Audisee® eBooks with Audio combine professional narration and sentence highlighting to engage reluctant readers! Do you play computer games? If you do, you've probably played Minecraft. When Minecraft creator Markus Persson was young, he wasn't very interested in the games themselves. He was more interested in the programming instructions in the computer's manual. By the time Persson was eight years old, he was writing code for his own computer games. When he was eighteen, Persson landed his dream job as a video game programmer. In 2009, he designed Minecraft in a single weekend. In the game, players use blocks to build whatever they choose. Persson wanted to let players use their imaginations, and the idea paid off. Today, Minecraft is one of the most popular computer games in the world. Although Persson doubts he will ever top this success, he continues to develop games, while fans wait for what's next.

When Peter Thiel and Max Levchin launched an online payment website in 1999, they hoped their service could improve the lives of millions around the globe. But when their start-up, PayPal, survived the dot.com crash only to find itself besieged by unimaginable challenges, that dream threatened to become a nightmare. PayPal's history as told by former insider Eric Jackson is an engrossing study of human struggle and perseverance against overwhelming odds. The entrepreneurs that Thiel and Levchin recruited to overhaul world currency markets first had to face some of the greatest trials ever thrown at a Silicon Valley company before they could make internet history. Business guru Tom Peters, author of "In Search of Excellence," called the hardcover edition of *The PayPal Wars* "a real page turner" that featured what he called "the best description of business strategy unfolding in a world changing at warp speed." The new paperback edition features updated material and even more insights on the state of internet commerce. - Publisher.

Author Katy S. Duffield explores the life and achievements of Chad Hurley, Steve Chen, and Jawed Karim, who are the three young men responsible for the creation of YouTube. YouTube, which is on everyone's lips and a favorite place to spend hours on the Internet, provides users with a fast,

A Handbook for Visionaries, Game Changers, and Challengers
Revelations

Twelve-year-old Amelia gets the opportunity to attend a boarding school and learn how to use music to create magic, hoping to become a Maestro like her deceased mother.

Business Model Generation is a handbook for visionaries, game changers, and challengers striving to defy outmoded business models and design tomorrow's enterprises. If your organization needs to adapt to harsh new realities, but you don't yet have a strategy that will get you out in front of your competitors, you need Business Model Generation. Co-created by 470 "Business Model Canvas" practitioners from 45 countries, the book features a beautiful, highly visual, 4-color design that takes powerful strategic ideas and tools, and makes them easy to implement in your organization. It explains the most common Business Model patterns, based on concepts from leading business thinkers, and helps you reinterpret them for your own context. You will learn how to systematically understand, design, and implement a game-changing business model--or analyze and renovate an old one. Along the way, you'll understand at a much deeper level your customers, distribution channels, partners, revenue streams, costs, and your core value proposition. Business Model Generation features practical innovation techniques used today by leading consultants and companies worldwide, including 3M, Ericsson, Capgemini, Deloitte, and others. Designed for doers, it is for those ready to abandon outmoded thinking and embrace new models of value creation: for executives, consultants, entrepreneurs, and leaders of all organizations. If you're ready to change the rules, you belong to "the business model generation!"

Andrew Yang, the founder of Venture for America, offers a unique solution to our country's economic and social problems—our smart people should be building things. *Smart People Should Build Things* offers a stark picture of the current culture and a revolutionary model that will redirect a generation of ambitious young people to the critical job of innovating and building new businesses. As the Founder and CEO of Venture for America, Andrew Yang places top college graduates in start-ups for two years in emerging U.S. cities to generate job growth and train the next generation of entrepreneurs. He knows firsthand how our current view of education is broken. Many college graduates aspire to finance, consulting, law school, grad school, or medical school out of a vague desire for additional status and progress rather than from a genuine passion or fit. In *Smart People Should Build Things*, this self-described “recovering lawyer” and entrepreneur weaves together a compelling narrative of success stories (including his own), offering observations about the flow of talent in the United States and explanations of why current trends are leading to economic distress and cultural decline. He also presents recommendations for both policy makers and job seekers to make entrepreneurship more realistic and achievable.

