"This book, a polished, winding meditation on the theory and fractiousness of motorcycles, celebrates both their eccentric history and the wary pleasures of

touring."—The New Yorker In a book that is "a must for anyone who has loved a motorcycle" (Oliver Sacks), Melissa Pierson captures in vivid, writerly prose the mysterious attractions of motorcycling. She sifts through myth and hyperbole: misrepresentations about danger, about the type of people who ride and why they do so. The Perfect Vehicle is not a mere recitation of facts, nor is it a polemic or apologia. Its vivid historical accounts—the beginnings of the machine, the often hidden tradition of women who ride, the tale of the defiant ones who taunt death on the racetrack—are intertwined with Pierson's own story, which, in itself, shows that although you may think you know

A young Muslim leader's memoir of his struggles to forge an American Muslim identity
Haroon Moghul was thrust into the spotlight after 9/11, becoming an undergraduate leader at New York University's Islamic Center forced into appearances everywhere: on TV,

Access Free Yamaha Vmax Manual

before interfaith audiences, in print. Moghul was becoming a prominent voice for American Muslims even as he struggled with his relationship to Islam. In high school he was barely a believer and entirely convinced he was going to hell. He sometimes drank. He didn't pray regularly. All he wanted was a girlfriend. But as he discovered, it wasn't so easy to leave religion behind. To be true to himself, he needed to forge a unique American Muslim identity that reflected his beliefs and personality. How to Be a Muslim reveals a young man coping with the crushing pressure of a world that fears Muslims, struggling

with his faith and searching for intellectual forebears, and suffering the onset of bipolar disorder. This is the story of the second-generation immigrant, of what it's like to lose yourself between cultures and how to pick up the pieces.

The treatment of American Indians is discussed historically with reference to the 4 principal methods used to create or perpetuate false impressions: obliteration, defamation, disembodiment, and

disparagement. Indian contributions to American civilization are cited in contrast with historical references to Indians in textbooks. The author suggests specific reading materials for various age levels which reflect accurately the cultural contributions of the Indian. A bibliography on the American Indian influence on American civilization is appended. (Jh).
