The author of *The Worm in the Bottle* offers a probing examination of our contemporary world in this second poetry collection. *Shadows in the Light* is a modern-day testimony to the complexities of life. With imagery that is by turns lush and starkly beautiful, author and poet Betsy Reavley explores the difficulties we all face. With surprising resonance and far-reaching scope, these poems exemplify the universal power of poetry.

Following Adam Gopnik's best-selling *Paris to the Moon*, the adventure continues against the panorama of another storied city. *Autumn, 2000*: the Gopnik family moves back to a New York that seems, at first, safer and shinier than ever. Here are the triumphs and travails of father, mother, son and daughter; and of the teachers, coaches, therapists, adversaries and friends who round out the extended urban family. From *Bluie*, a goldfish fated to meet a Hitchcockian end, to *Charlie Ravioli*, an imaginary playmate who, being a New Yorker, is too busy to play, Gopnik's New York is charmed by the civilization of childhood. It is a fabric of living, which, though rent by the events of 9/11, will reweave itself, reviving a world where Jewish jokes mingle with debates about the problem of consciousness, the price of real estate and the meaning of modern art. By turns elegant and exultant, written with a signature mix of mind and heart, *Through the Children's Gate* is at once a celebration of a newly fragile city and a poignant study of a family trying to find its way, and joy, within it.

Noosa: the very word itself has become iconic. Today's Noosa is a major tourist destination as well as a magnet for residents seeking a lifestyle that combines urban sophistication with natural beauty. In how it has managed its natural environment and maintained a low-key human footprint, Noosa is quite unlike other coastal Australian settlements. Many who visit or settle in Noosa fail to appreciate that its distinctive qualities were hard won. Most significantly, modern Noosa is the result of more than half a century of effort by one visionary community organisation - Noosa Parks Association. Immediately to the north of Noosa lies the massive wilderness area known as Cooloola. This is the mainland section of the Great Sandy National Park, notable for containing the largest vegetated dune system on the planet. Noosa Parks Association's role in rescuing this natural wonder is generally under-appreciated. With engaging text and magnificent full colour photographs, this book presents both the familiar and hidden worlds of Noosa and Cooloola, and is a glowing testament to one of the oldest and arguably most successful conservation groups in Australia.

Katharine Susannah Prichard was born in 1883 to Australian parents then living in Fiji, but she grew up in Tasmania, lived for a while in both Melbourne and London before finally settling in Western Australia. She was one of the co-founders of the Communist Party of Australia in 1921, and her status as a communist and a female writer led to her being frequently under surveillance and harassment by the Australian police and other government authorities. She wrote *The Black Opal* in 1921, and the novel focuses on the very close-knit opal-mining community living and working on Fallen Star Ridge, a fictitious location set in New South Wales, Australia. Life is hard for the miners as their fortunes rise and fall with the amounts and quality of black opal they can uncover. Black opal is a beautiful mineral with fiery gleams of color, much valued for jewelry. Finding productive seams of such opal is a matter of both hard work and good luck. The novel is a well-drawn study of the relationships of the people living on the Ridge, and the two main characters are portrayed with clarity: Michael Brady, an older man much respected by the other miners for this knowledge and ethical approach, and Sophie Rouminof, a beautiful teenage girl who is the darling of the camp but who abruptly runs away to America after being disappointed in love. Despite the difficulties the individual miners face, there is a community spirit and an agreement on basic values and principles of behavior at the Ridge. But this community of shared endeavor is eventually jeopardized by the influence of outsiders, in particular an American who wishes to buy up the individual mines, operate them under a company structure, and simply pay the miners a salary. This conflict between capitalism and honest manual labour becomes one of the most important themes of the work. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Together, they're trying to navigate the troubled waters of their thirties, become real adults and tame love. But what used to seem like child's play is becoming less and less of a game, and today's mistakes are not as meaningless as the ones they made in their twenties. But each one in his or her own way continues to hope. And from date to date, from man to man, through a thousand situations she describes as "summer stock theatre," Marine persists in believing that one day she'll prove to her mother that you can't fight love.

Thank you for reading our PRINCE2 Foundation Training Manual. The main objective of this book is to provide an easy-to-read and easy-to-understand PRINCE2(R) Foundation training manual. The official PRINCE2 manual, "Managing Successful Projects with

PRINCE2," is an excellent reference manual, but it is not a training manual and should not be used as one, as it is very difficult to comprehend and understand if you are new to project management. The official PRINCE2 manual also covers the complete Practitioner Syllabus, and it's impossible to know which parts are just focused on the PRINCE2 Foundation syllabus, so you have to read everything, which is not good if you are just studying for the foundation exam. Henceforth, this book is meant to be (and is) an easy introduction to PRINCE2 based on the Foundation syllabus, and it's quickly becoming the most read book for people wishing to learn about PRINCE2 and prepare for the foundation exam.