YouTube For Dummies takes the classic *Dummies* tact in helping tech novices get a handle on a popular technology that more tech-savvy audiences consider “simple.” With so much content on YouTube getting media attention, more first-timers are jumping on the site and they need help. The book also helps the next step audience of users looking to add content to YouTube.

Content includes: Watching the Tube – includes getting your PC ready for YouTube viewing, finding video, signing up for an account, and creating favorites. *Loading Video to YouTube*—covers the nuts and bolts of shooting video, transferring it to a PC, editing it, and sending it up to YouTube. *Bringing Along YouTube*—covers the various ways you can use YouTube video in places other than on the site. Includes mobile YouTube and adding videos to your MySpace page or another Web site. *I Always Wanted To Direct*—explores how to use YouTube's directors program to upload longer video, use the site for marketing, or launch your own videoblog.

The Power of Women at Work

A profound exploration of the Bible's most controversial book—from the author of *Beyond Belief* and *The Gnostic Gospels* The strangest book of the New Testament, filled with visions of the Rapture, the whore of Babylon, and apocalyptic writing of the end of times, the Book of Revelation has fascinated readers for more than two thousand years, but where did it come from? And what are the meanings of its surreal images of dragons, monsters, angels, and cosmic war? Elaine Pagels, New York Times bestselling author and "the preeminent voice of biblical scholarship to the American public" (The Philadelphia Inquirer), elucidates the true history of this controversial book, uncovering its origins and the roots of dissent, violence, and division in the world's religions. Brilliantly weaving scholarship with a deep understanding of the human needs to which religion speaks, Pagels has written what may be the masterwork of her unique career.

Presents a timeline of the history of space exploration, from the earliest astronomers to the creation of satellite and spacecraft technology and the possible future of space travel.

When she was young, Diana Trujillo dreamed of touching the stars. Then she became an aerospace engineer. She builds and uses tools that explore Mars and send the information back to Earth.

#1 NEW YORK TIMES BESTSELLER • “This book delivers completely new and refreshing ideas on how to create value in the world.”—Mark Zuckerberg, CEO of Meta “Peter Thiel has built multiple breakthrough companies, and *Zero to One* shows how.”—Elon Musk, CEO of SpaceX and Tesla The great secret of our time is that there are still uncharted frontiers to explore and new inventions to create. In *Zero to One*, legendary entrepreneur and investor Peter Thiel shows how we can find singular ways to create those new things. Thiel begins with the contrarian premise that we live in an age of technological stagnation, even if we’re too distracted by shiny mobile devices to notice. Information technology has improved rapidly, but there is no reason why progress should be limited to computers or Silicon Valley. Progress can be achieved in any industry or area of business. It comes from the most important skill that every leader must master: learning to think for yourself. Doing what someone else already knows how to do takes the world from 1 to n, adding more of something familiar. But when you do something new, you go from 0 to 1. The next Bill Gates will not build an operating system. The next Larry Page or Sergey Brin won’t make a search engine. Tomorrow’s champions will not win by competing ruthlessly in today’s marketplace. They will escape competition altogether, because their businesses will be unique. *Zero to One* presents at once an optimistic view of the future of progress in America and a new way of thinking about innovation: it starts by learning to ask the questions that lead you to find value in unexpected places.

**How to Restore Our Culture of Achievement, Build a Path for
Entrepreneurs, and Create New Jobs in America**

Designing with Web Standards

Where Good Ideas Come From

Chad Hurley, Steve Chen, Jawed Karim

Female Entrepreneur's Playbook

The Company and Its Visionary Founder, Steve Jobs

Traces the stories of entrepreneurs who rose from the ashes of the dot-com bust to create groundbreaking new Web companies, in an account that documents the success stories of such examples as Facebook, MySpace, and YouTube.

