of the groundbreaking books *Brain Lock* and *The Mind and the Brain*, Jeffrey M. Schwartz has spent his career studying the structure and neuronal firing patterns of the human brain. He pioneered the first mindfulness-based treatment program for people suffering from OCD, teaching patients how to achieve long-term relief from their compulsions. For the past six years, Schwartz has worked with psychiatrist Rebecca Gladding to refine a program that successfully explains how the brain works and why we often feel besieged by bad brain wiring. Just like with the compulsions of OCD patients, they discovered that bad habits, social anxieties, self-deprecating thoughts, and compulsive overindulgence are all rooted in overactive brain circuits. The key to making life changes that you want-to make your brain work for you-is to consciously choose to "starve" these circuits of focused attention, thereby decreasing their influence and strength. As evidenced by the huge success of Schwartz's previous books, as well as Daniel Amen's *Change Your Brain, Change Your Life*, and Norman Doidge's *The Brain That Changes Itself*, there is a large audience interested in harnessing the brain's untapped potential, yearning for a step-by-step, scientifically grounded and clinically proven approach. In fact, readers of *Brain Lock* wrote to the authors in record numbers asking for such a book. In *You Are Not Your Brain*, Schwartz and Gladding carefully outline their program, showing readers how to identify negative brain impulses, channel them through the power of focused attention, and ultimately lead more fulfilling and empowered lives.*

Log Home Living is the oldest, largest and most widely distributed and read publication reaching log home enthusiasts. For 21 years Log Home Living has presented the log home lifestyle through photographic features and informative resources. For more than two decades Log Home Living has offered so much more than a magazine through additional resources--shows, seminars, mail-order site, and membership organization. That's why the most serious log home buyers choose Log Home Living.

The Trail Tales Summer 2019 issue of the Wisconsin ATV / UTV Association brings news and updates including a review of the annual meeting, regional meeting and ride dates, trail ambassador of legislative changes, and other updates from around the state. The Kettle Moraine ATV Association provided an update on a large trail cleanup. Juneau County adds new ATV routes throughout the some news from the Upper Peninsula Off Road Vehicle Trail Development Association.
