Sixteen scholars from Western countries address European acquisition of English as a third language, contrasting it with acquiring English as a second language. Third language learners more often have, the editors write, a higher metalinguistic awareness than second language learners. Further, though it is assumed that second language competence is lower than competence in a first language, this may not be the case when comparing second and third language

Understanding Language Testing presents an introduction to language tests and the process of test development that starts at the very beginning. Assuming no knowledge of the field, the book promotes a practical understanding of language testing using examples from a variety of languages. While grounded on solid theoretical principles, the book focuses on fostering a true understanding of the various uses of language tests and the process of test development, scoring test performance, analyzing and interpreting test results, and above all, using tests as ethically and fairly as possible so that test takers are given every opportunity to do their

best, to learn as much as possible, and feel positive about their language learning. Each chapter includes a summary, suggestions for further reading, and exercises. As such this is the ideal book for both beginning students of linguistics and language education, or anyone in a related discipline looking for a first introduction to language testing.

This text follows the progress of two groups of learners in late immersion programmes. It adds to the literature on such programmes by its emphasis on the processes of learning in such programmes. Another aim of the book is to extend knowledge of learning processes in character-based languages.

In an age where the use of electronic media is expanding and the nature of traditional texts and text-based learning is changing, new literacies are becoming increasingly important in the school classroom. This volume examines how new literacies can be used in the English curriculum, and presents a series of research-based studies applied to every level of school-age education. The chapters examine: early literacy; picture books; the internet; secondary school English; and the problems of assessment in the new literacy age. This forward-thinking volume will be of interest to teachers and academics researching education, literacy, applied

Living with his little brother, Fudge, makes Peter Hatcher feel like a fourth grade nothing. Whether Fudge is throwing a temper tantrum in a shoe store, smearing smashed potatoes on walls at Hamburger Heaven, or scribbling all over Peter's homework, he's never far from trouble. He's a two-year-old terror who gets away with everything—and Peter's had enough. When Fudge walks off with Dribble, Peter's pet turtle, it's the last straw. Peter has put up with Fudge too long. How can he get his parents to pay attention to him for a change?
