What was cinema in modern China? It was, this book tells us, a dynamic entity, not strictly tied to one media technology, one mode of operation, or one system of aesthetic code. It was, in Weihong Bao's term, an affective medium, a distinct notion of the medium as mediating environment with the power to stir passions, frame perception, and mold experience. In Fiery Cinema, Bao traces the permutations of this affective medium from the early through the mid-twentieth century, exploring its role in aesthetics, politics, and social institutions. Mapping the changing identity of cinema in China in relation to Republican-era print media, theatrical performance, radio broadcasting, television, and architecture, Bao has created an archaeology of Chinese media culture. Within this context, she grounds the question of spectatorial affect and media technology in China's experience of mechanized warfare, colonial modernity, and the shaping of the public into consumers, national citizens, and a revolutionary collective subject. Carrying on a close conversation with transnational media theory and history, she teases out the tension and affinity between vernacular, political modernist, and propagandistic articulations of mass culture in China's varied participation in modernity. Fiery Cinema advances a radical rethinking of affect and medium as a key insight into the relationship of cinema to the public sphere and the making of the masses. By centering media politics in her inquiry of the forgotten future of cinema, Bao makes a major intervention into the theory and history of media.

Profoundly rooted in Jewish tradition, Gates of Prayer has become the standard liturgical work for the Reform Movement. The traditional symbols of the Usui System of Reiki take a key position in this unique tradition. Without them and their mantra's, Reiki is not possible. The dedication rituals necessary for the practice of Reiki as well as the complex healings can only be accomplished on the foundation of Usui symbols with the certainty and effectiveness one expects from Reiki. Written in a remarkably precise and lucid style by two foremost authors on Reiki, this compendium reveals indispensable information of tremendous spiritual value.

***Under the influence of declining birth rates, expanding longevity, and changing population structures around the world, the global prevalence of senile dementia is expected to increase more than four-fold within the next forty years. Within the United States alone, the number of affected individuals over the age of 65 is expected to rise exponentially from 8 million cases (2% of the entire population in the year 2000), to 18 million retirees (roughly 4.5% of the national census in the year 2040). Although they are striking, these statistics quite likely underestimate the scope of the coming epidemic, as they fail to consider the impact of under-diagnosis, early-onset disease, and the potential for a changing incidence of illness in the context of increasingly toxic environments. In the face of this imminent crisis, concerned observers have called for policies and practices which aim to prevent, limit, or reverse dementia. Drug-Induced Dementia: A Perfect Crime is a timely resource which reveals why and how medical treatments themselves - specifically, psychopharmaceuticals - are a substantial cause of brain degeneration and premature death. A first-of-its-kind resource for patients and clinicians, the book integrates research findings from epidemiology (observational studies of patients in the "real world"), basic biology (animal experiments), and clinical science (neuroimaging and autopsy studies) in order to demonstrate the dementing and deadly effects of psychiatric drugs. Highlighted by more than 100 neuroimages, slides of tissue specimens, and illustrations, the book uniquely describes: the societal roots of the problem (target organ toxicity, regulatory incompetence, and performativity) the subtypes and essential causes of dementia the patterns, prevalence, and causes of dementia associated with antidepressants, antipsychotics, anxiolytics, mood stabilizers, and stimulants and the actions and reforms which patients, providers, and policy makers might immediately pursue, in an effort to mitigate the causes and consequences of this iatrogenic tragedy.***

Are you seeing number sequences like 11:11 and 4:44 everywhere you turn? If you always see the same numbers repeated - from license plates to receipts and digital clocks - it could be your angels sending you a message. Angels are divine messengers who have existed in some form in almost every religion and culture since the dawn of time. In this digital age, they are finding new ways to remind you of your higher truth. Best-selling angel author Kyle Gray explains exactly what your angels are trying to tell you through these repeated sequences, from numbers 0 through 999 and popular digital clock combinations like 1:23, 21:12, 22:22, and 5:55. Whenever you need guidance from your angels, simply ask. Know that your angels are always listening and looking for an opportunity to send you a reminder that they are near.

The Butterfly Lovers Story, sometimes called the Chinese Romeo and Juliet, has been enduringly popular in China and Korea. In *Transforming Gender and Emotion*, Sookja Cho demonstrates why the Butterfly Lovers Story is more than just a popular love story. By unveiling the complexity of themes and messages concealed beneath the tale's modern classification as a tragic love story, this book reveals the tale as a rich academic subject for students of human emotions and relationships, comparative geography and culture, and narrative adaptation. By examining folk beliefs and ideas that abound in the narrative—including rebirth and a second life, the association of human souls and butterflies, and women's spiritual power—this book presents the Butterfly Lovers Story as an example of local religious narrative. The book's cross-cultural comparisons, best manifested in its discussion of a shamanic ritual narrative version from the Cheju Island of Korea, frame the story as a catalyst for inclusive, expansive discussion of premodern Korean and Chinese literatures and cultures. This scrutiny of the historical and cultural background behind the formation and popularization of the Cheju Island version sheds light on important issues in the Butterfly Lovers Story that are not frequently discussed—either in past examinations of this particular narrative or in the overall literary studies of China and Korea. This new, open approach presents an innovative framework for understanding premodern literary and cultural space in East Asia.