This title examines the remarkable lives of Steve Chen, Chad Hurley, and Jawed Karim and their work building the groundbreaking company YouTube. Readers will learn about Chen, Hurley, and Karim ' s backgrounds and education, as well as their early careers. Also covered is a look at how YouTube operates and issues the company faces, such as handling copyright violations, controlling inappropriate content, and selling the company to Google. Color photos, detailed maps, and informative sidebars accompany easy-to-read, compelling text. Features include a timeline, facts, additional resources, web sites, a glossary, a bibliography, and an index. Technology Pioneers is a series in Essential Library, an imprint of ABDO Publishing Company.

From Chip and Dan Heath, the bestselling authors of Switch and Made to Stick, comes The Myth of the Garage ... and other minor surprises, a collection of the authors' best columns for Fast Company magazine. There are 16 pieces in all, plus a previously unpublished piece entitled 'The Future Fails Again'. In Myth, the Heath brothers tackle some of the most (and least) important issues in the modern business world: - Why you should never buy another mutual fund ('The Horror of Mutual Funds') - Why your gut may be more ethical than your brain ('In Defense of Feelings') - How to communicate with numbers in a way that changes decisions ('The Gripping Statistic') - Why the 'Next Big Thing' often isn't ('The Future Fails Again') - Why you may someday pay \$300 for a pair of socks ('The Inevitability of \$300 Socks') - And 12 others . . . Punchy, entertaining, and full of unexpected insights, the collection is the perfect companion for a short flight (or a long meeting).

A new kind of career playbook for a new era of feminism, offering women a new set of rules for professional success: one that plays to their strengths and builds on the power they already have.

What is this tiny book? Who is this Koons Crooks? With its privately-printed, anonymously-produced 140-copy first printing, *Iterating Grace* became the talk of summer 2015 in the tech world. From Buzzfeed to Tumblr to Fusion, people were puzzled and enthralled by the story of Koons Crooks, a young man who took the Twittered musings of the Silicon Valley elite to heart-and ended up on a profoundly unexpected path, leaving behind only the lovingly hand-calligraphed tweets that had meant so much to him. His story struck an immediate chord. There were competing efforts to identify the author of *Iterating Grace*; blog posts and lengthy comment threads pointed finger at writers all over the country, from Robin Sloan to Susan Orlean to Dave Eggers. Other early theories supposed it was the tip of an elaborate marketing scheme, and soon all would be revealed. But gradually it became clear that it was simply this: a small piece of literary art, perfectly pitched and driven by a Twain-like bemused outrage, by a creator who did not want to be identified, and would not explain anything beyond what the satirical fable said for itself. Disruptive innovators whose tweets are illustrated in *Iterating Grace* include: Austen Allred, cofounder of Grasswire; Sam Altman, president of Y Combinator; Marc Andreessen, coauthor of Mosaic, cofounder of Netscape and Andreessen Horowitz; Jeff Busgang, VC at Flybrige Capital; Tony Conrad, cofounder and CEO of about.me; Benedict Evans, VC at Andreessen Horowitz; Brad Feld, VC at Foundry Group-and many more.

Audisee® eBooks with Audio combine professional narration and sentence highlighting for an engaging read aloud experience! Have you ever watched a home video that went viral on the Internet? Then you've probably heard of the company YouTube. YouTube was created by Steve Chen, Chad Hurley, and Jawed Karim in 2005. When these three friends wanted to share a video from a party, they realized they were on to something. They thought other people would want an easy way to share videos online too. The website they built quickly became the most popular online video community in the world. But how did they go from tech-savvy young adults to founders of one of the Internet's most visited sites ? Discover how Chen, Hurley and Karim came together to build an international platform for video sharing.

A fascinating deep dive on innovation from the New York Times bestselling author of *How We Got To Now* and *Unexpected Life*. The printing press, the pencil, the flush toilet, the battery--these are all great ideas. But where do they come from? What kind of environment breeds them? What sparks the flash of brilliance? How do we generate breakthrough technologies that push forward our lives, our society, our culture? Steve Johnson's answers are revelatory as he identifies the seven key patterns behind genuine innovation, and traces them across time and disciplines. From Darwin and Freud to the halls of Google and Apple, Johnson investigates the innovation hubs throughout modern time and pulls out the approaches and commonalities that seem to appear at moments of originality.

Offers predictions about the shift from private computer systems to Internet-based networks for computer-based businesses, and how the change will impact economics, culture, and society.

Presents a timeline of the dinosaur era, from the earliest Paleozoic age to the final Cretaceous period, with a description of the fossil discoveries made in the eighteenth through the twenty-first centuries.

More women than ever are starting businesses -- yet so few are sharing how they do it. Why? Because being a successful female entrepreneur is hard work and comes with a unique set of challenges that many don't share. If you want to know what happens behind the scenes of a growing business, then this is your guide. If you want to create wealth, opportunities, and freedom in your business when we've got you covered. Whatever is holding you back from having the business of your dreams -- whether it's lack of experience, not knowing where to begin, money issues, or not understanding how to turn your purpose into profit -- this book shows you how other women have walked the path, faced challenges, and built a business that thrives. The Female Entrepreneur's Playbook will change how you think about your business as 20+ successful entrepreneurs reveal their secrets to building a business that complements and enhances their lifestyle. Inside, you'll learn: Why your hero's journey is an essential part of your brand and story. What to do if you need to generate revenue fast. How to avoid the biggest mistakes entrepreneurs make. Why failure often leads to success. What self-care routines help maintain physical, emotional, & mental health. Each chapter is written by a different female entrepreneur who gives candid and advice-fueled answers to empower women to lean into their zone of genius and create a business they love. GET READY TO BE INSPIRED, GROW YOUR BUSINESS, &

CHANGE LIVES. *The Experts* Camille Campins-Adams, Tamra Cornwell Andress, Lindsey Ardmore, Kimberly Beer, Tina Booker, Brianna Coon, Aranzasú De La O, Sarah Failla, Ashley Helene, Lani Dickinson, Emmy Hernandez, Elizabeth Le Coney Hambleton, Sarah Jolley Lawyer, Christy Mayfield, Amanda Monnier, Jill Kinworthy Phillips, Cris Rodriguez, Patty McFarland Rogers, Micaela Royer, Patricia Wooster, Cindy Zuelsdorf
Thirty of our nation's most prestigious poets focus their creative vision on people who not only changed their own lives, but the lives of people all over the world. From Jonas Salk to Steven Spielberg, the subjects of these biographical-inspired poems invented something, said something, did something, changed something. They dared to dream. Each pair of poems is teamed with a biographical portrait.

Based on in-depth interviews with more than 200 leading entrepreneurs, a lecturer at the Stanford Graduate School of Business identifies the six essential disciplines needed to transform your ideas into real-world successes. Each of us has the capacity to spot opportunities, invent products, and build businesses—even \$100 million businesses. How do some people turn ideas into enterprises that endure? Why do some people succeed when so many others fail? *The Creator's Code* unlocks the six essential skills that turn small notions into big companies. This landmark book is based on 200 interviews with today's leading entrepreneurs including the founders of LinkedIn, Chipotle, eBay, Under Armour, Tesla Motors, SpaceX, Spanx, Airbnb, PayPal, Jetblue, Gilt Groupe, Theranos, and Dropbox. Over the course of five years, Amy Wilkinson conducted rigorous interviews and analyzed research across many different fields. From the creators of the companies ranging from Yelp to Chobani to Zipcar, she found that entrepreneurial success works in much the same way. Creators are not born with an innate ability to conceive and build \$100 million enterprises. They work at it. They all share fundamental skills that can be learned, practiced, and passed on. *The Creator's Code* reveals six skills that make creators of all kinds of endeavors breakthrough. These skills aren't rare gifts or slim chance talents. *Entrepreneurship*, Wilkinson demonstrates, is accessible to everyone.

Best-selling author, designer, and web standards evangelist Jeffrey Zeldman has revisited his classic, industry-shaking guidebook.

Updated in collaboration with co-author Ethan Marcotte, this third edition covers improvements and challenges in the changing

environment of standards-based design. Written in the same engaging and witty style, making even the most complex information easy to digest, Designing with Web Standards remains your essential guide to creating sites that load faster, reach more users, and cost less to design and maintain. Substantially revised—packed with new ideas How will HTML5, CSS3, and web fonts change your work? Learn new strategies for selling standards Change what “IE6 support” means “Occasionally (very occasionally) you come across an author who makes you think, ‘This guy is smart! And he makes me feel smarter, because now I finally understand this concept.’” — Steve Krug, author of Don’t Make Me Think and Rocket Surgery Made Easy “A web designer without a copy of Designing with Web Standards is like a carpenter without a level. With this third edition, Zeldman continues to be the voice of clarity; explaining the complex in plain English for the rest of us.” — Dan Cederholm, author, Bulletproof Web Design and Handcrafted CSS “Jeffrey Zeldman sits somewhere between ‘guru’ and ‘god’ in this industry—and manages to fold wisdom and wit into a tale about WHAT web standards are, HOW standards-based coding works, and WHY we should care.” — Kelly Goto, author, Web ReDesign 2.0: Workflow that Works “Some books are meant to be read. Designing with Web Standards is even more: intended to be highlighted, dogeared, bookmarked, shared, passed around, and evangelized, it goes beyond reading to revolution.” — Liz Danzico, Chair, MFA Interaction Design, School of Visual Arts

From YouTube's Head of Culture and Trends, a rousing and illuminating behind-the-scenes exploration of internet video's massive impact on our world. Whether your favorite YouTube video is a cat on a Roomba, “Gangnam Style,” the “Bed Intruder” song, an ASAPscience explainer, Rebecca Black's “Friday,” or the “Evolution of Dance,” Kevin Allocca's Videocracy reveals how these beloved videos and famous trends--and many more--came to be and why they mean more than you might think. YouTube is the biggest pool of cultural data since the beginning of recorded communication, with four hundred hours of video uploaded every minute. (It would take you more than sixty-five years just to watch the vlogs, music videos, tutorials, and other content posted in a single day!) This activity reflects who we are, in all our glory and ignominy. As Allocca says, if aliens wanted to understand our planet, he'd give them Google. If they wanted to understand us, he'd give them YouTube. In Videocracy, Allocca lays bare what YouTube videos say about our society and how our actions online--watching, sharing, commenting on, and remixing the people and clips that captivate us--are changing the face of entertainment, advertising, politics, and more. Via YouTube, we are fueling social movements, enforcing human rights, and redefining art--a lot more than you'd expect from a

bunch of viral clips.

Michael Strangelove provides a broad overview of the world of amateur online videos and the people who make them. He describes how online digital video is both similar to and different from traditional home-movie-making and argues that we are moving into a post-television era characterized by mass participation. --from publisher description.

The Wall Street Journal Bestseller! Updated to include Steve Jobs's iPad and iPad2 launch presentations "The Presentation Secrets of Steve Jobs reveals the operating system behind any great presentation and provides you with a quick-start guide to design your own passionate interfaces with your audiences." —Cliff Atkinson, author of Beyond Bullet Points and The Activist Audience Former Apple CEO Steve Jobs's wildly popular presentations have set a new global gold standard—and now this step-by-step guide shows you exactly how to use his crowd-pleasing techniques in your own presentations. The Presentation Secrets of Steve Jobs is as close as you'll ever get to having the master presenter himself speak directly in your ear. Communications expert Carmine Gallo has studied and analyzed the very best of Jobs's performances, offering point-by-point examples, tried-and-true techniques, and proven presentation secrets in 18 "scenes," including: Develop a messianic sense of purpose Reveal the Conquering hero Channel your inner Zen Stage your presentation with props Make it look effortless With this revolutionary approach, you'll be surprised at how easy it is to sell your ideas, share your enthusiasm, and wow your audience the Steve Jobs way. "No other leader captures an audience like Steve Jobs does and, like no other book, The Presentation Secrets of Steve Jobs captures the formula Steve uses to enthrall audiences." —Rob Enderle, The Enderle Group "Now you can learn from the best there is—both Jobs and Gallo. No matter whether you are a novice presenter or a professional speaker like me, you will read and reread this book with the same enthusiasm that people bring to their iPods." —David Meerman Scott, bestselling author of The New Rules of Marketing & PR and World Wide Rave
